## Response to inquiries received with respect to the above-referenced Request for Bids:

1. QUESTION: Will the Authority accept approved equals?

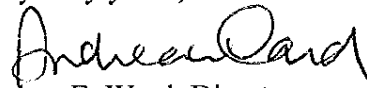

**ANSWER**: Section II, Paragraph B6 (Page 5) states: **The Authority will accept Approved Equivalent items on this Bid.** If a Bidder is basing the proposal on items other than what is specified, and wishes the items proposed to be considered as an "Approved Equivalent", the Bidder shall enter a price on the Bid sheet then submit on the Exception Form in the exact format of the line item on the RFB contained herein, the item number, an item description including manufacturers name, model number, informational brochure(s), and packaging quantities of those items that the Bidder proposes to substitute.

2. QUESTION: Will the Authority permit exceptions to the Specification?

**ANSWER**: An Exception Sheet is furnished with each set of specifications. When the Specification requires a **minimum** or a **maximum**, exceptions will not be accepted. Bidders making other exceptions must note exceptions by item and indicate substitution in lieu and submit with bid, detailed specifications on the substitution. If the bidder is submitting an alternate product, component, feature or part to what is referenced in the specifications, the proposals **must** be accompanied by descriptive literature, marked and indicate the exact items to be furnished, with an engineering drawing of the same. **Failure to supply information requested may result in rejection of bid.** Where no exception is taken; the word "None" shall be neatly printed or typed on the exception sheet. Failure to supply information and/or failure to complete the bidder's exception spaces in the prescribed manner may disqualify bid. **It shall be understood that if no exception is taken, the bidder shall supply all material exactly as specified. No substitutions will be permitted after receipt of bids.**

No Other Changes. All Other Data Remains In Effect.
