Document Change Announcement

2004 Standard Supplementary Specifications Cantilever Fascia Brackets for Bridge Deck Forming

DCA2010SS-07

April 26, 2010

Subject:Revisions to Section 402 Prestressed Concrete Structures, Subsections
402.10 Handling, Storage and Erection of Precast Units, 403.08
Shipping, Handling and Erection and 417.09 Installation of Fascia
Catch/Deck Support Systems

The following changes to the specifications pertain to contracts which address wind uplift loading on cantilever fascia brackets used for bridge deck forming and work platforms.

Instructions to NJTA Staff, Designers and Consultants

Effective immediately, all contracts currently in the design phase shall incorporate the revisions listed herein. For advertised contracts awaiting the opening of bids this revision may be incorporated via addendum. Contact your NJTA Project Manager for instruction. Attached revision is noted in *italics*.

Designers may access these revisions in the Standard Supplementary Specification, which is available on the following Authority Web Page: http://www.state.nj.us/turnpike/nj-buss.htm These additions have been incorporated into the 2004 Standard Supplementary Specification, which is available on the S:/drive. Please distribute the information to your Project Managers and have them direct their consultants appropriately.
