Board of Commissioners
New Jersey Turnpike Authority
1 Turnpike Plaza
Woodbridge, New Jersey 07095

Commissioners:

The New Jersey Turnpike Authority Act of 1948, as amended, restated and supplemented, the Turnpike Revenue Bond Resolution of 1991, as amended, restated and supplemented, as well as Executive Orders 122 (McGreevy, 2004) and 37 (Corzine, 2006), require an annual audit of the New Jersey Turnpike Authority's (the Authority) financial statements by a firm of independent auditors. Executive Order 37 (Corzine, 2006) (EO37) additionally requires the Authority, on an annual basis, to prepare a comprehensive report concerning the Authority's operations. Under EO37, the comprehensive report shall include, among other things, the Authority's audited financial statements. Accordingly, the Comprehensive Annual Financial Report (CAFR) of the Authority for the years ended December 31, 2018 and 2017 is hereby submitted.

AUTHORITY'S PROFILE AND OPERATION

The Authority owns and operates two well-established major toll roads (the New Jersey Turnpike and the Garden State Parkway) in a densely populated and wealthy region of the Nation. They act as the "supply chain spine" and the "distribution platform" for the entire Northeast region.

The Authority has owned and operated the New Jersey Turnpike (the Turnpike) since the time the Turnpike opened for traffic in 1951. The Turnpike consists of a 122-mile mainline and two extensions. The mainline runs from Deepwater, Salem County to Fort Lee, Bergen County.

The Garden State Parkway (the Parkway) has been owned and operated by the Authority since July 2003, after abolition of the New Jersey Highway Authority. The Parkway is a 173-mile limited access toll road from Cape May, New Jersey to Spring Valley, New York.

The Authority is committed to prudently manage its finances and operations to provide its customers with a safe, efficient, innovative and resilient toll road system, which facilitates mobility in New Jersey and the Northeast United States. In 2018, total toll transactions and total passenger car transactions on the New Jersey Turnpike were the highest ever recorded. The 264.7 million total toll transactions and 230.5 million total passenger car transactions exceeded 2017 levels which were the previous highs. In addition, the 2018

Website address <http://www.njta.com/>

Letter of Transmittal

commercial vehicle transactions of 34.3 million increased 5% from 2017, and is the highest level ever recorded since the pre-recession previous high, recorded in 2007.

ECONOMIC CONDITIONS AND OUTLOOK

The Turnpike and Parkway are two of New Jersey's great avenues of commerce. Every day, hundreds of thousands of commercial and passenger vehicles flow over the roadways, carrying goods between producer and consumer, and carrying commuters between home and work. From the day they opened to traffic, the toll roads have represented a key competitive advantage for New Jersey in the regional, national and global economies.

In addition to making New Jersey more competitive and reducing opportunity costs, infrastructure spending also creates and sustains jobs. The President's Council of Economic Advisors estimated that every \$1 billion in spending on transportation infrastructure sustains 13,000 jobs for one year. Those include jobs in engineering and construction directly supported by infrastructure spending, jobs indirectly supported at facilities and companies supplying materials and equipment for the projects being built, and jobs supported in other parts of the economy as a result of the increased income and spending by companies and individuals who benefit from the direct and indirect jobs. The Authority anticipates spending approximately \$260.4 million on its \$7 Billion Capital Improvement Program in 2019. That level of spending will sustain approximately 3,400 jobs for the year.

CAPITAL IMPROVEMENT PROGRAM

The Authority is in the tenth year of a \$7 Billion Capital Improvement Program (the CIP) originally approved by the Board of Commissioners in October 2008. At the same time, a two-step toll increase was approved that is expected to fully fund the debt service incurred from the financing of the \$7 Billion CIP. The \$7 Billion CIP includes large-scale projects, including widening stretches of both the Turnpike and Parkway, as well as projects that improve interchanges, rehabilitate bridges and facilities and deploy new technologies. The program is divided between capacity, state of good repair and safety projects. Due to strict project management and favorable construction pricing, the Authority has been able to expand the scope of the program without increasing the overall \$7 Billion budget. On September 25, 2018, the Authority approved an amendment to the \$7 Billion CIP. This amendment extends the program by two years and plans to utilize \$16 million of available funds generated from the favorable bid pricing on additional design work for new projects. This design work will accelerate the future construction award process for these new projects. Ten years into the program, the Authority has spent or committed 96% (\$6.7 billion) of its \$7 Billion budget resulting in improved operational and maintenance performance to provide for the increased demand for capacity in the future. A summary of the projects in the \$7 Billion CIP, along with the current budget and amount spent and/or committed can be found in the introductory section of this report and in the Management Discussion and Analysis in the financial section.

INTERNAL CONTROL

Management of the Authority is responsible for the comparative financial statements included in this CAFR for the years ended December 31, 2018 and 2017. Management is responsible for both the accuracy of the financial information presented, the completeness of the report, and the fairness of the presentation, including all disclosures.

The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States and consequently, they reflect certain amounts based upon the best estimates and judgment of management.

Management of the Authority is also responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance that the assets of the Authority are protected from loss, theft or misuse, and that adequate accounting records are maintained to allow for the preparation of financial statements in

Letter of Transmittal

conformity with GAAP. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the resulting benefits; and (2) the analysis of costs and benefits requires estimates and judgments by management. As a recipient of federal funds for certain capital projects and disaster declarations, the Authority is required to ensure that adequate internal controls are in place which reasonably ensure compliance with applicable laws and regulations relating to the federal funding. The system of internal control of the Authority is subject to ongoing evaluation by management.

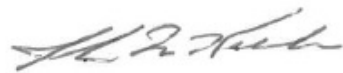

To the best of our knowledge and belief, the information provided to the external auditors in connection with the annual audit and contained in this CAFR is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included. The Authority's external auditors, KPMG LLP, have completed their examination and have concluded that in their opinion, the comparative financial statements for the years ended December 31, 2018 and 2017 present fairly, in all material aspects, the financial position of the Authority as of December 31, 2018 and 2017, and the changes in its financial position and its cash flows for the years then ended in conformity with GAAP.

AWARDS AND ACKNOWLEDGEMENT

For the fourth consecutive year, Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Authority, most recently for the submission of its CAFR for the years ended December 31, 2017 and 2016. A Certificate of Achievement is valid for a period of one year only. We believe that the current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

In addition to the Excellence in Financial Reporting Award, the Authority was a fourth time recipient of the GFOA's Distinguished Budget Presentation Award for its 2018 Annual Budget. The 2019 Annual Budget has been submitted to GFOA for consideration.

We give grateful acknowledgement to the Finance and Budgets Department for the timely completion of this report. We also give special acknowledgement to our external auditors, KPMG LLP for their timely audit opinion on this report.

John M. Keller
Executive Director

Donna Manuelli
Chief Financial Officer

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the New Jersey Turnpike Authority for its submission of a Comprehensive Annual Financial Report for the years ended December 31, 2017 and 2016. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. Management believes that the Comprehensive Annual Financial Report for the years ended December 31, 2018 and 2017 continues to meet the Certificate of Achievement Program's requirements and is submitting it to the GFOA to determine its eligibility for another certificate.

Presented to

New Jersey Turnpike Authority

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended

December 31, 2017

Christopher P. Morill

Executive Director/CEO

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the New Jersey Turnpike Authority, New Jersey for its annual budget for the fiscal year beginning January 1, 2018. In order to receive the award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. Management believes that annual budget for the fiscal year beginning January 1, 2019 continues to conform to program requirements, and have submitted it to GFOA to determine its eligibility for another award.

OVERVIEW OF ORGANIZATION, BACKGROUND AND FUNCTIONS

Background

The New Jersey Turnpike Authority (the Authority) is a body corporate and politic of the State of New Jersey (the State) organized and existing by virtue of the New Jersey Turnpike Act of 1948, constituting Chapter 454 of the Laws of New Jersey of 1948, as amended and supplemented (the Act). Pursuant to the Act, the Authority has owned and operated the New Jersey Turnpike (the Turnpike) since the time the Turnpike opened for traffic in 1951. In July 2003, the New Jersey Highway Authority (the Highway Authority) was abolished and the Authority assumed all of the powers, rights, obligations, assets, debts, liabilities and statutory responsibilities and duties of the Highway Authority, including the ownership and operation of the Garden State Parkway (the Parkway and, together with the Turnpike, the Turnpike System). As a result, the assets and liabilities of the Authority and the Highway Authority and the ongoing operations, expenses and revenues of the Turnpike and the Parkway are now combined under the ownership and operation of the Authority.

The Turnpike

The Turnpike is a limited access toll road that serves as part of the I-95 corridor linking the major economic centers of the East Coast. Its connections to the Newark Elizabeth seaport and a major airport in Newark make it an important route for both commercial and passenger vehicles. It also serves New Jersey commuters traveling to and from the major metropolitan areas surrounding Philadelphia and New York City and other employment centers in the State.

The Turnpike consists of a 122-mile mainline and two extensions. Originally, the mainline ran from Deepwater, Salem County, to US Route 46 in Ridgefield Park, Bergen County, a distance of approximately 117.5 miles. In 1992, the Authority acquired the 4.4-mile section of Interstate 95 extending from the northern terminus of the Turnpike mainline to Fort Lee, Bergen County, at the crossing of Route 9W (Fletcher Avenue), a short distance west of the George Washington Bridge toll plaza (the I-95 Extension). Approximately three miles west of this location lies a full directional interchange with Interstate 80, a significant traffic generator for the Turnpike. At the southern terminus, the Turnpike connects, via a short section of US Route 40, with the Delaware Memorial Bridge.

The Newark Bay-Hudson County extension, which opened in 1956, is a four-lane, 8.3-mile spur that extends from Interchange 14 on the mainline Turnpike, near Newark Liberty Airport, to the Holland Tunnel plaza in Jersey City, Hudson County. It includes a high-level bridge over Newark Bay. There are three interchanges on the extension: Interchange 14A (Bayonne), Interchange 14B (Jersey City) and Interchange 14C (Holland Tunnel).

The Pearl Harbor Memorial Turnpike extension, which opened in 1956, is a 6.6-mile, six-lane spur that connects the Turnpike to the Pennsylvania Turnpike. The extension begins at a junction with the mainline Turnpike at Interchange 6 (Mansfield, Burlington County) and ends at the Delaware River. The bridge across the Delaware River at that point was bonded and constructed jointly by the Authority and the Pennsylvania Turnpike Commission. A full interchange connecting the extension to Route 130 in Florence Township, New Jersey, was opened in 1999.

The Turnpike roadway is two lanes in each direction from Interchange 1 (Deepwater) to Interchange 4 (Camden-Philadelphia) and three lanes in each direction from Interchange 4 to Interchange 6 (Pennsylvania Turnpike).

From Interchange 6 to north of Interchange 14 (Newark), the Turnpike is configured as a “dual/dual” highway; it has two distinct sets of lanes in each direction, an inner roadway and an outer

roadway. Under normal operating conditions, truck, bus, and passenger car traffic is permitted on the outer roadways, but only passenger car traffic is permitted on the inner roadways. Ramps at the interchanges enable traffic to enter or exit the Turnpike from any of the four roadways.

Vehicles are prevented from crossing back and forth between the inner and outer roadways by a median with a guardrail. Crossovers have been provided on those medians to allow access to emergency and maintenance vehicles and to provide for the detouring of traffic under police control if an accident should block one of the roadways. The northbound and southbound roadways are separated by a specially designed, crash-tested, heavy concrete barrier to prevent cross-over traffic. Grade-separated U-turn structures have been provided at appropriate locations so that police, maintenance, and other vehicles can change direction safely.

Between Interchanges 6 (Mansfield) and 11 (Woodbridge), there are 12 lanes total, three outer and three inner in each direction. And from Interchange 11 to Interchange 14 (Newark), there are 14 total lanes, four lanes in each direction on the outer roadways and three in each direction on the inner roadways.

North of Interchange 14, the inner and outer roadways of the Turnpike merge and divide through a complex configuration referred to as the “Southern Mixing Bowl” to follow two separate alignments, one west of the Hackensack River, the other, east of the Hackensack River. The Westerly Alignment is six lanes from north of the Southern Mixing Bowl to the NJ Route 3 crossing; it narrows to four lanes from north of this point to the point where it rejoins the Easterly Alignment just south of US Route 46. The Easterly Alignment is six lanes from the Southern Mixing Bowl to the confluence with the Westerly Alignment. North of northbound US Route 46, the roadway separates into dual express and local roadways leading to the George Washington Bridge.

