## SECTION I

### A. INTRODUCTION

The New Jersey Turnpike Authority (the “Authority”) was created by an act of the New Jersey Legislature in 1948, known as the New Jersey Turnpike Authority Act (as amended and supplemented, “Act”). The Act authorizes the Authority to construct, maintain, repair, and operate the New Jersey Turnpike, to collect tolls, and to issue Turnpike Revenue Bonds or Notes, subject to the approval of the Governor, payable from tolls and other revenues of the Authority. On May 27, 2003, the Act was amended to empower the Turnpike to assume all powers, rights, obligations and duties of the New Jersey Highway Authority (the “Highway Authority”), which owned and operated the Garden State Parkway and PNC Bank Arts Center. On July 9, 2003, the Authority assumed all powers, rights, obligations and duties of the Highway Authority. The Authority currently operates both the Garden State Parkway (“GSP”) and the New Jersey Turnpike (“Turnpike”) (both roads are collectively referred to herein as the (“Roadways”).

The Authority is governed by an eight-member Board of Commissioners (“Board”). The Governor of New Jersey appoints each of its members and has the statutory authority to overturn an action of the Board by vetoing any Board action within 10 days of receiving the minutes of the meeting. The Board authorizes awards of all public contracts over \$100,000, except in cases where it has delegated authority to the Executive Director.

This bid solicitation is being conducted pursuant to the Authority’s enabling statute as found in *N.J.S.A. 27:23-6.1* and Executive Order number 37 (Corzine 2006) and the regulations and policies of the Authority with regard to public bid procurement.

## INTRODUCTION

The New Jersey Turnpike Authority (hereafter referred to as the Authority) is one of the largest toll roads in the United States. Magnetic toll tickets are used on the system to carry vital information from the point of entry to exit, and as a means of transporting the information to various locations within the system for processing. The reliable capture and transfer of data is critical to the uninterrupted operation of the Turnpike. The magnetic toll ticket is an integral part of the Authority's Management Information System. Quality manufacturing, field reliability, price and timely delivery are key elements in the long-term success of a ticket vendor for the Authority.

This document details the Authority's current requirements for magnetic roll stock toll tickets. A manufacturer will be required to meet as a vendor of those tickets, and the testing and quality levels that a successful vendor will be required to maintain.

## BID REQUIREMENTS

The Authority will divide its total ticket requirements equally between two vendors / contracts who provide the Authority with the highest quality and lowest priced product. No one Vendor can be awarded both contracts. **This solicitation was instituted to award one of those contracts in keeping with the Authority's intent of having 2 suppliers for the tickets.** In making the award, full compliance with technical specifications will be judged first; then fully technically compliant bidders will be judged on price. **This solicitation will award two (2) contracts to the lowest, responsible bidders.** Bidders are required to bid on and supply all of the magnetic toll tickets, as listed below, in accordance with the Detailed Tabulations, Specifications, Terms and Conditions, attached. The estimated quantity shown represents a full contract for the successful vendor.

<b>Bid Item</b>	<b>Estimated Quantity</b>	<b>Description</b>
1.	20,000,000	Revenue Toll Tickets, Roll Stock

Tickets shall be packaged and shipped in durably constructed cartons, 3,200 per roll, and 16,000 per carton. To ensure reasonably safe protection of the tickets during repeated handling and storage, the seal flaps of the boxes are to be overlapped and secured with a strong binding adhesive. Each roll of tickets shall be sealed in a vacuum or shrink-wrapped package to prevent quality deterioration.

The order number, date of delivery, and description of the ticket shall be legibly marked on the outside of the carton. A sample ticket shall be securely attached to the carton.

## SECTION I

### GENERAL TERMS AND CONDITIONS

#### 1. AWARDS

Bidders must not and shall not, during the duration of this contract, have any business or financial arrangements with each other or similar subcontractors as it pertains to the performance of this contract unless such arrangements have been approved in writing by the Authority.

It is the intention of the Authority that the vendor shall be independent in manufacture, production, and supply of the finished product. As part of its bid, the vendor shall submit for prior approval the names, addresses and phone numbers of any subcontractor who shall provide either the magnetic stripe and/or finishing of the toll tickets. The Authority reserves the right to reject any vendor's bid in the event the Authority determines that such vendor or any of its subcontractors will perform similar work for any other bidder or vendor for any phase of the production of the toll tickets. The Authority shall make this determination solely and the vendor agrees that the decision of the Authority shall be final and binding. It is further understood and agreed by all bidders that this provision shall be effective and binding throughout the award and duration of this contract. In the event it is determined by the Authority that the vendor is violating this provision, the Authority shall have the right to take whatever action it deems necessary, including termination.

