NOTES:
1. The speed limit sign panel shall be White High Intensity Scotch-Lite on 0.125" aluminum panel. Legend and border shall be Black Scotch-Cast.
2. The sign panel opening shown is based upon the approximate size of the numeric display module. It shall be the Contractor's responsibility to obtain a sample of the actual numeric display module to be furnished by the Authority prior to fabrication of the sign panels.
3. Sign shield shall be 0.125" thick aluminum with flat black finish.
4. Sign shield may be modified as approved by the Engineer to avoid interference with the numeric display assembly.
5. Sign support structure shall conform to Section 406.
