

*New Jersey Turnpike Authority*

PO Box 5042, Woodbridge, NJ 07095

*Document Change Announcement*

*2004 Standard Supplemental Specifications  
Laminated Elastomeric Bearing Pads*

**DCA2007SS-02**

**June 18, 2007**

**Subject: Revision to Section 408 Elastomeric Bearings**

This revision requires laminated bearing pads to be vulcanized unless otherwise noted on the plans by the Design Engineer.

**Instructions to Designers and Consultants**

Effective immediately, all contracts shall incorporate the revision listed herein. For advertised contracts awaiting the opening of bids this revision shall be incorporated via addendum. Contact your NJTA Project Manager for instruction. Attached revision is noted in *italics*.

Designers may access this revision in the 2004 Standard Supplemental Specification, which is available on the Authority's Web Page: <http://www.state.nj.us/turnpike/nj-buss.htm>

**Information for In-House Staff**

The specification revision has been incorporated into the 2004 Standard Supplemental Specification, which is available on the S: / drive. Please distribute the information to your Project Managers and have them direct their consultants appropriately.