#### 2. WRITTEN COMMUNICATIONS

Communications shall be in writing, with oral communications confirmed in writing by either e-mail, fax and/or written letter. All orders for toll tickets will be on a Purchase Order that will be emailed to the vendor.

#### 3. CONTRACT PERIOD

The contract period shall commence on the date stipulated in the Notice of Award (NOA) issued by the Authority. Upon expiration, the contract period of this "NOA" may be extended to both or either vendor under the same "Terms and Conditions" by mutual consent. The Authority may terminate a month-to-month extension upon thirty (30) days prior written notice. The term of the contract shall be for two years from the date of issue or one year from the expiration of any current ticket contracts where applicable with the option to extend for two additional one-year terms at the Authority's discretion and Vendor's concurrence.

4. **PRICE ADJUSTMENT:** In the event that the Authority exercises its right to extend the Contract, the original bid prices may be subject to renegotiation provided the maximum increase shall not result in any bid item exceeding six percent (6%), based on the approval by the Director of Procurement. In the event that the Authority exercises its right to extend the Contract for a second term, the original bid prices may again be subject to renegotiation provided the maximum increase shall not result in any bid item exceeding 10 percent (10%) of the original bid price based on the approval by the Director of Procurement.

5. **QUANTITIES**

The estimated quantities set forth in the bid form are considered accurate; however, the Authority reserves the right to increase or decrease the quantities. Any increase or decrease in the specified ordering quantities will be communicated in writing. The Authority assumes no responsibility or liability for tickets produced or stockpiled one (1) month or more in advance of scheduled shipping dates. Payment will be made on the basis of quantities actually furnished and accepted.

*The Authority assumes no responsibility for plates, materials, supplies or other costs incurred by the vendor as a result of an increase or decrease in quantity requirements unless the costs are agreed upon by the Authority in writing prior to being increased.*

6. **PROOFS/PRODUCTION OF PLATES**

**Upon award, the two successful vendors shall submit two (2) copies of all ticket proofs to the Authority in PDF format and must submit as well in Microsoft Excel format. (NO EXCEPTIONS) Also, proofs shall be submitted for approval whenever a revision is made to an existing plate or a new plate is needed. (Toll Ticket language is subject to change.) Production cannot commence until the Authority approves proofs. The Authority will inspect all proofs and advise the successful vendor(s) of any discrepancies as soon as possible.**

7. **PLATES, ARTWORK AND NEGATIVES**

The cost to produce the initial set of artwork, negatives and plates shall be the vendor's responsibility. Artwork, negatives and plates shall be considered the property of the Authority and surrendered at the expiration of this contract. All worn, damaged or defective plates must be surrendered to the Authority after approval of replacement plates. The cost of replacement of all worn, damaged or defective plates shall be the vendor's responsibility.

8. **SAMPLE TICKETS: ROLL STOCK TICKETS**

Bidders **MUST** submit together with their bid proposal to the Authority for testing at least 16,000 sample magnetic roll stock tickets. A minimum of 3,200 tickets from each stripe across the magnetically coated web shall be furnished in this test. **THE AUTHORITY WILL REJECT BIDS THAT ARE NOT ACCOMPANIED BY A MINIMUM OF 16,000 SAMPLE TICKETS FOR TESTING, IF THE SAMPLE TICKETS SUBMITTED HAVE SUBSTANTIAL DEFICIENCIES, IF THE STRIPES ARE NOT SEGREGATED AND CLEARLY IDENTIFIED, OR IF VENDOR TEST REPORTS ARE NOT SUBMITTED WITH SAMPLE TICKETS THE BID WILL BE REJECTED.** Toll tickets (currently used) are available upon request at the bidder's expense. Sample tickets to be provided by the bidder with bid must mirror the toll tickets provided by the Authority.

The position of the stripe on the web and stripe # across the web must be clearly identified.