A ground breaking ceremony was held in July 2009 for the construction of the Turnpike’s Interchange 6 to 9 Widening Program. The Program widened the Turnpike from Interchange 6 (Mansfield Township, Burlington County) to Interchange 9 (East Brunswick Township, Middlesex County), a linear distance of 35 miles. The Program was designed to relieve heavy and recurring congestion on this section of the Turnpike, improve operational and maintenance performance, and provide for the increased demand for capacity in the future. The construction added 170 lane miles to the roadway by widening it from six to 12 lanes from two miles south of Interchange 6 to Interchange 8A (South Brunswick Township, Middlesex County), a distance of approximately 25 miles, and from 10 lanes to 12 lanes between Interchange 8A and Interchange 9, a distance of 10 miles. The Program created a dual/dual roadway between Interchange 6 and Interchange 8A and expanded the outer roadway in each direction between Interchange 8A and Interchange 9. The work included improvements at Interchange 7A and the construction of a new toll plaza at Interchange 8. The Program was completed in the fall of 2014 with the opening of the northbound lanes on October 26, 2014, and the southbound lanes on November 2, 2014 at an estimated cost of \$2.1 billion.

The Parkway

The Parkway is a 173-mile limited access toll road with connections in the south to Route 9 near Cape May, New Jersey, and in the north to the New York State Thruway at the New York-New Jersey border near Spring Valley, New York. The Parkway interchanges are numbered according to their distance from the southern terminus.

The northern section of the Parkway serves the metropolitan suburban areas in Bergen, Union, Essex, and Passaic Counties near Newark and New York City. In addition to being heavily used by commuters, the location of many businesses and industrial complexes in or near the Parkway corridor has resulted in significant local business traffic. The Parkway also is the principal highway route

between metropolitan Newark-New York City and the New Jersey seashore. Heavy trucks are not allowed north of milepost 105.

For approximately 135 miles, the Parkway is distinguished by a wide natural-area median separating northbound from southbound traffic. The purpose of the median is threefold: to prevent head-on collisions between traffic traveling in opposite directions, to prevent visual interference by opposing traffic, and to provide areas that allow extensive flexibility in road configuration. The wide natural-area median is a distinctive feature of the Parkway.

Three sections of the Parkway were constructed by NJDOT and maintained by that agency until June 30, 1987. On July 1, 1987, the Highway Authority took ownership of those sections together with all previous responsibilities and obligations. These sections total approximately 19 miles and include a 13-mile link between US Route 22 and US Route 9 in Union and Middlesex Counties, a two-mile link in Ocean County, and a four-mile link in Cape May County. These portions of the road are known collectively as the “State Sections.” The term “Parkway” as used herein includes the State Sections. No tolls are charged on the State Sections.

The Parkway is four lanes (two in each direction) from Cape May to milepost 42, six lanes to milepost 91, eight lanes to milepost 102, 10 lanes to milepost 117, 12 lanes to milepost 127, 10 lanes to milepost 140, eight lanes to milepost 145, six lanes to milepost 168, and four lanes to the New York border.

The widening of the Parkway from milepost 63 in Stafford Township to milepost 80 in South Toms River, opened in May 2011, was funded as part of the Capital Improvement Program. This widening program was designed to relieve heavy traffic congestion and to improve motorist safety by the addition of one new lane in both the northbound and southbound directions and full-width shoulders. In addition to the widening from milepost 63 to 80, the Parkway was widened from milepost 48 to 63. The widening to milepost 52 opened in the spring of 2014. The remaining widening of this section to milepost 48 was opened in May 2015 upon the completion of the rehabilitation of the Bass River Bridge. The final phase of the Parkway widening from milepost 35 to 48 has been open to traffic. The third lane between milepost 42 and 48 was opened in June 2016. The remaining portion of the Parkway widening between milepost 35 and 41 was completed in the fall of 2018.

\$7 BILLION CAPITAL IMPROVEMENT PROGRAM

As previously mentioned, the Authority is nearing the conclusion of its \$7 Billion CIP. The primary objectives of the \$7 Billion CIP are –

- A wider New Jersey Turnpike
- A safer Garden State Parkway
- Expanded and rejuvenated bridges
- Better access to and from the toll roads
- Upgraded facilities for maintenance, tolls and State Police

Funding for the \$7 Billion CIP began with the issuance of \$160 million of Series 2008A Subordinate Bond Anticipation Notes. In April 2009, the Authority issued \$1.75 billion of Turnpike Revenue Bonds, which included \$1.375 billion of Federally Taxable, Issuer Subsidy, Build America Bonds issued under the American Recovery and Reinvestment Act of 2009. The Authority was one of the first issuers in the country to take advantage of this financing option. Through December 31, 2018, the Authority has issued \$7.35 billion of Turnpike Revenue Bonds to fund the \$7 Billion CIP. An additional \$449 million is expected to be issued in early 2019.

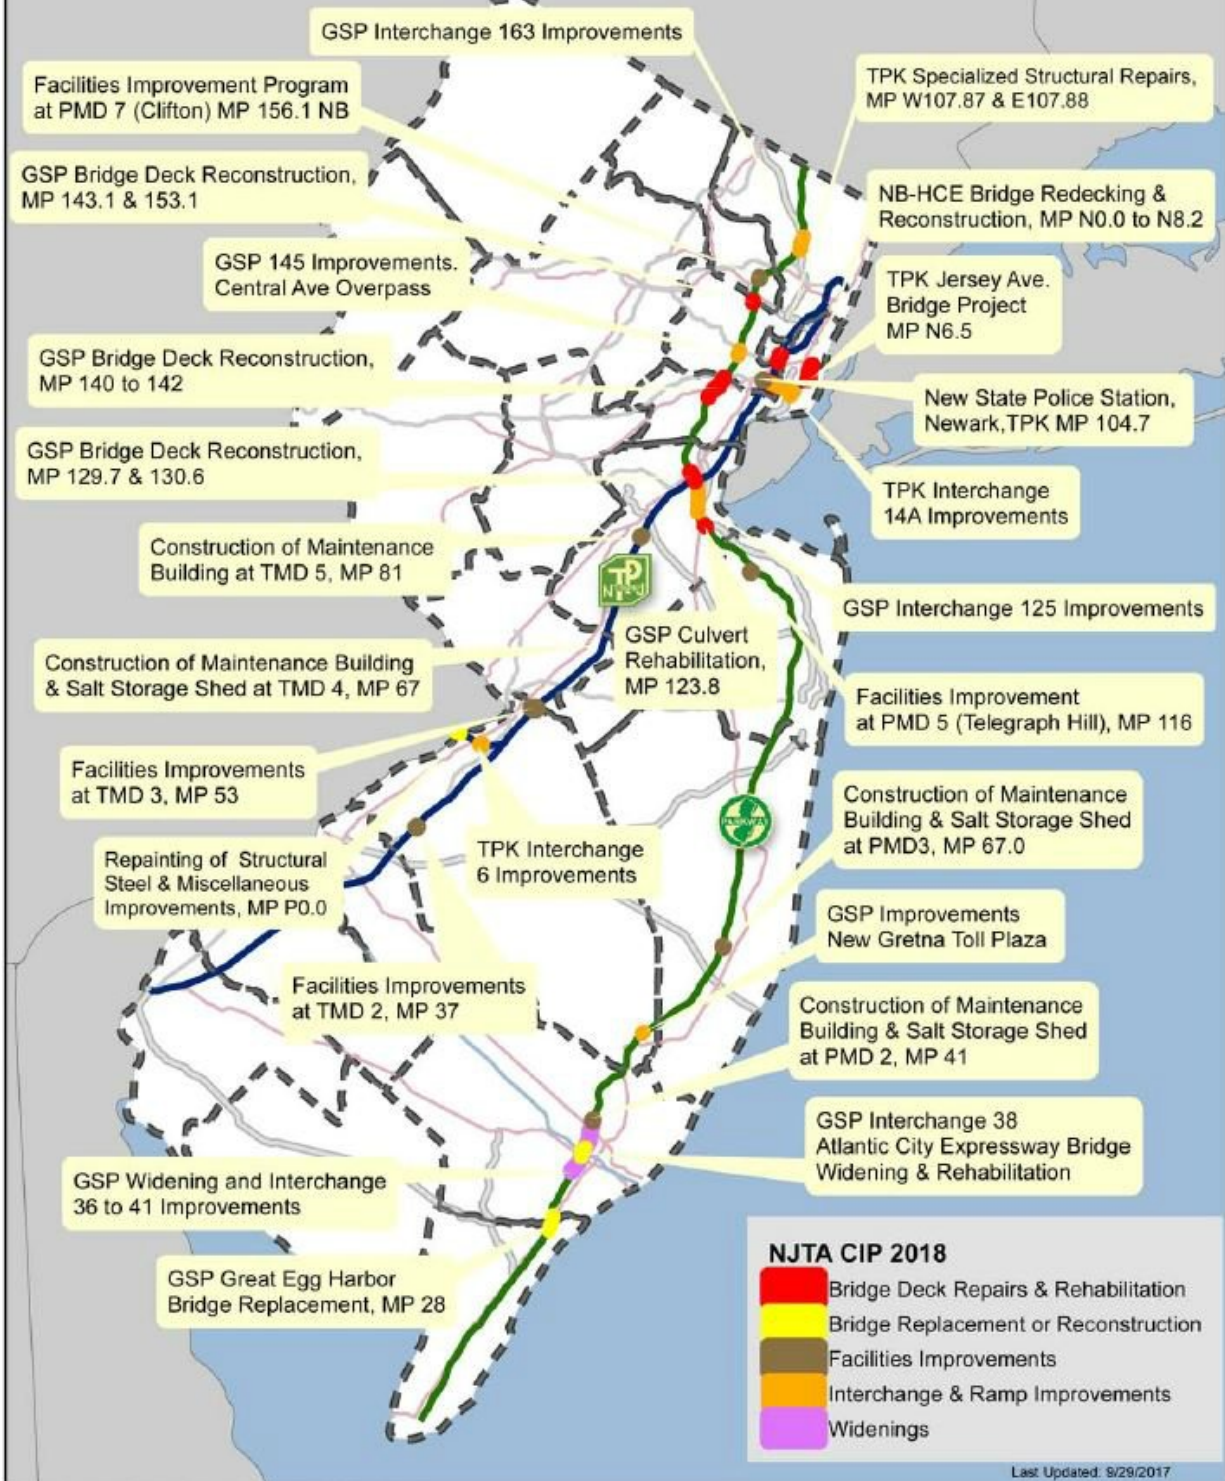

Recognizing the significance of undertaking a debt financed \$7 Billion CIP, the Authority's Board of Commissioners adopted Financial Management Principals and Guidelines (the Guidelines) in December 2012, which represent management's commitment to fiscal prudence, credit quality and long term repayment of outstanding debt. The guidelines were amended in November 2015 and again in January 2017. The Guidelines are intended to serve as a management tool to enable the Authority to communicate its commitment to a sound financial decision making process, and affirm to investors and the credit rating agencies management's commitment to the long term financial viability of the Authority and the repayment of its bonds. The Guidelines are also intended to serve as guidance in respect to the issuance and management of debt in appropriate amounts with the goals of achieving the lowest possible costs of capital within prudent risk parameters and ensuring ongoing access to the capital markets. Finally, the Guidelines emphasize the Authority's commitment to compliance with all provisions of the New Jersey Turnpike Authority Act and the Authority's General Bond Resolution, as well as all other federal, state and local laws. The Guidelines are comprehensive and include items such as:

- Control of operating costs while maintaining the quality of roads and services
- Establish a five-year financial plan based upon conservative revenue projections from the Authority's Traffic Engineer
- Continue the Capital Improvement Program with the lowest possible cost of capital
- Adequately fund the Maintenance Reserve, Special Project Reserve and other capital needs
- Maintain a minimum General Reserve Fund balance of \$150 million at December 31, 2018, \$175 million at December 31, 2019, and beginning 2020, by December 31st of each year, a minimum balance equal to 10% of that year's budgeted total annual revenue
- Maintain a minimum debt service coverage ratio of 1.4 times, and a minimum total requirements coverage ratio of 1.20 times without transfers from the General Reserve Fund

The Guidelines were implemented at the option of the Authority and are not a legal covenant with Bondholders. A full copy of the Guidelines can be found on the Authority's website at <http://www.njta.com/investor-relations/financial-statements-and-reports>.

