Document Change Announcement

2004 Standard Supplementary Specifications Excess Earthwork Material

DCA2010SS-15

June 23, 2010

Subject: Revisions to Section 202 Roadway Excavation, Subsection 202.03 Methods of Construction; Section 204 Channel Excavation, Subsection 204.03 Methods of Construction; Section 205 Foundation Excavation, Subsection 205.03 Methods of Construction; Section 206 Trench Excavation, Subsection 206.03 Methods of Construction; Section 209 Subgrade, Subsection 209.03 Methods of Construction.

The following changes to the specifications pertain to contracts with excess earthwork material.

Instructions to NJTA Staff, Designers and Consultants

Effective immediately, all contracts currently in the design phase shall incorporate the revisions listed herein. For advertised contracts awaiting the opening of bids this revision may be incorporated via addendum. Contact your NJTA Project Manager for instruction. Attached revision is noted in *italics*.

Designers may access these revisions in the Standard Supplementary Specification, which is available on the following Authority Web Page: <http://www.state.nj.us/turnpike/professional-services.html>
These additions have been incorporated into the 2004 Standard Supplementary Specification, which is available on the S:/drive. Please distribute the information to your Project Managers and have them direct their consultants appropriately.