Each stripe population shall be packaged separately for the purpose of the sample evaluation only. Sample tickets shall comply with the specified paper and magnetic stripe requirements and be printed with format

supplied by the Authority. The magnetic stripe on sample tickets shall be the same as product to be supplied. The Authority will test the sample tickets and advise bidders of deficiencies as soon as possible. The vendor in accordance with this specification will test the sample tickets submitted. A report outlining the results of these tests must be submitted to the Authority with the sample magnetic tickets. The report format to be used is contained in Appendix II hereof. ***Tickets must prove satisfactory in the sole discretion of the Authority to qualify for award of the bid. THE VENDOR QUALITY PLAN, VENDOR CERTIFICATE AND IN-PROCESSOR FINAL INSPECTION PROCEDURES AS OUTLINED IN SECTION II, MUST BE SUBMITTED AND APPROVED PRIOR TO CONTRACT APPROVAL.***

**9. FACILITIES**

The vendor shall have on-line magnetic test equipment, quality control (QC) documentation and a QC laboratory equipped to perform all the tests required by the specifications, or an Authority approved independent laboratory qualified to make such tests.

**10. INSPECTION**

Representatives of the Authority and/or its Consultant(s) shall have access to the plant of the bidder prior to the award of this “NOA” at any time during working hours to inspect work in progress, quality control and testing facilities. The Authority and/or its consultant(s) will make periodic, ***unannounced*** spot inspections of work in progress, of QC and test facilities at the vendor's site, subcontractor's or at laboratories used by the vendor during the life of the contract.

**11. DELIVERY SCHEDULE**

The vendor shall at all times be in strict compliance with the delivery-scheduled dates as set forth in each Purchase Order. All other production and delivery schedules will be coordinated with the successful vendors. Unless otherwise notified, deliveries are required within thirty calendar days after receipt of the Purchase Order.

**12. DELIVERIES**

All tickets shall be shipped prepaid, F.O.B. to the Authority's Facility: 950 US Highway 9 North Woodbridge, New Jersey 07095 Delivery times: 8:30 A.M. to 2:30 P.M. on dates specified and in strict accordance with Section I, Item 11. The Authority reserves the right to change the locations of its storage facilities at no change in the price bid.

**13. REJECTIONS**

***Failure of the toll tickets to perform on the Authority's Dual-height Automatic Ticket Issuing Machines (DATIMs), failure to perform in the normal environment of the Turnpike, or failure to meet specifications or descriptions herein or attached hereto shall be cause for rejection.*** The vendor within ten (10) working days shall replace tickets that do not meet specifications. The Authority, pending laboratory results to be submitted by the vendor, will hold tickets in question. Tickets that are rejected for poor field performance will be demonstrated to the vendor at the vendor's request. The vendor will have 10 days to suggest acceptable solutions to the Authority to correct the field performance failures and re-work the tickets to correct the deficiency, or to replace the tickets in question. The results of any laboratory testing, conducted by the vendor at its sole cost, shall be submitted in writing to the Authority no later than five (5) days after submission of tickets for testing. If a question of the vendor's laboratory results still exists, then the Authority reserves the right to have an

independent testing laboratory test the tickets. All tickets that still do not meet specifications, or that are not able to perform in the Authority's DATIMs, will be returned to the vendor at the vendor's expense.

Results of the independent laboratory shall be final. Vendor shall pay all costs of such independent laboratory only if its results continue to demonstrate tickets do not meet specifications. Pursuant to Section I, Item 15, two consecutive rejections of deliveries for failure of performance shall be grounds for cancellation of the contract.

#### **14. FAILURE TO PERFORM**

If in the Authority's sole judgement, the vendor becomes unable to complete critical deliveries listed herein and/or becomes unable to perform in accordance with any other stated requirement(s) of this "NOA" and these Terms and Conditions, the Authority will meet with the vendor to establish the reason for the delay and/or Failure to Perform and to determine the terms and conditions under which the "NOA" will be completed.

In addition to any other rights under these Terms and Conditions, for failure of performance the Authority shall have the right to:

- Require the vendor to subcontract to others all or part of the "NOA", not actually completed and to charge the vendor for all expenses incurred by the Authority in excess of those approved in the Purchase Order.
- Completion of all or part of the "NOA" with other contractors, at the vendor's cost for all expenses incurred by the Authority in excess of those approved in the "NOA".
- Any other remedy the Authority deems necessary, with the vendor being solely responsible for additional costs incurred by the Authority in excess of those approved in the "NOA" if any.