CAPITAL IMPROVEMENT PROGRAM 2018 ACTIVE PROJECTS

\$7 BILLION CAPITAL IMPROVEMENT PROGRAM – PROJECT SUMMARY

The \$7 Billion CIP includes the following active projects:

New Jersey Turnpike

(1) Interchanges 6 to 9 Widening

- a. **Location:** Burlington, Mercer, and Middlesex counties
- b. **Description:** Some 170 new lane miles of roadway will be added to this chronically congested stretch of the Turnpike. Three additional lanes will be added in each direction between Interchanges 6 and 8A, and one additional lane will be added in each direction between Interchanges 8A and 9. A new toll plaza will be built at Interchange 8.
- c. **Schedule:** Construction began in June 2009 and was completed and opened to traffic in November 2014. The new Interchange 8 toll plaza was completed in February 2013. The program closeout will be completed in early 2019.

(2) Interchange 14A Improvements

- a. **Location:** Bayonne, Hudson County
- b. **Description:** The interchange is being reconfigured and the toll plaza widened to accommodate both existing traffic and the growth in traffic volume expected to result from the expansion of an adjacent port facility.

- c. **Schedule:** Construction began in 2015 and was completed in May 2018.

(3) Newark Bay-Hudson County Extension (NBHCE)

- a. **Location:** Essex, Hudson County
- b. **Description:** This project includes replacing bridge decks and making other improvements to the NBHCE. It connects the mainline of the Turnpike to the Holland Tunnel approach in Jersey City.
- c. **Schedule:** Construction began in 2016 is scheduled for completion is in 2022.

(4) Delaware River Turnpike Bridges

- a. **Location:** Burlington County
- b. **Description:** This project provides for blast cleaning, repainting, seismic retrofit, structural steel repairs, catwalk improvements and other work on the bridge that connects the Pearl Harbor Extension of the New Jersey Turnpike to the Pennsylvania Turnpike. The cost of the work is being shared equally by the Authority and the Pennsylvania Turnpike Commission.

- c. **Schedule:** Construction began in 2014 and is approximately 98 percent complete with a scheduled completion in 2019.

(5) Bridge Security

- a. **Location:** Multiple bridges on both the roadways
- b. **Description:** The Authority is making security improvements at the highest priority bridges on the Turnpike and Parkway. The priorities were determined through previous security assessments.
- c. **Schedule:** Work began in 2012 and was 77 percent complete towards the end of 2018. Scheduled completion is 2020.

(6) Maintenance Facilities Improvements

- a. **Location:** Multiple maintenance buildings and salt sheds on the Turnpike
- b. **Description:** This project includes construction and rehabilitation of maintenance buildings to bring them into compliance with current building codes and operational standards, and construction and rehabilitation of salt sheds to accommodate the additional salt storage capacity.
- c. **Schedule:** All the salt sheds were completed in 2017 along with a few maintenance buildings. Work will continue on two additional maintenance buildings (Moorestown Maintenance Yard and Crosswicks Maintenance Yard) during 2019.

Garden State Parkway

(1) Great Egg Harbor Bridge Improvements

- a. **Location:** Upper Township, Cape May County, and Somers Point, Atlantic County
- b. **Description:** A new southbound span over Great Egg Harbor and Drag Channel opened to traffic in 2016. The \$142.9 million project included the demolition of the nearby Beesleys Point Bridge. Under a separate contract awarded in 2016, the Authority will rehabilitate the existing northbound span and demolish the existing southbound span.
- c. **Schedule:** The rehabilitation of the northbound span and the demolition of the old southbound span was 93 percent complete and is scheduled to be completed in early 2019.

(2) Bridge Deck Reconstruction

- a. **Location:** Monmouth, Middlesex, Union, Passaic and Bergen counties
- b. **Description:** Two non-major bridge deck and superstructure replacement projects are ongoing, one each in the central and northern regions of the Parkway. The central project covers six bridges between mileposts 121 and 131; the northern project covers eight bridges between mileposts 143 and 159.
- c. **Schedule:** The central project began in early 2015, and is scheduled to be completed in 2020. It is 82 percent complete. The northern project began in early 2015 and was substantially completed in 2018.

(3) Concrete Median Barrier Replacement

- a. **Location:** Ocean County
- b. **Description:** The deteriorated precast concrete median barrier is being removed and replaced between mileposts 80 and 84.
- c. **Schedule:** Construction began in 2018 and was 65 percent complete towards the end of 2018. It is scheduled to be completed in 2019.

(4) Roadway Resurfacing

- a. **Location:** Various
- b. **Description:** Pavement will be removed and the roadway resurfaced with hot mix asphalt surface course pavement at various locations on Parkway mainline, ramps, shoulders, and toll plazas.
- c. **Schedule:** Construction began in 2018 and will be completed during 2019.

(5) Culvert Cleaning

- a. **Location:** Monmouth County
- b. **Description:** Silt, sediment, and debris will be cleaned from twin 132-inch corrugated metal pipe culverts crossing beneath the southbound and northbound local and express lanes of the Parkway at milepost 111.5 in Middletown, Monmouth County. The work will include the temporary diversion of Nut Swamp Brook and the construction of access roadways at the inlets and outlets.
- c. **Schedule:** Work began in 2018 and was scheduled for completion in 2019.

(6) Interchange 145

a. East Orange, Essex County

b. Description: The bridge that carries Central Avenue over the Garden State Parkway will be replaced with a longer span in order to facilitate improved access between the Parkway and I-280. The entrance ramp from I-280 to the southbound Parkway will be widened to two lanes. The relocation of the bridge abutments and the elimination of the center pier in the median between the northbound and southbound Parkway will allow for two standard width deceleration lanes from the northbound Parkway to I-280. Improvements are also being made to Oraton Parkway and to five bridges in the area that carry local traffic over the Parkway. The Interchange 145 toll plaza is being converted to one-way tolling under this contract.

c. Schedule: Construction began in 2018, and was 8 percent complete. Scheduled completion is expected in 2022.

Report of Management

The New Jersey Turnpike Authority Act of 1948, as amended, restated and supplemented, the Turnpike Revenue Bond Resolution of 1991, as amended, restated and supplemented, as well as Executive Orders 122 (McGreevy, 2004) and 37 (Corzine, 2006), require an annual audit of the New Jersey Turnpike Authority's (the Authority) financial statements by a firm of independent auditors. The Authority retains an independent auditor to satisfy these audit requirements. The report of the independent auditor on the financial statements of the Authority is included in the audited financial statements.

Consistent with Executive Order No. 122, (McGreevy, 2004) the Authority, through its Audit Committee, engages the independent auditors. The Audit Committee is comprised of individuals who are not employees of the Authority, and who meet certain standards of independence and financial expertise. The Audit Committee periodically meets with the independent auditors, and is responsible for assisting the Members of the Authority in overseeing the Authority's compliance with legal, regulatory and ethical requirements, as well as overseeing the integrity and quality of the Authority's financial statements. The independent auditors have unrestricted access to the Audit Committee.

Management of the Authority is responsible for the financial statements included in this Annual Report for the years ended December 31, 2018 and 2017. Management is responsible for both the accuracy of the financial information presented, the completeness of the report, and the fairness of the presentation, including all disclosures. The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in the United States and consequently, they reflect certain amounts based upon the best estimates and judgment of management.

Management of the Authority is also responsible for establishing and maintaining a system of internal control designed to provide reasonable assurance that the assets of the Authority are protected from loss, theft or misuse, and that adequate accounting records are maintained to allow for the preparation of financial statements in conformity with GAAP. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the resulting benefits; and (2) the analysis of costs and benefits requires estimates and judgments by management. As a recipient of federal funds for certain capital projects, and disaster declarations the Authority is required to ensure that adequate internal controls are in place which reasonably

Website address <http://www.njta.com/>

ensure compliance with applicable laws and regulations relating to the federal funding. The system of internal control of the Authority is subject to ongoing evaluation by management.

To the best of our knowledge and belief, the information provided to the external auditors in connection with the annual audit and contained in this annual report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Authority. All disclosures necessary to enable the reader to gain an understanding of the Authority's financial activities have been included.

The Authority's external auditors, KPMG LLP, have completed their examination and have concluded that in their opinion, the financial statements for the years ended December 31, 2018 and 2017 present fairly, in all material aspects, the financial position of the Authority as of December 31, 2018 and 2017, and the changes in its financial position and its cash flows for the year then ended in conformity with GAAP.

Independent Auditors' Report

The Commissioners
New Jersey Turnpike Authority:

Report on the Financial Statements

We have audited the accompanying basic financial statements of the New Jersey Turnpike Authority (the Authority), a component unit of the State of New Jersey, as of and for the years ended December 31, 2018 and 2017, and the related notes to the basic financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority, as of December 31, 2018 and 2017, and the respective statements of revenues, expenses, and changes in net position, and cash flows thereof for the years then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in note 2(w) to the financial statements, the Authority adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, effective January 1, 2018. Our opinion is not modified with respect to this matter.

As discussed in note 2(w) to the financial statements, the Authority adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, effective January 1, 2018. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis, the Schedule of Changes in Total OPEB Liability and Related Ratios (Schedule 1) and the Schedule of Proportionate Share, Employer Contributions and Notes (Schedule 2) as listed in the table of contents (collectively referred to as Required Supplementary Information) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplemental Information

Our audits for the year ended December 31, 2018 and 2017 were conducted for the purpose of forming an opinion on the basic financial statements that collectively comprise the Authority's basic financial statements. The supplemental information included on Schedules 3 through 11B, and the introductory and statistical sections, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information, except for those schedules and portions of schedules marked "unaudited," on which we express no opinion, has been subjected to the auditing procedures applied in the audits of the basic financial statements for the years ended December 31, 2018 and 2017 and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information included in Schedules 3 through 11B is fairly stated in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

KPMG LLP

July 23, 2019

(This Page Intentionally Left Blank)

The management of the New Jersey Turnpike Authority (the Authority) offers this narrative overview and analysis of the Authority's financial activities for the years ended December 31, 2018 and 2017, which should be read in conjunction with the Authority's financial statements.

Overview of the Financial Statements

This discussion and analysis is intended to present an overview of the Authority's financial performance for the years ended December 31, 2018 and 2017. The Authority's financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP) as presented by the Governmental Accounting Standards Board (GASB). This section is intended to provide an assessment of how the Authority's financial position has improved or deteriorated, and identify the factors that, in management's view, significantly affected the Authority's overall financial position. It may contain opinions, assumptions, or conclusions by the Authority's management that should not be considered a replacement for the financial statements included in this report.

The Statement of Net Position provides information about the nature and amount of investments in resources (assets) and the obligations to Authority creditors (liabilities), as well as the deferred outflows and inflows of resources, with the difference between these amounts reported as net position.

The Statement of Revenues, Expenses, and Changes in Net Position, which accounts for all of the current year's revenues and expenses, measures the success of the Authority's operations over the past year and can be used to determine how the Authority has funded its costs.

The Statement of Cash Flows provides information about the Authority's cash receipts, cash payments, and net changes in cash resulting from operating, investing and financing activities.

The notes to the Financial Statements provide:

- Information that is essential to understand the basic financial statements, such as the Authority's accounting methods and policies.
- Details of contractual obligations, future commitments and contingencies of the Authority.
- Other events or developing situations that could materially affect the Authority's financial position.

The Required Supplementary Information included in Schedule 1 presents information regarding the Authority's changes in total other postemployment benefits (OPEB) liability, related ratios and notes to the Authority's OPEB plan.

The Required Supplementary Information included in Schedule 2 presents information regarding the Authority's proportionate share, employer contributions and notes related to the State of New Jersey Public Employees' Retirement System (PERS).

The Other Supplementary Information included in Schedules 3 through 11B presents information regarding the Authority's accounting and compliance with its 1991 Turnpike Revenue Bond Resolution, as amended, restated and supplemented (the Resolution), and the Authority's interpretation of such Resolution.

The Authority's Business

The Authority is a body corporate and politic created by the New Jersey Turnpike Authority Act of 1948, as amended and supplemented (the Act). The Act authorizes the Authority to construct, maintain, repair, and operate the New Jersey Turnpike (the Turnpike System); to fix and establish tolls for the use of the Turnpike System; and to issue Turnpike revenue bonds or notes of the Authority, subject to prior approval in writing from the Governor and from either or both the State Treasurer and the Director of the Division of Budget and Accounting of the Department of the Treasury, payable solely from tolls and other revenues of the Authority. Under the provisions of the Act, the Turnpike bonds, notes, and interest thereon shall not be deemed to constitute a debt, liability or pledge of the faith and credit of the State of New Jersey (the State) or any political subdivision thereof. The Act further provides that the powers conferred upon the Governor and the Treasurer of the State described shall be exercised with due regard for the rights of the holders of bonds of the Authority at any time outstanding; and nothing in, or done pursuant to, the Act shall in any way limit, restrict or alter the obligation or powers of the Authority, or any representative or officer of the Authority, to carry out and perform in every detail each and every covenant, agreement or contract at any time made or entered into by, or on behalf of, the Authority with respect to its bonds or for the benefit, protection or security of the holders thereof.

