

SECTION 403 - STEEL STRUCTURES

Begin DCA 2010SS-06

NOTE TO THE DESIGNER: Include language below in contracts which involve A709 Grade 50W structural steel for new bridges or structural steel for widened existing bridges.

403.05 **WORKMANSHIP AND FINISH**

(D) NEW ASTM A709 GRADE 50W STEEL - PAINTED.

The second sentence is replaced with the following:

All structural steel surface areas for a distance of one and a half times the depth of the stringers from the deck joint, with the exception of steel designated to be galvanized, shall be cleaned and painted in accordance with the applicable governing provisions of Section 411 and any applicable Supplementary Specifications.