#### **15. RIGHT TO TERMINATE**

In addition to any other right under these specifications, for failure of performance, the Authority shall have the right to terminate this "NOA" ten (10) days prior written notice, and/or to assess and collect liquidated damages and pursue a cause of action for actual or consequential damages and/or specific performance, all as more fully described herein:

- For two (2) late deliveries. Deliveries shall be considered late after four (4) days from the delivery date specified.
- For failure to complete printing plates in accordance with Section I, Item 6.
- If the tickets from two (2) consecutive deliveries fail on the Authority's equipment.
- For failure to the vendor to comply with the Terms, Conditions and Specifications of the Purchase Order.
- If the vendor shall make an assignment for the benefit of creditors or file a voluntary petition in bankruptcy or if any involuntary petition in bankruptcy, insolvency, liquidation and/or other similar proceeding is filed against the vendor and/or any related company that will materially and adversely affect the vendor's ability to perform its obligations under these specifications and the

contract for the work, and the act of bankruptcy therein alleged is not denied by the vendor or, if denied, adjudicated against the vendor by a court of competent jurisdiction.

- In addition, the Authority shall have the right, without the necessity of court proceedings, to recover all equipment; material or supplies that are the property of the Authority and have been entrusted will the vendor to be used in the performance of said purchase order. The Authority shall have the right to set off damages incurred by the Authority against any monies earned by and due the vendor as a result of the vendor's unsatisfactory performance including, but not limited to, the additional cost of the Authority's obtaining satisfactory performance in workmanship and materials from other sources.

**16. RIGHT TO CURE**

In addition to the Authority's rights under Section I, Item 16, the Authority upon written notice of a failure to perform under the contract, may require the vendor to cure such failure within a stipulated reasonable time. The vendor shall assume all costs associated with its corrective actions. Failure to cure within the required time period shall allow the Authority to proceed to termination and to complete the contract with its own forces or to contract with others and to charge the vendor for all costs incurred by the Authority in excess of those approved in the Purchase Order.

**17. ASSIGNMENT**

The Authority intends that the manufacture of the roll stock tickets will be performed by the successful vendor independent of any other vendors already under contract with the Authority and accordingly, will not permit the assignment of all or any part of one vendor's award to another. Assignment of this ticket contact will require the prior written consent of the Authority.

**18. LIQUIDATED DAMAGES**

The vendor unconditionally guarantees that he can and will provide the roll stock tickets and/or such other services as set forth in the terms and conditions of these specifications within the time limit stated in the contract documents, or within the time as extended in accordance with the provisions of these specifications. Inasmuch as the damage and loss to the Authority that will result from the failure of the vendor to so perform within the stipulated time will be most difficult or impossible of accurate estimate, the damages to the Authority for such delay and failure on the part of the vendor shall be liquidated in the amount of \$500.00 for each and every calendar day that the vendor shall be in default in completing the work such that delivery is delayed beyond the time specified in accordance with the provisions hereof. The liquidated damages shall not be considered as a penalty. The Authority will deduct and retain out of any money due or to become due hereunder the amount of the liquidated damages.

The liquidated damages shall be in addition to any other consequential losses or damages that the Authority may incur by reason of such delay, and shall not, in any way, limit the Authority's right to commence any additional legal or equitable action against the vendor to which it may be entitled by law or to any other remedies available to it pursuant to the specifications set forth herein. The vendor shall be charged with liquidated damages when the delay in performance arises out of causes beyond the control and without the fault or negligence of the Authority. Any sums by way of liquidated damages for which the vendor is liable shall be deducted by the Authority from any monies due or to become due to the vendor. Bidders, in submitting a bid for this project, fully understand and agree to this provision.

The time for completion of the work, as specified herein, are **ESSENTIAL CONDITIONS** and it is agreed that the work contemplated in these specifications shall be prosecuted regularly, diligently and uninterruptedly at such rate of progress as shall insure the timely delivery of such roll stock tickets in full compliance with the terms and conditions of these specifications and completion thereof within the time frames specified. It is expressly understood and agreed, by and between the Authority and the vendor, that the timely delivery of such roll stock tickets in full compliance with the terms and conditions of these specifications for the completion of the work described herein is a reasonable time for the completion of the same.

It is further understood and agreed, by and between the Authority and the vendor that **TIME IS OF THE ESSENCE** for each, and every portion of work required in these specifications. In the event additional time is allowed pursuant to the express authorization of the Authority for the completion of any work, the new time limit fixed by such extension shall be deemed to be of the essence under these specifications and the contract for the performance of the work.