On May 27, 2003, the Act was amended. The amendment empowered the Authority, effective on the Transfer Date which was July 9, 2003, to assume all powers, rights, obligations and duties of the New Jersey Highway Authority (the Highway Authority), which owned and operated the Garden State Parkway (the Parkway) and the PNC Bank Arts Center.

Highlights

- In May 2018, the New Jersey Turnpike (the Turnpike) Interchange 14A Plaza was reopened, after the completion of the construction project. Several improvements were completed at Interchange 14A, including the widening of the toll plaza by two lanes, widening of the ramp connecting the plaza to the westbound Newark Bay-Hudson County Extension, elimination of the traffic signal near the toll plaza at Avenue E at 53rd Street, and replacement of the connector bridge between the toll plaza and Route 440, Route 185 and Port Jersey Boulevard.

The full cost of the project totaled \$286,000 which includes the design, utility relocation, right of way acquisition, and the construction work. The Interchange 14A Plaza improvements are part of the 10-year \$7 Billion Capital Improvement Program (CIP) which was approved in 2008.

- In June 2018, the Authority received the Government Finance Officers Association (GFOA) Distinguished Budget Presentation Award for the submission of its 2018 Annual Budget. The GFOA established the Distinguished Budget Presentation Awards Program in 1984 to encourage and assist state and local governments to prepare budget documents of the very highest quality. The Authority received this award for the fourth successive year.
- As of July 26, 2018, one-way tolling at Interchange 145 on the Garden State Parkway (the Parkway) commenced for both improved safety and in order to facilitate a series of capital improvements being made at the exit and on nearby roads and bridges. The one-way tolling at Interchange 145 has had minimal impact on toll revenue as a whole.
- The Thomas Edison Service Area on the Turnpike and the Monmouth Service Area on the Parkway are both closed for renovation as of September 3, 2018 and will remain closed through Memorial Day of 2019. These are the first two service areas to break ground on construction of the total of fourteen restaurants and twenty-one fuel service facilities that are to be remodeled or refurbished on the Parkway and the Turnpike over the next seven years as part of the HMS Host Tollroads Inc. (HMS) and Sunoco Retail LLC (Sunoco) contracts.

- Beginning September 24, 2018, "Exact Change" lanes and "Cash Receipts" lanes on the Parkway were removed at all mainline barrier toll plazas. These are being replaced by "Full Service" lanes. The coin machines used in the "Exact Change" lanes are nearing the end of their useful lives and the maintenance of the machines is no longer cost effective. The entry and exit ramp tolls on the Garden State Parkway will continue to offer "Exact

Change" lanes. The shift to "Full Service" lanes at mainline barrier toll plazas was substantiated by the continued increase in the E-Z Pass user base as well as the results of a recent study which showed that less than 5% of drivers use the exact change lane; non-E-Z Pass drivers more frequently used the "Full Service" lanes.

- On September 25, 2018 and November 20, 2018, the Authority approved Memorandums of Agreement with seven of the eight collective bargaining units. These agreements addressed across-the board salary increases, retroactive payments and an increase in the hourly minimum rate for certain job titles. Four of these seven units did not have a wage increase in more than eight years and had been working without a contract for the same amount of time. The agreements expire on June 30, 2019.
- In 2018, the Authority's \$7 Billion CIP continued, and as of December 31, 2018, nearly 96% of the overall budget has been spent or committed on projects. The Authority spent over \$263,600 on projects included in the \$7 Billion CIP during 2018. The Authority is in the 10th year of the program and several projects have been completed on schedule and on or under budget. On September 25, 2018, the Authority approved an amendment to the \$7 Billion CIP which was originally approved as a 10-year plan in October 2008. The amendment extends the program by two years and plans to utilize \$16,000 of available funds generated from the favorable bid pricing on additional design work for new projects. This design work will accelerate the future construction award process for these new projects.
- On September 25, 2018, the Authority also amended the 2018 Annual Budget to provide for the following: (1) an increase in the Revenue Budget of \$45,000 primarily due to increases in toll revenue, (2) an increase in the Operating Expense Budget of \$32,000 to primarily cover the union contract settlements and increased State Police costs for patrolling the roadways, (3) a decrease in the Debt Service Budget of \$14,000 due to savings from the timing of the final new money bond issuance originally budgeted to occur in April 2018, and (4) an increase in the General Reserve Fund/Supplemental Capital Fund Budget of \$25,000 to fund the design work to accelerate the construction work in the coming years. Overall, these changes resulted in higher budgeted Net Revenue and a higher budgeted Debt Service Coverage ratio as compared to the original 2018 budget.

- The Authority was awarded the 2018 Project of the Year Award from the North Jersey Branch of the American Society of Civil Engineers (ASCE) for the Garden State Parkway Interchange 163 Project. The \$70,000 Interchange 163 Project scope consisted of the construction of six new bridges, the rehabilitation of four bridges, re-profiling approximately one-half mile of roadways, installing new retaining walls, the relocation of major utilities and the construction of storm water management facilities. This project involved extensive teamwork and coordination with varying agencies, contractors, townships, local businesses and residents. The success of the project is attributed to the seamless partnering and dedication of all involved.

- In December 2018, for the fourth consecutive year, the Authority was a recipient of the GFOA's Certificate of Achievement for Excellence in Financial Reporting for the submission of its Comprehensive Annual Financial Report (CAFR) for the years ended December 31, 2017 and 2016. The program was established by the GFOA in 1945 to assist state and local governments in preparing financial reports that evidence the spirit of transparency and full disclosure.
- Toll revenue in 2018 was \$1,612,326, which was \$32,430 or 2.1% higher compared to 2017. Toll revenue was 0.9% greater than the amended budget primarily due to stronger than projected commercial traffic growth on the Turnpike. In 2018, a record level of 34,300 commercial transactions were recorded surpassing the previous record high of 2007. Also, total transactions and total passenger car transactions reached new record highs in 2018, surpassing the previous record for both set in 2017. In 2018, traffic on the Turnpike increased by 1.6% and revenue increased by 2.4% as compared to 2017. Traffic on the Parkway decreased by 0.8% and revenue increased by 1.1% as compared to 2017. The increase in toll revenue was due to normal growth, favorable economic conditions, and strong commercial traffic. The decrease in traffic on the Parkway was due to Interchange 145 (East Orange) being converted to one-way tolling on July 26, 2018. Transactions are now only counted in one direction. When adjusting for one-way tolling, toll transactions would have increased by 0.6%.
- The Authority's net position decreased by \$849,758 or 68.1%, from \$1,248,013 in 2017 to \$398,255 in 2018. The decrease in net position is mainly due to the cumulative effect of implementing GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75). The cumulative effect of the

adoption the GASB 75 alone was a \$1,059,526 reduction to the Authority's beginning net position in 2018.

Implementation of GASB 75 and GASB 89

During 2018, the Authority adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75) and early adopted GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period* (GASB 89), effective January 1, 2018.

GASB 75 establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses related to other postemployment benefits (OPEB) in the basic financial statements, in addition to requiring more extensive disclosures and required supplementary information. As of December 31, 2018, the Authority recognized total OPEB liability of \$1,740,913. The Authority was required to decrease the beginning net position at January 1, 2018 by \$1,059,526 to reflect the cumulative effect of the adoption of GASB 75. See note 12.

GASB 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. Interest costs incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. Due to the adoption of GASB 89, all interest costs incurred during 2018 before the end of the construction period were recognized as interest expense. See note 2(w).

Condensed Summary of Net Position

	2018 (1)	2017	2016
Assets:			
Current assets	\$ 1,915,324	1,839,772	1,770,771
Other noncurrent assets	556,994	759,208	440,753
Capital assets, net of accumulated depreciation	11,960,282	11,841,066	11,455,725
Total assets	<u>\$ 14,432,600</u>	<u>14,440,046</u>	<u>13,667,249</u>
Deferred outflows:			
Deferred amount on refunding	\$ 253,649	281,059	132,231
Deferred amount relating to pension	76,452	110,378	156,574
Deferred amount relating to other postemployment benefit	119,504	—	—
Total deferred outflows	<u>\$ 449,605</u>	<u>391,437</u>	<u>288,805</u>
Liabilities:			
Current liabilities	\$ 865,680	899,866	938,644
Noncurrent liabilities	13,462,680	12,578,049	12,084,993
Total liabilities	<u>\$ 14,328,360</u>	<u>13,477,915</u>	<u>13,023,637</u>
Deferred inflows:			
Accumulated increase in fair value of hedging derivatives	\$ 15,369	6,288	2,035
Deferred amount relating to pension	135,004	99,267	12,073
Deferred amount relating to other postemployment benefit	5,217	—	—
Total deferred inflows	<u>\$ 155,590</u>	<u>105,555</u>	<u>14,108</u>
Net position:			
Net investment in capital assets	\$ 1,517,792	1,379,079	1,064,121
Restricted under trust agreements	225,094	242,544	221,811
Unrestricted	(1,344,631)	(373,610)	(367,623)
Total net position	<u>\$ 398,255</u>	<u>1,248,013</u>	<u>918,309</u>

(1) GASB 75 and GASB 89 were adopted as of January 1, 2018. The 2017 and 2016 financial statements have not been restated.

Discussion of Condensed Summary of Net Position 2018, 2017, 2016

2018 – 2017

The Authority's total net position is reported at \$398,255 and \$1,248,013 as of December 31, 2018 and 2017, respectively, representing a decrease in 2018 of \$849,758, or 68.1%, compared to 2017. The major factor causing this decrease was the cumulative effect of implementing GASB 75 during 2018. Without the implementation of GASB 75, net position would have increased by \$209,768 primarily due to an increase in toll revenue. Capital assets increased

by \$119,216 or 1.0%, and other noncurrent assets decreased by \$202,214 or 26.6%. Capital assets increased because of the continued spending on the \$7 Billion CIP. Other noncurrent assets decreased primarily due to the reduction in restricted investments comprised of the proceeds of the Series 2017A Turnpike Bonds which were spent on capital assets. Noncurrent liabilities increased by \$884,631, or 7.0%, primarily due to the increase in the other postemployment benefit (OPEB) liability with the adoption of GASB 75. The deferred outflows and deferred inflows of resources related to OPEB are the result of differences between the actual and expected experience and the changes of assumptions which are not reflected in the current year's OPEB expense. Deferred outflows relating to OPEB also include the payments of the retiree health benefits payments subsequent to the measurement date of the liability.

2017 – 2016

The Authority's total net position is reported at \$1,248,013 and \$918,309 as of December 31, 2017 and 2016, respectively, representing an increase of \$329,704 or 35.9%, compared to 2016. The major factors causing this increase were additional toll revenue, as traffic on both the Turnpike and the Parkway was higher in 2017 than in 2016, higher investment income and lower operating and non-operating expenses. Capital assets increased by \$385,341, or 3.4%, and other noncurrent assets increased by \$318,455, or 72.3%. Capital assets increased as a result of the continued spending on the ongoing \$7 Billion CIP. Other noncurrent assets increased primarily due to the unspent proceeds of the Series 2017A Bonds issued in April 2017. Noncurrent liabilities increased by \$493,056, or 4.1%, also primarily due to the issuance of the Series 2017A Bonds which was offset by a decrease in the net pension liability as of December 31, 2017.

