NOTES

1. The table above shows the complete list of light standards and poles that have been approved in accordance with the design details found on Standard Drawings E-01 through E-09. No substitutions shall be permitted.
2. For approval of pole manufacturers and designs other than those shown and specified by the drawing numbers above, contact the General Consultant for approval process.
3. The Contractor shall submit a manufacturer's drawing for each type of Light Standard used on the project. The drawing shall clearly list all of the relevant information from the schedule above, including model number, photometric curve number, wattage, and IES curve type.