## SECTION II

### **SPECIFICATIONS MAGNETIC TOLL TICKET SPECIFICATIONS**

#### **ROLL STOCK TICKETS**

##### **1.0 GENERAL DESCRIPTION**

The New Jersey Turnpike Authority has a need for magnetic striped tickets for use as a temporary data storage and transfer device on the New Jersey Turnpike. Tickets useful for this application are printed on both sides with graphics and text using conventional, non-toxic printer's ink. The topside also has a single magnetic stripe approximately 2 $\frac{1}{2}$  wide and 4 $\frac{1}{2}$  long applied to the center of the ticket from edge to edge.

The ticket substrate shall be made from paper (White Tab Card Stock).

There shall be only one category of revenue tickets for each Toll Plaza. **(26 Plazas, each plaza is unique)**

Toll tickets must be suitable for year-round use in the climatic environment along the Turnpike with the ticket processing equipment used. **Toll tickets must operate on Turnpike equipment in the year-round environment along the Turnpike. The Authority will take no special handling precautions.**

No component of the ticket shall be capable of causing bodily harm by contact, inhalation or ingestion in the course of normal usage by Turnpike patrons. The tickets must be non-toxic if the ticket is held in a patron's mouth. Safety test data must be submitted to the Authority prior to the bid award.

The revenue toll tickets will be issued from a ticket roll. The ticket will be cut by the ticket transport upon issue. **Splicing or mending of the rolls is not permitted.**

Each ticket will include two (2) pre-punched holes every 119.6  $\pm$  0.4 mm. Each hole has a 4-mm diameter. The holes are located in opposite corners of the ticket and positioned 21.5  $\pm$  0.5 mm from the front edge of the ticket and 4.3  $\pm$  0.3 mm from the upper edge of the ticket

Due to the fact that the magnetic head of the ticket transport is located on the upper side of the unit, the paper ticket must be wound with the magnetic stripe facing inside and around a core with the following specifications.

The external diameter of the ticket roll should not exceed 12.5 inches. The inside diameter of the core shall be 2.75  $\pm$  0.02 inches. The outside diameter of the core shall be 4.13  $\pm$  0.01 inches. The last ticket must be glued to the core.

## 4.0 ENVIRONMENTAL TESTING

The substrate must meet all dimensional specifications at four environmental conditions:

10°F	85% RH
10°F	10% RH
100°F	85% RH
100°F	20% RH

All tests performed on the substrate will be done at each of the four above conditions.

### 4.1 Testing Protocol

Paper is a substrate material that is very sensitive to temperature and humidity. Tests done on toll tickets are highly variable depending on the environmental history of the sample. The following conditioning procedure is required prior to performing any tests on samples or substrate. This procedure will be done on all tests by the vendor and prior to incoming inspection at the Turnpike:

The samples are allowed to equilibrate to room temperature (70°F) in ambient humidity (20%) for 24 hours. The entire population of samples is removed from any protective wrapping and packaging. All of the samples are then placed into an environmental chamber and conditioned at the requisite temperature and humidity for a period of at least 48 hours.

Testing is then performed on the sample in accordance with this specification. Care should be taken to remove only enough samples and perform only those tests that can be done within 30 minutes of removal from the environmental chamber to avoid biasing the test results.

All testing should be done in a stable environment between 20 and 40% RH and 20-27°C (68-80°F). If the test facility does not control the environment between these parameters, it is strongly recommended that the tests be performed in an environmentally controlled "glove box" whenever practical.

In addition to replacing the rejected tickets, all costs for testing (Labor and Handling) incurred in determining this rejection, shall be borne by the vendor.

## APPENDIX I

### TICKET PROCESSING EQUIPMENT USED BY THE AUTHORITY

This section describes the Authority's equipment for the vendor's understanding and guidance. Toll tickets will be processed in the following:

#### Dual Automatic Ticket Issuing Machines (DATIM)

The DATIM feed unit holds 3,200 tickets. The proposed booth mounted DATIM is provided with four card throats: two for High Level vehicles (HL) or commercial Vehicles, and two for Low Level (LL) or passenger cars. The DATIM is designed with four ticket issuing machines in order to provide a redundancy at each level and to keep the lane open whenever one machine is out of order or needs to be serviced (ex: reload a paper roll). Each level incorporates a dual ticket-issuing machine with independent ticket feed/transport/encode/print mechanisms and an interlock system, which prevents the issue of two tickets.