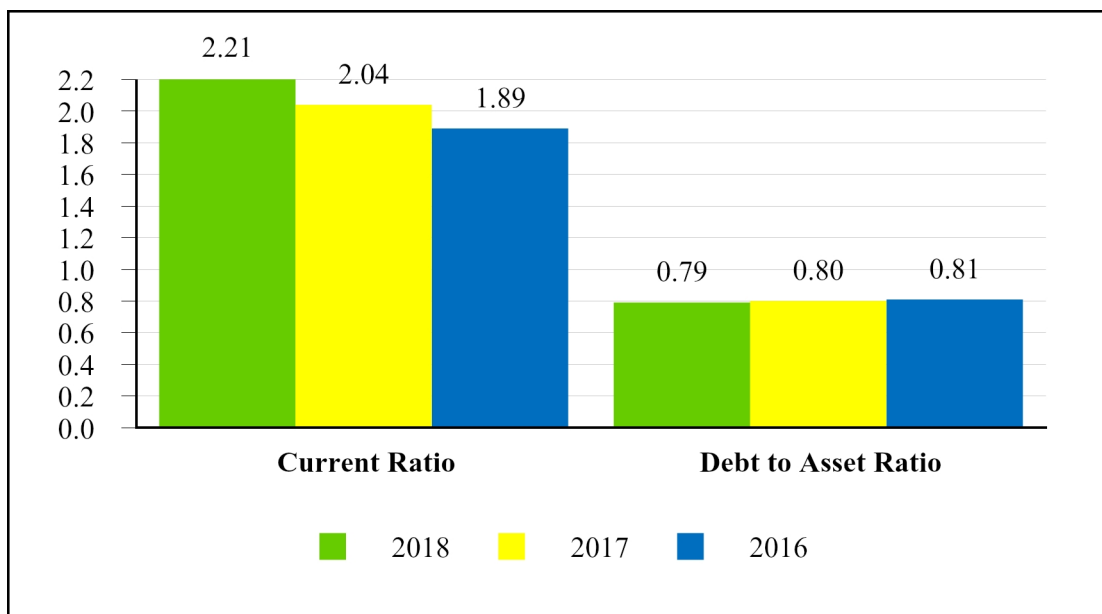

Adjusted Net Position

	2018	2017	2016
Net position as per GAAP Financials	\$ 398,255	1,248,013	918,309
Unfunded non-cash adjustments:			
Other postemployment benefit liability	1,634,588	402,773	358,720
Interest rate swaps liabilities	6,738	20,914	29,190
Net pension liability	365,599	438,493	561,453
Accounts payable and accrued expenses	—	16,847	24,753
Other long-term obligations	22,285	49,255	71,820
Hybrid instrument borrowing	118,397	143,046	89,302
Accumulated increase in fair value of hedging derivatives	15,369	6,288	2,035
Deferred amount relating to pensions	135,004	99,267	12,073
Deferred amount relating to other postemployment benefit	5,217	—	—
Deferred amount on refunding and derivative instruments	(253,649)	(281,059)	(87,002)
Deferred amount relating to pensions	(76,452)	(110,378)	(156,574)
Restricted investments	—	—	79,937
Deferred amount relating to other postemployment benefit	(119,504)	—	—
Capital assets, net of accumulated depreciation	(10,673)	(13,673)	(15,719)
Total non cash adjustments	\$ 1,842,919	771,773	969,988
Garden State Arts Foundation	(607)	(719)	(798)
Net Position as per Bond Resolution	<u>\$ 2,240,567</u>	<u>2,019,067</u>	<u>1,887,499</u>

Shown above is the Authority's adjusted net position calculated as per the Authority's Bond Resolution. Net position as per the Bond Resolution has been calculated after adjusting for primarily GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligation* (GASB 49), GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments* (GASB 53), GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68) and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75) as well as other GAAP reserves which are all non-cash liabilities. Over the past several years, the implementation of new GASB pronouncements has resulted in significant non-cash accounting reductions in the Authority's net position. Management believes that the net position as per the Bond Resolution provides an alternate view of the strength of the Authority's operations and its financial position.

Net Position Ratio Analysis - GAAP Basis

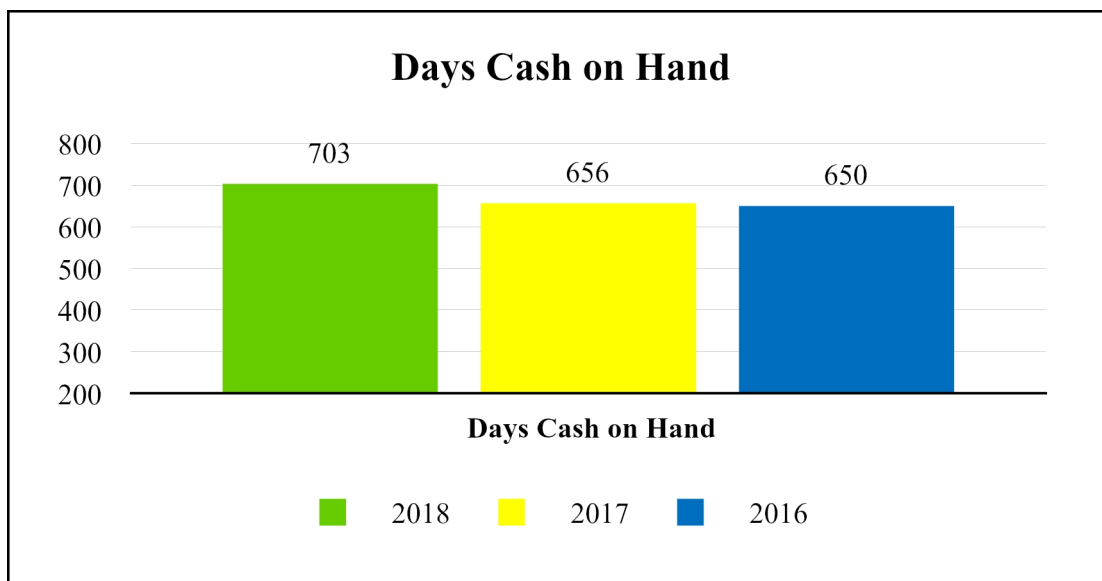

Ratio	2018	2017	2016	Explanation
<i>Current Ratio</i>	2.21	2.04	1.89	The current ratio is calculated as the Authority's current assets divided by current liabilities. A strong current ratio is over 1.0, and indicates an organization's ability to meet their short-term obligations. The Authority's current ratio has continued to improve each year, with the average over the three year period being 2.05. For 2018, the Authority has more than two times the amount of current assets as compared with current liabilities. Further, year over year the Authority's current ratio has increased, reflecting the positive cash flow generated from operations.
<i>Debt to Asset Ratio</i>	0.79	0.80	0.81	The debt to assets ratio is calculated by dividing total debt by total assets. The debt to asset ratio continues to decline, decreasing to 0.79 in 2018 from 0.81 in 2016, as a portion of capital assets are paid for through excess revenues.

Key Performance Metric - Net Position

Days Cash on Hand – Days cash on hand is calculated by combining unrestricted cash and unrestricted investments and dividing by daily operating expenses (from the Revenue Fund). This calculation shows how long (in days) the Authority would be able to pay its operating expenses without the generation of revenue. As a result, a larger number of days cash on hand is desirable. As shown in the graph, the days cash on hand has consistently increased each year. Based on this calculation, in 2018, the Authority could go 703 days without generating any revenue and still pay its operating expenses. Days cash on hand has improved due to the positive cash flow generated from operations.

	2018	2017	2016
Unrestricted Cash & Investments	\$ 1,043,478	913,459	876,311
Daily Operating Expenses (Revenue Fund)	\$ 1,485	1,392	1,348
Days cash on hand	703	656	650

Capital Improvement Program (CIP)

- The Authority is nearing the conclusion of a \$7 Billion CIP that included large scale projects such as widening stretches of both the Turnpike and the Parkway and smaller projects that improve interchanges, rehabilitate bridges, and deploy new technologies. The \$7 Billion CIP continues on budget with some scheduling changes as projects have been added from savings. Certain projects are completed or are on target to be completed ahead of schedule and under budget. The Newark Bay Hudson County Extension (NBHCE) project is expected to go beyond its original completion date due to location and scheduling conflicts. This work could not be started until the New Jersey State Department of Transportation (NJDOT) completed their Pulaski Skyway project. The Pulaski Skyway reopened on July

2, 2018. At the tenth year of the program, the Authority has spent or committed approximately 96%, or \$6.7 billion of its original \$7 billion budget with minimal impact to traffic.

- On September 25, 2018, the \$7 Billion CIP was amended to extend the end date by two years, until December 31, 2020. This amendment was required due to the fact that certain projects were completed or are on target to be completed ahead of schedule and under budget. This has allowed the Authority to add new work without any additional financial impact. In addition, the amendment approved and added \$16,000 of design work for new projects while maintaining the original \$7 billion budget.
- Bond proceeds are deposited in the Construction Fund to support the \$7 Billion CIP. Total expenditures in the Construction Fund for the twelve months ended December 31, 2018 were approximately \$263,600. Spending included approximately \$63,000 for the NBHCE Bridge Re-decking Project, approximately \$51,300 for the Facilities Improvements Phase I Project, approximately \$36,700 for the Great Egg Harbor and Drag Channel Bridge Project, approximately \$19,300 for the Widening of Parkway Mileposts 35 to 63 Project, and approximately \$17,800 for the Interchange Improvements Project. In addition to these expenditures, there are open contracts and commitments totaling approximately \$353,000.
- As a part of the \$7 Billion CIP the Authority has taken great measures to increase mobility and reduce commuting times on both the Parkway and Turnpike. One of the main projects that was successfully completed and opened to the public in late 2014 was the widening between Interchanges 6 and 9 on the Turnpike. In addition, through multiple phases, the Authority completed the widening of the Parkway from milepost 35 to 80. The Authority has also undertaken additional projects beyond the Turnpike and the Parkway widenings to improve the safety and mobility of traffic on both roadways such as bridge rehabilitations and Interchange improvements. Since the program began, the Authority has expanded and rehabilitated major bridges on both the roadways and more than a dozen interchanges have been re-built, expanded or improved to provide better access to and from both roadways.

The Projects currently included in the \$7 Billion CIP are the following:

Project	Current Budget	Amount Spent or Committed to Date	Percent Spent & Committed to Date
Turnpike Widening (Interchange 6-9)	\$ 2,135,328	2,134,075	100 %
Bridge Improvements	1,685,344	1,508,511	90 %
Roadway Improvements	847,329	797,307	94 %
Interchange Improvements	1,068,629	1,029,748	96 %
Facilities Improvements	672,334	665,170	99 %
Parkway Widening (Milepost 35-80)	591,036	578,479	98 %
	\$ 7,000,000	6,713,290	96%

Turnpike Widening: The Turnpike Interchanges 6 to 9 widening, which was completed on schedule and under budget, was opened to traffic in November 2014. The Turnpike widening provides three additional travel lanes in each direction between Interchanges 6 and 8A, and one additional lane in each direction between Interchanges 8A and 9. All construction is complete and final Program close out is in progress. This Turnpike widening is perhaps the most significant and successful project in recent years, allowing free-flow of traffic at all times as previous significant peak-period delays in the widening area have been eliminated.

Bridge Improvements: Bridge improvements in the \$7 Billion CIP include re-decking, seismic retrofitting, security measures, cleaning and repainting of structural steel, substructure repairs and other improvements to the 16 major Turnpike and Parkway bridges and other high-priority structures. The \$7 Billion CIP includes approximately \$1,685,300 for bridge improvements. In 2018, the major projects include portions of the Delaware River Turnpike Bridge and the NBHCE on the Turnpike, and the Great Egg Harbor and the Drag Channel on the Parkway.

Roadway Improvements: Roadway improvements totaling approximately \$847,300 are also included in the \$7 Billion CIP. This includes widening and strengthening roadway shoulders, replacing deteriorated guide rail, improving drainage, repairing median barriers, installing variable message signs, replacing weathered and outdated guide signs, and making other investments to improve the safety and operation of the Turnpike and Parkway. The guide sign replacement project on the Turnpike was substantially completed in 2018 and the Authority continues to work on the culvert rehabilitation on the Parkway. The design work for additional median barrier replacements along with the design of a number of other new project initiatives was added as a part of \$7 Billion CIP amendment in September 2018.

Interchange Improvements: The \$7 Billion CIP also includes approximately \$1,068,600 for Interchange Improvements on both roadways. The projects include Interchanges 9, 10, and 14A on the Turnpike and Interchanges 9, 10, 11, 36, 37, 41, 91, 105, 109, and 125 on the Parkway. Turnpike Interchange 14A and Parkway Interchanges 105 and 163 were completed in 2018.

Facility Improvements: The \$7 Billion CIP includes approximately \$672,300 for facilities improvements. In total, the Authority will build forty-two new structures and rehabilitate eighteen existing structures. Projects include the replacement of four State Police Troop D Stations, the rehabilitation of sixteen maintenance districts, minor improvements at all Turnpike toll plaza buildings, and construction of a total of twelve salt storage facilities on both roadways. The Facilities Improvement Program is near its completion and will be completed in 2019. To date, thirteen maintenance district facilities, four State Police Stations, a Central Services facility, twelve salt sheds, and all Turnpike toll building repairs have been completed.

