

NOTE TO REVIEWER: The following language is ADDED to the version of the NJTA 2004 Standard Supplementary Specifications which existed prior to the issuance of this DCA.

SECTION 106 – LEGAL RELATIONS AND RESPONSIBILITY

[Include the following for all contracts:]

106.18 UTILITIES

The following is added after the second paragraph:

As directed by the Engineer, the Contractor shall mark and identify the perimeter of the proposed site of the ground intrusive activities with white paint, flags, stakes, or a combination thereof prior to notifying the New Jersey One Call System of the Contractor's intent to engage in excavation or demolition. The proposed site shall be the minimum size necessary to safely accommodate the planned excavation or demolition (e.g. small sites, non-linear excavations, spot excavations such as soil borings, sign posts, or guide rail) to avoid unnecessary marking and locating by the Authority in accordance with N.J.A.C. 14:2-3.2.