The active ticket-issuing machine is selected by the lane controller which will switch automatically to the alternate unit if one is inoperative. Tickets are automatically delivered by the DATIM upon receiving the corresponding command from the lane controller as patrons enter the lane. The DATIM is also equipped with Input/Output interfaces to control other devices such as a maintenance keyboard, alphanumeric display, and warning indicators (over height and spare).

Some space and cabling provisions are taken in order to incorporate two intercom speakers with call buttons, as well as a manual swipe card reader. These last two items are controlled directly by the external lane controller unlike the ticket transports, which are controlled, by the built-in DATIM controller.

#### Ticket Feed and Cut Mechanism

This mechanism enables the reader/encoder to issue magnetic stripe tickets from a ticket roll or a continuous strip.

The cut and feed mechanism is fitted with an individually motorized drive system, a hole detection photocell CE7 and a ticket cutter.

A scissors mechanism is provided to cut the ticket material neatly and accurately. Tickets are cut at exactly the same length upon detection by a photocell CE7 of a 4-mm diameter hole located on the border of the ticket and pre-punched at the paper supply factory at the time of roll manufacturing. The capacity of the roll is 3,200 for 120 mm tickets and the MCBF of the scissors mechanism is greater than 1 million tickets.

## **Batch Ticket Machines**

Provide office level ticket processing operations, such as pre-encoding non-revenue official wrecker and snowplow tickets, processing toll lane tickets for special audits or because of equipment failure. Mechanically similar to Toll Terminal.

## **Examination of Ticket Processing Equipment**

It is the vendor's responsibility to inspect and review the ticket processing equipment to his own satisfaction as it pertains to the feeding of tickets through the types of feeding methods and devices as shown above.

**Due to future changes in economic financial and/or insurance market conditions the Authority at its discretion may modify the above stated insurance requirements.**

NOTWITHSTANDING THAT MINIMUM AMOUNTS OF INSURANCE COVERAGE CARRIED OR REQUIRED TO BE CARRIED BY THE BIDDER ARE SPECIFIED HEREIN, THE LIABILITY OF THE BIDDER SHALL NOT BE LIMITED TO THE AMOUNTS SO SPECIFIED AND SHALL EXTEND TO ANY AND ALL LIABILITY IN EXCESS OF THE INSURANCE COVERAGES SO PROVIDED NOR SHALL THESE MINIMUM LIMITS PRECLUDE THE AUTHORITY FROM TAKING ANY ACTION AVAILABLE TO IT UNDER THE PROVISIONS OF THE CONTRACT OR OTHERWISE IN LAW.

**B. INDEMNIFICATION**-Vendor agrees to defend, indemnify and save harmless the Authority, its Commissioners, officers, employees, and agents and each and every one of them against and from all liabilities, judgments, threatened, pending or completed actions, suits, demands for damages or costs of every kind and description actually and reasonably incurred (including attorney's fees and costs and court costs) (collectively "Liabilities") including, without implied limitations, Liabilities for damage to property or Liabilities for injury or death of the officers, agents and employees of either the vendor or the Authority, resulting from any act or omission or willful misconduct of the vendor or any of its officers, agents, sub-consultants, or employees in any manner related to the subject matter of the contract. In the event that the vendor fails to defend, indemnify and save harmless the Authority, its Commissioners, officers, employees, and agents, and each and every one of them, in accordance with this Section, any money due to the vendor under and by virtue of the contract as shall be considered necessary by the Authority may be retained by the Authority and held until any and all liabilities shall have been settled and suitable evidence to that effect furnished to the Authority. The obligations in this Section shall survive the termination, expiration or rescission of the contract.

**C. PATENT INDEMNIFICATION**-The vendor hereby agrees that it will indemnify, defend, and save harmless the Authority, its Commissioners, officers, agents and servants from all suits, actions, claims and judgments of any kind or character whatsoever for infringement of patent, trademark or copyright regarding the items bid herein that may be brought by any person, corporation, or firm.

## **VI. DELIVERY REQUIREMENTS**

**A. DELIVERY DATE**-A FIRM delivery date must be stated on the bid. Statements such as "stock" or "immediate" are not acceptable. Where the RFB calls for delivery within a specified time, it shall be indicated in the bid whether delivery will be made within the time specified.

**B. F.O.B.**-Price shall include delivery to the Authority F.O.B. destination, freight paid to any destination on the New Jersey Turnpike or Garden State Parkway. No additional charge will be allowed for any transportation cost resulting from partial shipments made at vendor's convenience when a single shipment is ordered. Prices quoted are firm throughout the term of the contract for complete delivery of quantities specified.