Parkway Widening: The Parkway widening project will add a third travel lane and full-width shoulders between Mileposts 35 and 80 and was completed as follows:

Phase I – Mileposts 63 to 80 – Construction completed and open to motorists in 2011.

Phase II – Mileposts 48 to 63 –The widening between Mileposts 52 and 63 was opened in 2014, with the remaining widening of this section to Milepost 48 opened in 2015.

Phase III – Mileposts 35 to 48 –The widening between Mileposts 41 and 48 was completed in 2016 and the widening between Mileposts 35 and 41 was completed in the fall of 2018.

Total budgeted costs for the Parkway Mileposts 35 to 80 Widening Program are approximately \$691,000; however, \$100,000 of those costs were financed from the proceeds of bond anticipation notes prior to the issuance of the first Series of Bonds for the \$7 Billion CIP.

Capital Assets

	December 31		
	2018	2017	2016
Land	\$ 833,761	832,460	830,612
Construction-in-progress	535,904	1,561,960	1,258,316
Roadways	4,642,741	4,143,232	4,181,281
Bridges	4,348,351	3,829,827	3,808,491
Buildings and improvements	637,904	559,488	495,102
Equipment	961,621	914,099	881,923
Total capital assets, net of accumulated depreciation	<u>\$11,960,282</u>	<u>11,841,066</u>	<u>11,455,725</u>

Capital assets consist of land, construction in progress, infrastructure, buildings, and equipment. Infrastructure assets are typically items that are immovable, such as highways and bridges. Detailed information on capital asset activity can be found in note 4.

2018 – 2017

The Authority's capital assets as of December 31, 2018 were \$16,056,825 of gross asset value with an accumulated depreciation of \$4,096,543, leaving a net book value of \$11,960,282. This represents 82.9% of the Authority's total assets.

Capital assets, net of accumulated depreciation, increased by \$119,216 in 2018 primarily due to the continued spending on the Authority's \$7 Billion CIP. Major projects include the Parkway widening between Milepost 35 and 63, facility and interchange improvements and bridge reconstructions. Land increased by \$1,301 in 2018 due to the continued acquisition of parcels needed for the Parkway Interchange 125 Project. Construction in progress decreased by \$1,026,056 in 2018 because of substantial completion of various roadways, bridges, buildings, and equipment projects. Roadways increased by \$499,509, or 12.1%, in 2018 mainly due to continued spending on the Parkway widening, and Turnpike Interchange 14A Reconstruction and increased resurfacing completed on both roadways. Bridges increased by \$518,524, or 13.5%, in 2018 due to substantial completion of several bridge improvement projects on the Turnpike and Parkway which included portions of the NBHCE Bridge re-decking, Great Egg Harbor Drag Channel Bridge, and the Delaware River Turnpike Bridge as well as continued re-decking of several minor bridges on both roadways. Buildings increased by \$78,416, or 14.0%, in 2018 due to the substantial completion of the Newark State Police Station at Interchange 14 and several maintenance district buildings. Equipment increased by \$47,522, or 5.2%, in 2018 due to the addition of sign structures and safety devices after substantial completion as part of the Parkway widening between Mileposts 35 and 65 as well as the Turnpike 14A reconstruction. The Authority had open commitments related to construction contracts totaling \$353,000 as of December 31, 2018. These construction contracts include work related to the Authority's \$7 Billion CIP and will be completed over the next few years.

2017 – 2016

The Authority's capital assets as of December 31, 2017 were \$15,611,339 of gross asset value with an accumulated depreciation of \$3,770,273 leaving a net book value of \$11,841,066. This represents 82.0% of the Authority's total assets.

Capital assets, net of accumulated depreciation, increased by \$385,341 in 2017 primarily due to the continued spending on the Authority's \$7 Billion CIP. Major projects include the Parkway widening between Milepost 35 and 48, facility and interchange improvements and bridge reconstructions. Land increased by \$1,848 in 2017 due to the continued acquisition of parcels needed for the Turnpike Interchanges 6 to 9 Widening Project and the Facilities Improvements Phase II Project as well as other various improvement projects along the Authority's right-of-way. Constructions in progress increased by \$303,644 in 2017 as a result of the continued spending on the Authority's \$7 Billion CIP. This increase is mainly the result of continued spending for the Facilities Improvements Phase I, Turnpike Interchange 14A Reconstruction, and Parkway Widening Phase III (Milepost 35 to 48) Project. Roadways decreased by \$38,049, or 0.9%, in 2017 as depreciation expense was higher than roadway assets created. Bridges increased by \$21,336, or 0.6%, in 2017 due to the substantial completion of several bridges on the Turnpike and Parkway which were included in the Interchange Improvements Projects and the Bridge Deck Reconstruction Projects. Buildings increased by \$64,386, or 13.0%, in 2017 due to the substantial completion of two new Turnpike maintenance buildings at the maintenance districts and the purchase of the Authority's Headquarters at 1 Turnpike Plaza. Equipment increased by \$32,176, or 3.6%, in 2017 due to the addition of sign structures and safety devices after substantial completion of the Sign Replacement Project.

The Authority had open commitments related to construction contracts totaling \$469,900 as of December 31, 2017. These construction contracts include work related to the Authority's \$7 Billion CIP and will be completed over the next few years.

Condensed Summary of Revenue, Expenses and Changes in Net Position

	2018 (2)	2017	2016
Operating revenues:			
Toll revenue	\$ 1,612,326	1,579,896	1,570,662

Net position – Beginning of period	1,248,013	918,309	658,290
Cumulative effect of adoption of GASB 75	(1,059,526)	—	—
Net position – End of period	\$ 398,255	1,248,013	918,309

(1) Operating expenses include both the funded and the non-cash portion of the annual OPEB cost.

(2) GASB 75 and GASB 89 were adopted as of January 1, 2018. The 2017 and 2016 financial statements have not been restated.

Discussion of Condensed Summary of Revenue, Expenses and Changes in Net Position

2018 – 2017

Operating Revenues

Operating revenues totaled \$1,753,003 for the year ended December 31, 2018, representing an increase of \$54,410, or 3.2%, from the year ended December 31, 2017. The principal source of revenue for the Authority is tolls. During 2018, toll revenue totaled \$1,612,326 and constituted 92.0% of the Authority's operating revenues, as compared to \$1,579,896, or 93.0%, in 2017. On the Turnpike, passenger car traffic increased 1.1% while commercial vehicle traffic increased by 4.8% resulting in an overall increase of 1.6%. On the Parkway, passenger

car toll transactions decreased by 0.8% while commercial vehicle toll transactions increased by 3.4% resulting in an overall decrease by 0.8%. Toll transactions and toll revenue increased on the Turnpike from the prior year. This can be attributed to normal growth, the favorable economic conditions, reopening of Interchanges 6 and 6A which were closed for a significant part of the first quarter of 2017 and a stronger than projected commercial traffic growth on the Turnpike in 2018. On the Parkway, toll revenue increased while toll transactions decreased. This is a result of the conversion of interchange 145 to one-way tolling. Adjusting for this impact, traffic on the Parkway increased by 0.6%.

The increase in overall revenue was tempered by winter storms Grayson, Quinn, and Toby which negatively affected traffic and revenue on both roadways. For the Turnpike, the storms resulted in 2,013 fewer transactions and approximately \$8,283 less revenue when compared to similar days in January and March. For the Parkway, the storms resulted in 3,148 fewer transactions and approximately \$3,441 less revenue when compared to similar days in January and March.

Electronic toll collection remains popular and overall usage rates continue to be strong. On the Turnpike, the E-ZPass usage rate for passenger cars was 84.8% and for commercial vehicles was 92.8%, resulting in an overall usage rate of 85.9% in 2018, an increase from 84.2% in 2017. On the Parkway, the overall E-ZPass usage rate increased to 83.2% from 81.4% in 2017. During 2018, passenger cars had a usage rate of 83.1% and commercial vehicles had a usage rate of 91.0%.

E-ZPass fees totaled \$84,417 and \$60,505 for the years ended December 31, 2018 and 2017, respectively, representing a significant increase of \$23,912 or 39.5%. E-ZPass fees consist of monthly membership fees, transponder sales, lost or damaged tag fees, returned check fees, administrative fees, revoked account collection fees, interest on prepaid accounts and monthly statement fees. The increase in part resulted from both greater administrative fees collected and higher interest income. Administrative fees have increased due to greater collection efforts from the Motor Vehicle Commission registration suspension program. Interest income rose in 2018 as a result of better returns due to a general market increase in short term interest rates and higher invested balances.

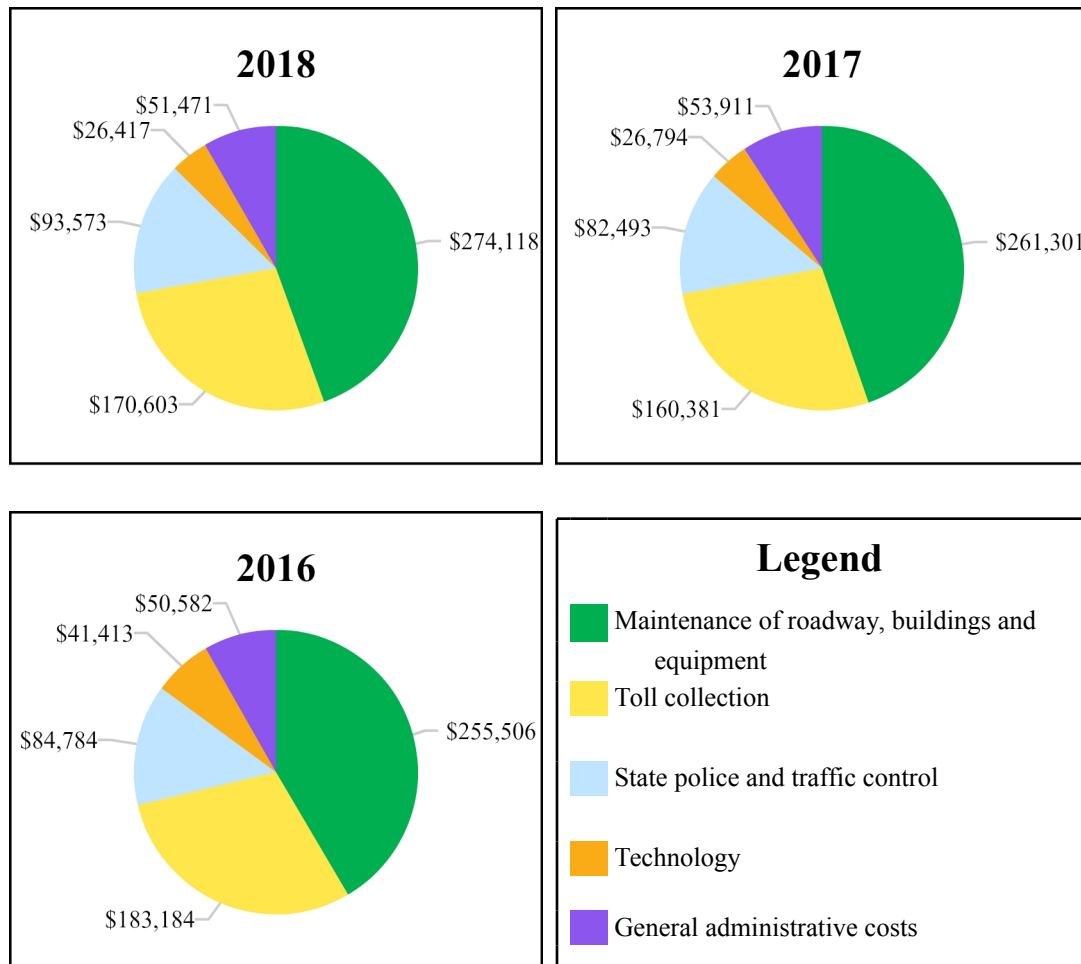

Concession revenues consist of amounts paid to the Authority from the sale of food, fuel and convenience store items from the companies which operate the service areas on both roadways. Concession revenues were \$36,192 in 2018, which represents an increase of \$601 or 1.7% from \$35,591 in 2017. Overall, this modest increase is attributed to the change in contractual terms with HMS and Sunoco. In addition to receiving a percentage of gasoline, food and convenience store sales, the Authority receives 50% of the gross profit margin on diesel fuel sales. Fuel sales on the Turnpike decreased by 10.5% in 2018 as compared to 2017. Turnpike food sales increased 5.4%, and the convenience store sales decreased by 15.7%, compared to last year. On the Parkway, fuel sales decreased 12.5% and convenience store sales decreased 28.2% and food sales decreased 1.7%. The overall decrease in the sales, in part, can be attributed to the closure of the Thomas Edison service area on the Turnpike in September 2018 for reconstruction and the closure of the Monmouth Service area on the Parkway for reconstruction in September 2018. The Authority's revenue received from the service areas was impacted, to a certain degree, by the removal of cigarette sales in the gross sales calculations.

Miscellaneous revenue totaled \$20,068 for the year ended December 31, 2018, representing an decrease of \$2,533 or 11.2%, compared to \$22,601 for the year ended December 31, 2017.

Miscellaneous revenue includes rentals of cell tower sites, fiber lease revenue, fiber optic lines, towing commissions, park and ride receipts, and easements. The decrease is primarily due to inclusion of significant surplus land sale of \$5,700 and a \$2,925 one-time LIBOR settlement in 2017 and the lack thereof in 2018. The decline in revenue in 2018 was partially offset by an insurance recovery in 2018 representing advance payments on the Delaware River Turnpike Bridge claim filed by the Authority in 2017.

Operating Expenses

Operating expenses by category for the last three years are shown below:

General operating expenses, excluding depreciation, totaled \$616,182 for the year ended December 31, 2018, representing an increase of \$31,302, or 5.4%, from \$584,880 for the year ended December 31, 2017. The higher operating expenses are primarily the result of an increase in Maintenance expense and Toll Collection expenses as well as State Police costs by \$12,817, \$10,222 and \$11,080, respectively, for the year ended December 31, 2018.

Maintenance expenses increased by \$12,817 to \$274,118 for the year ended December 31, 2018 from \$261,301 for the year ended December 31, 2017. The main reasons for this increase is attributed to higher severe weather-related costs due to a harsh winter season in the beginning of 2018 and increase in roadway emergency repairs. In 2018, the Authority spent a total of

\$45,069 on snow/severe weather events, which was the second highest amount ever spent. This increase is partially offset by a savings in building rental due to the purchase of the Authority's headquarters building in last quarter of 2017.

Toll collection costs increased by \$10,222 to \$170,603 from \$160,381, for the years ended December 31, 2018 and 2017, mainly due to higher credit card fees, as well as higher expenses payable to the New Jersey E-ZPass vendor, due to an increase in the dollar value and the number of transactions processed.

State police and traffic control costs increased by \$11,080 to \$93,573 for the year ended December 31, 2018 from \$82,493 for the year ended December 31, 2017. The primary reason for this increase is due to more troopers patrolling on both the roadways, an increase in the trooper pension and health benefits costs effective July 1, 2018, and a decrease in trooper costs charged to capital projects.

Technology costs decreased by \$377 to \$26,417 for the year ended December 31, 2018 from \$26,794 for the year ended December 31, 2017. Reasons for this slight decrease are lower hardware expenses and increase in the allocation of toll collection equipment maintenance cost to toll collection expense category. This decrease is marginally offset by the increased spending on technology improvement projects such as the New Jersey E-ZPass contract implementation upgrade, and the new capital project management system.

General administrative expenses decreased by \$2,440 to \$51,471 for the year ended December 31, 2018 from \$53,911 for the year ended December 31, 2017. The decrease is mainly due to lower claim settlements incurred under the deductible limit for various insurance claims and professional service charges compared with 2017.

Overall, the operating expenses also increased due to an increase in OPEB expense. OPEB expense increased due to the GASB 75 implementation. OPEB expense is reasonably allocated to all the operating departments based on salary.

Finally, depreciation expense for the year ended December 31, 2018 totaled \$326,616 on the gross depreciable capital asset base of \$14,687,160 as compared to \$304,989, for the year ended December 31, 2017 showing an increase of \$21,627 due to an increase in the gross depreciable capital asset base by \$1,470,241 during 2018.

Nonoperating Revenues (Expenses)

Net nonoperating expenses increased by \$109,147 to \$600,637 for the year ended December 31, 2018 from \$491,490 for the year ended December 31, 2017 primarily due the increase in interest expense and a decrease in investment income. The increase in interest expense is a result of the early adoption of GASB 89, as interest expense related to capital projects is no longer capitalized. An offset to this increase in interest expense was the contractual reduction in the payments to the State of New Jersey under the new State Transportation Projects Funding Agreement (2016-2021).

The Build America Bonds subsidy represents a direct payment by the United States Treasury to the Authority originally equal to 35% of the interest payable on the Series 2009F Bonds and the Series 2010A Bonds. The Build America Bonds subsidy in 2018 was \$76,439, an increase of \$286 from \$76,153 in 2017 due to a decline in the automatic Federal deficit reduction spending cuts. The subsidy payment received for the July 1, 2018 interest payment

was reduced by 6.6% and the subsidy payment received for January 1, 2019 interest payment was reduced by 6.2%, while in 2017 the comparable payments were reduced by 6.9% and 6.6%, respectively.

Payments to the State of New Jersey decreased by \$39,500 in 2018 to \$193,000 from \$232,500 in 2017. The payments to the State include an annual payment of \$22,000 in 2018 and 2017 to assist in transportation purposes. Under the terms of a State Transportation Projects Funding Agreement dated June 28, 2016, the Authority made payments totaling \$166,500 in 2018 and \$204,000 in 2017. The Authority also made annual payments to the State totaling \$4,500 in 2018 and \$6,500 in 2017 as per the Feeder Road Maintenance and Cost Sharing Agreement, dated July 1, 2016, for feeder road maintenance provided by the New Jersey Department of Transportation. Payments under all agreements are made from the General Reserve Fund and are subordinate to debt service payments on outstanding bonds and all other obligations under the Authority's General Bond Resolution (note 16).

Investment earnings were \$36,868 in 2018 as compared to \$87,529 in 2017. This decrease is mainly due to recognizing an investment gain of \$79,938 representing the reclassification of the negative mark to market value of the Series 2000B-G interest rate swap in October 2017. In 2018, the Authority does not have any interest rate swaps classified as investments and therefore did not record any mark to market investment gain or loss. Interest income earned by the Authority on investments was \$30,845 in 2018, and has significantly increased from \$17,732 earned in 2017 primarily due to a general increase in short term interest rates and increase in average invested balances. In addition, in 2018 and 2017, investment earnings were \$6,016 and \$5,277, respectively representing interest income relating to construction projects.

Interest expense increased by \$102,883 to \$524,797 for the year ended December 31, 2018 as compared to \$421,913 for the year ended December 31, 2017. The Authority adopted GASB 89 effective January 1, 2018 and discontinued capitalization of interest expenses as of January 1, 2018 primarily causing the increase in interest expense. In addition, interest expense increased due to a full year of expense recognized on the Series 2017A Bonds issued in April 2017.

2017 – 2016

Operating Revenues

Operating revenues totaled \$1,698,593 for the year ended December 31, 2017, representing an increase of \$9,240 or 0.5% from the year ended December 31, 2016. The principal source of revenue for the Authority is tolls. During 2017, toll revenue totaled \$1,579,896 and constituted 93.0% of the Authority's operating revenues, as compared to \$1,570,662, or 93.0%, in 2016. On the Turnpike, passenger car traffic increased 1.9% while commercial vehicle traffic increased by 2.6% resulting in an overall increase of 2.0%. On the Parkway, passenger car toll transactions increased by 0.9% while commercial vehicle toll transactions increased by 1.9% resulting in an overall increase by 0.9%. The traffic increase on both roadways as compared to 2016 is due to milder weather conditions, favorable economic conditions, comparatively stable gas prices through most of the year in 2017 and the impacts of the widening programs on both roadways. Toll transactions and revenue increased despite the closure of Interchanges 6 and 6A on the New Jersey Turnpike from January 20, 2017 to March 9, 2017 due to the emergency closure of the Delaware River Turnpike Bridge, which connects the New Jersey Turnpike to the Pennsylvania Turnpike. This closure resulted in an estimated

toll revenue loss of \$8,800. Traffic and revenue also increased despite the fact that 2017 had one fewer day than 2016, as 2016 was a leap year, and despite the impacts of winter storm Stella in March 2017. The storm resulted in 742 fewer transactions and \$2,878 less revenue when compared to similar days in March in 2016.

Electronic toll collection remains popular and overall usage rates continue to be strong. On the Turnpike, the E-Z Pass usage rate for passenger cars was 83.2% and for commercial vehicles was 91.6%, resulting in an overall usage rate of 84.2% in 2017, an increase from 82.6% in 2016. On the Parkway, the overall E-Z Pass usage rate increased to 81.4% from 79.6% in 2016. During 2017, passenger cars had a usage rate of 81.3% and commercial vehicles had a usage rate of 90.0%.

E-ZPass fees totaled \$60,505 and \$61,053 for the years ended December 31, 2017 and 2016, respectively, representing a decrease of \$548 or 0.9%. E-ZPass fees consist of monthly membership fees, transponder sales, returned check fees, administrative fees, interest on prepaid accounts and monthly statement fees. The decrease primarily resulted from lower lost/damaged tag fees in 2017, as 2016 included amounts collected for transponders that were not returned as part of a prior tag swap program and to a lesser extent, lower administrative fees collected in 2017. These decreases were partially offset by an increase in the interest income earned on the prepaid accounts balances due to a general increase in short term interest rates in 2017.

Concession revenues consist of amounts paid to the Authority from the sale of food, fuel and convenience store items from the companies which operate the service areas on both roadways. Concession revenues were \$35,591 in 2017. This represents a decrease of \$2,601 or 6.8% from \$38,192 in 2016. The decrease is due to a decrease in revenue received by the Authority from the gross profit margin on diesel fuel sales as compared to 2016. The Authority receives 50% of the gross profit margin on all diesel fuel sold on the Turnpike. Fuel sales on the Turnpike decreased by 9.3% in 2017 as compared to 2016. Turnpike food sales decreased 1.1%, and the convenience store sales increased by 2.4%, compared to last year. The decrease in food and fuel sales was in part due to the closure of the Delaware River Turnpike Bridge for a significant portion of the first quarter. On the Parkway, fuel sales decreased 6.7% due to reduction in the gross profit margin on diesel fuel sales and convenience store sales increased 6.7% due to the receipt of back rent payment for the Ocean view Service area. Parkway food sales decreased 3.7%.

Miscellaneous revenue totaled \$22,601 for the year ended December 31, 2017, representing an increase of \$3,155, and 16.2% respectively, compared to \$19,446 for the year ended December 31, 2016. Miscellaneous revenue includes rentals of cell tower sites, fiber lease revenue, fiber optic lines, towing commissions, park and ride receipts and easements. The increase is primarily due to a significant surplus land sale of \$5,700 in 2017. Both 2016 and 2017 included different non-recurring insurance and litigation settlements.

Operating Expenses

General operating expenses, excluding depreciation, totaled \$584,880 for the year ended December 31, 2017, representing a decrease of \$30,589, or 5.0%, from \$615,469 for the year ended December 31, 2016. The lower operating expenses are primarily the result of a decrease in Toll collection costs by \$22,803 to \$160,381 from \$183,184, for the years ended December 31, 2017 and 2016, respectively. The main reasons for this decrease include the lower pricing for services provided at the New Jersey E-Z Pass Customer Service Center which became

effective on February 1, 2017, lower credit card fees, and savings in toll lane equipment maintenance costs as lane maintenance is now performed by in-house staff. Another reason for the decrease in the toll collection cost is reduction in the non-cash portion of the pension expense in 2017. Maintenance expenses increased by \$5,795 to \$261,301 for the year ended December 31, 2017 from \$255,506 for the year ended December 31, 2016 primarily due to an increase in spending on snow and severe weather. In 2017, the Authority spent a total of \$34,011 on snow and severe weather events, an increase of \$8,702 from 2016. Overall, the Authority managed to maintain the roadways and infrastructure facilities at a relatively stable cost despite the increase in the traffic on both the roadways. State police and traffic control costs decreased by \$2,291 to \$82,493 for the year ended December 31, 2017 from \$84,784 for the year ended December 31, 2016. The primary reason for this decrease is a downward adjustment to a prior year accrual for retroactive salary increases based upon the actual settlement of expired contracts and reduction in the non-cash portion of the pension expense in 2017. Without the adjustment to the accrual for retroactive salary increase, state police and traffic control costs would have increased by \$1,777 in 2017 due to higher State Trooper costs due to more troopers patrolling the roadways. Technology costs decreased by \$14,619 to \$26,794 for the year ended December 31, 2017 from \$41,413 for the year ended December 31, 2016. Technology costs decreased in 2017 primarily due to the allocation of toll collection equipment maintenance costs, including personnel and parts to the toll collection expense category, as these functions are now fully managed in house since February of 2017. Prior to this, the majority of the maintenance was handled by an outside contractor with the Authority having a small staff to support certain minor maintenance functions. Secondly, the Authority has undertaken fewer technology improvement projects classified as expense projects as compared to the previous year. Technology costs decreased also due to the reduction in the non-cash portion of the pension expense in 2017. General administrative expenses increased by \$3,329 to \$53,911 for the year ended December 31, 2017 from \$50,582 for the year ended December 31, 2016. The slight increase is in part due to higher claim settlements incurred under the deductible limit for various insurance claims. Finally, depreciation expense for the year ended December 31, 2017 totaled \$304,989 on the gross depreciable capital asset base of 13,216,919 as compared to \$301,120, for the year ended December 31, 2016 showing an increase of \$3,869 due to an increase in the gross depreciable capital asset base by \$384,840 during 2017.