Bids submitted on an F.O.B. destination basis are mandatory; however, in instances where customs of the trade or unusual circumstances dictate F.O.B. shipping point, an estimate of the shipping charges must be noted on the bid and may be accepted in the Director's sole discretion. In such cases, actual shipping charges are to be prepaid and added to the invoice.

**C. DELIVERY**-Upon award of the contract:

1. Deliveries shall be made at such time and in such quantities as ordered in strict accordance with conditions stated in the RFB.
2. Deliveries may be set on a scheduled basis as arranged between the Authority and the vendor. It shall be the responsibility of the vendor to maintain an adequate supply stock.
3. The vendor will be responsible, at the point of delivery, for the delivery of material in such quality and condition as required by Paragraph IV.A. hereof and in accordance with good commercial practice.
4. Items delivered must be strictly in accordance with those bid upon.
5. As applicable, bidders must state in the space provided on the RFB/bid solicitation documents the number of days required to make delivery after notification to ship.
6. In the event delivery is not made within the number of days stipulated, the Authority may purchase the required material from any available source. The difference in price, if any, will be paid by the vendor failing to meet its commitments.

**VII. OTHER TERMS AND CONDITIONS**

- A. CONTRACT PERIOD-** Except as otherwise stated in the RFB, the term of the contract shall be for one (1) year, with the option to extend for two (2) one-year options, at the Authority's discretion, and with vendor's concurrence.
- B. EXTENSION OPTION-**If, in the opinion of the Director, it is in the best interest of the Authority to extend any contract beyond the original term, for a period of all or any part of a year, the vendor will be so notified of the Director's intent, prior to the expiration date of the existing contract. The Authority reserves the right to make up to two extensions of this contract for not more than one year each. If the extension is acceptable to the Authority at the original prices and on the original terms, notice will be given to the vendor by the Director in writing. If the original contract required a Contract Bond, a new Contract Bond must be submitted to cover the period of the extension. The same insurance requirements will be required for each extension period.
- C. TERMINATION OF CONTRACT-**The contract awarded may be terminated by the Authority at any time for inadequate or improper performance, or for breach of any terms, conditions, or obligations of the contract by the vendor, as determined by the Authority, or if the vendor shall make an assignment for the benefit of creditors, or file a voluntary petition in bankruptcy, or if an involuntary petition in bankruptcy is filed against the vendor and the act of bankruptcy therein alleged is not denied by the vendor, or if denied, is found by a court or jury. Further, the Authority reserves the right to terminate any contract for any reason provided written notice has been given by the Director to the vendor at least thirty (30) days prior to such proposed termination date.

The notice of termination shall be in writing and shall be effective upon receipt by the vendor. Upon termination, the Authority shall be liable only for payment for goods or services properly delivered or performed in accordance with the contract. The Authority shall have the right to purchase non-delivered goods, to replace defective goods or services on the open market and hold the vendor liable for the difference between the price set forth in the contract for such goods or services and the prices paid on the open market or pursue any other right available by law. In addition, the Authority shall have the right, without the necessity of court proceedings, to recover all equipment, material or supplies that are the property of the Authority and have been entrusted with the vendor to be used in the performance of said contract. Nothing in this paragraph is intended to limit the Authority's right to legally pursue all costs which exceed the amount due and owing the vendor under said contract. The list of remedies in this paragraph is not exclusive.

- D. SCOPE-**The total quantities of any contract are estimated. There is no guarantee of any minimum quantity. It is understood and agreed that contract prices shall cover the quantities actually required and ordered by the Authority during the term of the contract, whether more or less than the approximate quantity stated.
- E. BIDDERS FACILITIES-**The Authority reserves the right to inspect the bidder's establishment before making an award.
- F. TESTING-**The Authority reserves the right to have the material tested prior to the award and during the contract by an independent testing laboratory, to determine if the material meets the specifications of the RFB. If required for testing purposes, the low bidder shall submit a reasonable quantity of the product as samples. If these samples prove satisfactory, the contract shall be awarded. If they do not prove satisfactory, a test shall be made of the next low bidder's sample, until satisfactory products are found to meet requirements. Should the laboratory find that any shipment does not meet specifications, the Authority shall have the right to reject same.
- G. INSPECTION-** All work done and supplies furnished shall be subject to inspection, testing and rejection by the Authority, or its representatives, at all times and places, both during manufacture and at destination. After award of the contract, should the result of any test or inspections show that the material supplied fails to meet the requirements of the Authority, the material shall be rejected and immediately replaced by the vendor. Rejected supplies or materials will be returned at the vendor's risk, and all inspection, handling, and transportation charges to and from the Authority's delivery site will be assumed by the vendor. The vendor shall bear any and all expenses resulting from delay caused by failure to meet test or inspection standards. Should the Authority for any reason decide to accept any shipment which fails to meet specifications, the Authority may make an appropriate price adjustment with regard to same.

- H. AWARDS**-Comparison of bids will be based on the total price stated in the bid and an award will be based on the total price, terms and delivery date given by the bidder. If the total price is found to have been incorrectly computed, discrepancies will be corrected by the Authority on the basis of the unit prices and a determination of the low bidder will be made on the basis of the corrected total price. The Authority shall not be liable for any failure on its part to detect or correct errors, and the Authority's action in connection therewith shall not give rise to any rights to the bidder.
- I. NOTICE TO VENDORS AND AUTHORITY DEPARTMENTS**-The Authority is authorized to order, and vendors are authorized to ship only those items covered by the contract. If a review of orders placed by the Authority reveals that material other than that covered by the contract has been ordered and delivered, the Director will take such steps as are necessary to have the material returned regardless of the time elapsed between the date of delivery and discovery of the violation. A full refund to the Authority by the vendor will be required.
- J RIGHT TO AUDIT**-Vendor shall keep and maintain proper and adequate books, records and accounts accurately reflecting all costs and amounts billed to Authority under the contract at issue. Authority, its employees, officers, or representatives shall have the right upon written request and reasonable notice, to inspect and examine all of the vendor's books and records related to the contract. Such records shall be retained by vendor for at least five (5) years from the termination of the contract. In no event shall books and records be disposed of or destroyed of prior to five (5) years from the termination of the contract or during any dispute or claim between the Authority and vendor with regard to the contract at issue.
1. In accordance with the New Jersey Office of the State Comptroller ("OSC") document retention policy *N.J.A.C. 17:44-2.2* - The vendor shall maintain all documentation related to products, transactions, or services under this contract for a period of five years from the date of final payment. Such records shall be made available to the OSC upon request.
- K. TAXES**-The Authority is exempt from Federal Excise Tax, New Jersey State Sales and Use Tax and other tax as applicable.
- L. TRANSFER OF BUSINESS**-It is understood by all parties that, if, during the term of the contract, the vendor disposes of its business by sale, transfer or by any means to another party, all obligations are transferred to such purchaser.

**M. INTERAGENCY COOPERATIVE PURCHASING**-Pursuant to *N.J.S.A. 27:23-6.1(a)*, vendors may receive inquiries by the entities listed below, with respect to extending this contract to them based upon the same prices, terms, and conditions:

South Jersey Transportation Authority  
New Jersey Sports & Exposition Authority  
New Jersey Meadowlands Commission  
New Jersey Water Supply Authority  
Port Authority of New York & New Jersey  
Delaware River Port Authority  
Higher Education Student Assistance Authority

**N. CONTRACT CHANGES**-During the term of contract, no change will be permitted in any of its conditions and specifications unless the vendor receives written approval from the Director.

Should the vendor find at any time that existing conditions make modification in requirements necessary, the vendor shall promptly report such matter to the Director for consideration and decision.

**O. SUBCONTRACTING OR ASSIGNMENT**-The contract may not be subcontracted or assigned by the vendor, in whole or in part, without the prior written consent of the Director. In the event that bidder proposes to subcontract some or all of the services to be provided under the contract, it shall state so in its bid and attach for approval a list of said subcontractors and an itemization of the goods and/or services to be supplied by them.

**P. REJECTION OF BIDS**-Failure to comply with mandatory requirements of the bid shall be considered grounds for rejection. The Authority retains the right to reject any or all bids, to waive informalities and minor irregularities and to rebid the entire contract.

**Q. LIABILITIES OR DEBTS OWED TO THE AUTHORITY**- The failure by any Contractor or subcontractor during the term of the Contract to satisfy in a timely manner any outstanding debts or fees owed to the Authority, whenever incurred, including but not limited to those related to nonpayment of tolls or administrative fees, as required by *N.J.A.C. 19:9-1.19* and *N.J.A.C. 19:9-9.2*, shall be grounds for suspension or termination of the Contract, in the sole discretion of the Authority.