Nonoperating Revenues (Expenses)

Net nonoperating expenses decreased by \$21,255 to \$491,490 for the year ended December 31, 2017 from \$512,745 for the year ended December 31, 2016 primarily due to the contractual reduction in the payments to the State of New Jersey under the new State Transportation Projects Funding Agreement (2016-2021) as compared to the prior agreement and the increase in investment income. The decrease in the payments to the State of New Jersey and the increase in investment income were partially offset by the increase in interest expense on the Turnpike Revenue Bonds in 2017 as compared to the interest expense in 2016, higher bond expenses and lower Federal and State reimbursements.

The Build America Bonds subsidy represents a direct payment by the United States Treasury to the Authority originally equal to 35% of the interest payable on the Series 2009F Bonds and the Series 2010A Bonds. The Build America Bonds subsidy in 2017 was \$76,153, an increase of \$82 from \$76,071 in 2016 due to a decline in the automatic Federal deficit reduction spending cuts. The subsidy payment received for the July 1, 2017 interest payment was reduced

by 6.9% and the subsidy payment received for January 1, 2018 interest payment was reduced by 6.6%, while in 2016 the comparable payments were reduced by 6.8% and 6.9%, respectively.

Payments to the State of New Jersey decreased by \$61,500 in 2017 to \$232,500 from \$294,000 in 2016. The payments to the State include an annual payment of \$22,000 in 2017 and 2016 to assist in transportation purposes. Under the terms of a State Transportation Projects Funding Agreement dated September 30, 2011 and a successor agreement dated June 28, 2016, the Authority made payments totaling \$204,000 in 2017 and 264,000 in 2016. The Authority also made annual payments to the State totaling \$6,500 in 2017 and \$8,000 in 2016 as per the Feeder Road Maintenance and Cost Sharing Agreement, dated July 1, 2016, for feeder road maintenance provided by the New Jersey Department of Transportation. Payments under all agreements are made from the General Reserve Fund and are subordinate to debt service payments on outstanding bonds and all other obligations under the Authority's General Bond Resolution (note 16).

Investment earnings were \$87,529 in 2017 as compared to \$12,217 in 2016. Interest income earned by the Authority on investments was \$17,732 in 2017, significantly increased from \$12,777 earned in 2016 primarily due to a general increase in short term interest rates. The adoption of GASB 53 in 2010 required the recognition of certain of the Authority's interest rate swaps as investments. Accordingly, the fixed payments made on these interest rate swaps, the variable payments received and the changes in fair market value were required to be reported as investment income (loss). In 2017 and 2016, the Authority was required to report the mark-to-market value of the interest rate swaps that hedge the Series 2000B-G bonds as investments. In 2017, the Authority recorded an investment loss of \$10,141 representing the fixed interest payments on the Series 2000B-G swaps, net of the variable payments received, compared to an investment loss of \$13,801 in 2016. In October 2017, the Authority amended the terms of its Series 2000B-G swaps as part of a refunding of the Series 2000B-G Bonds. The swaps are now considered effective under GASB 53 and no longer classified as an investment as of December 31, 2017. As such, the Authority recognized an investment gain of \$79,938, representing the reclassification of the negative mark to market value of the swap. During 2016, the Authority recorded an investment gain of \$13,238 representing the change in fair market value of the Series 2000B-G swaps. In addition, in 2017 and 2016, investment earnings were reduced \$5,277 and \$2,514, respectively representing interest income capitalized to capital assets.

Interest expense increased by \$102,721 in 2017 as compared to 2016, primarily due to the interest expense on the Series 2017A Bonds, which were issued in April 2017 and a reduction in the interest expense capitalized to the construction projects.

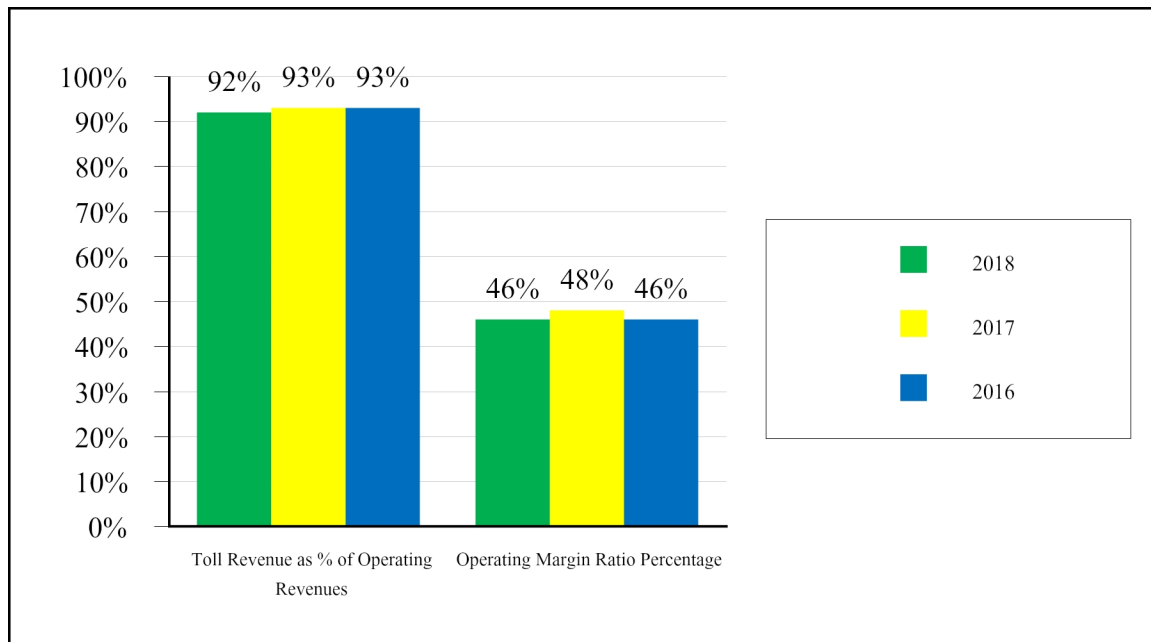

Adjusted Revenue, Expenses and Change in Net Position

	2018	2017	2016
Change in Net Position as per GAAP Financials	\$ 209,768	329,704	260,019
Unfunded non-cash adjustments:			
Total operating expenses	13,954	26,059	71,149
Interest expense, Turnpike Revenue Bonds	(10,635)	(136,270)	(235,676)
Investment income (loss)	—	(64,516)	3,078
Interfund transfers	8,301	(23,488)	211,694
Total Non-Cash Adjustment	<u>\$ 11,620</u>	<u>(198,215)</u>	<u>50,245</u>
Garden State Arts Foundation	<u>112</u>	<u>79</u>	<u>(61)</u>
Change in net position as per Bond Resolution	\$ 221,500	131,568	310,203
Add other non-cash expenses			
Depreciation	326,616	304,989	301,120
Amortization	(52,064)	(46,327)	(39,812)
Change in Net Position - Non-GAAP	<u>\$ 496,052</u>	<u>390,230</u>	<u>571,511</u>

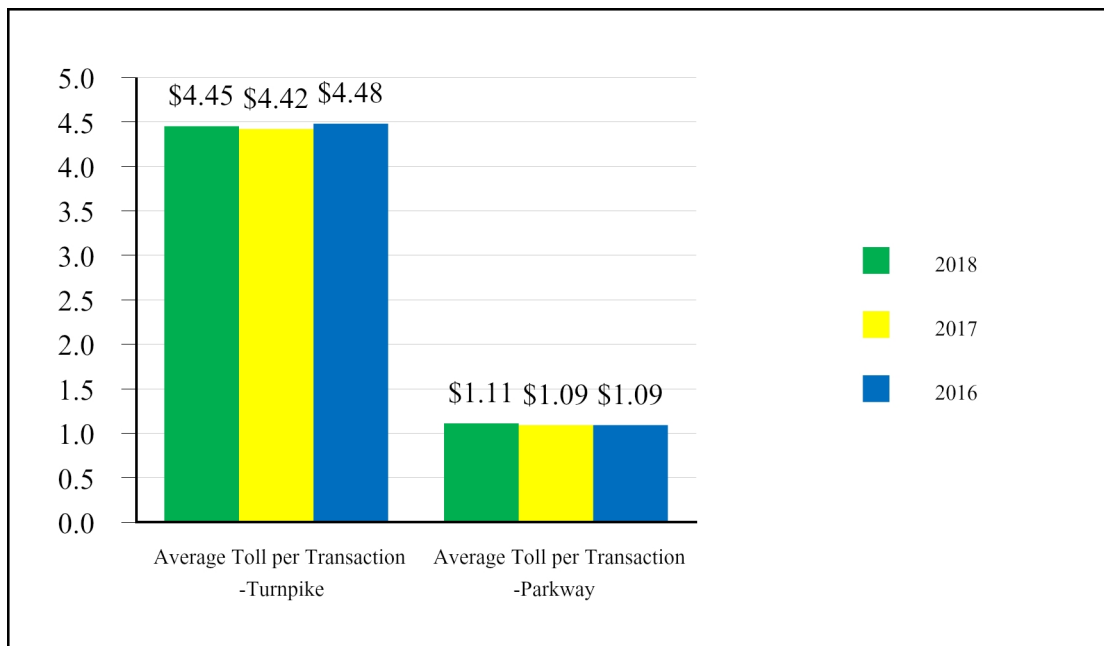

Shown above is the change in Net Position as per the Bond Resolution and has been calculated by adjusting the change in Net Position as per GAAP for non-cash expenses such as the non-cash portion of the GASB 49, GASB 53, GASB 68, and GASB 75. The Change in Net Position – Non-GAAP is calculated by adding back the non-cash expenses such as depreciation and amortization of discounts and premium to the Adjusted Change in Net Position – Bond Resolution. Management believes that the Adjusted Change in Net Position above, which eliminates the more significant GAAP basis non-cash line items, presents an alternate view of the strength of the Authority's financial results.

Revenue and Expense Ratio Analysis - GAAP Basis

Ratio	2018	2017	2016	Explanation
<i>Toll Revenue as % of Operating Revenue</i>	92%	93%	93%	Toll revenue as percentage of operating revenue is calculated by dividing toll revenue by operating revenue. This percentage remained relatively consistent over the years at an average of 93%, indicating that almost all of the Authority's revenue is earned from toll collection. The slight decrease in 2018, indicates that the revenue sources in 2018 are slightly more diversified than prior years.
<i>Operating Margin Ratio Percentage</i>	46%	48%	46%	The operating margin ratio percentage is calculated by dividing operating income by total operating revenue. This ratio has decreased to 46% in 2018 as compared to 48% in 2017. Conversely, the ratio in 2017 as compared to 2016 increased. This ratio has decreased in 2018 as operating expenses increased at a higher rate than the operating revenue.

Ratio	2018	2017	2016	Explanation
<i>Average Toll per Transaction - Turnpike</i>	4.45	4.42	4.48	Average toll per transaction is calculated by dividing toll revenue by the number of toll transactions. With no change in the toll rates, the slight increase in the average toll per transaction in 2018 is a result of commercial traffic increase on the Turnpike. Overall there is no significant change in the average toll per transaction from 2016 to 2018.
<i>Average Toll per Transaction - Parkway</i>	1.11	1.09	1.09	The average toll per transaction on the Parkway remained essentially unchanged over the three year period with a slight increase in 2018 from 2017. This increase is mostly the impact of the conversion of Interchange 145 to a one-way toll as the traffic decreased and revenue increased.

Toll Revenue Schedules

New Jersey Turnpike

Schedule of Toll Revenue

For the Twelve Months Ended December 31, 2018, 2017 and, 2016

(all amounts in thousands)

Class	Description	2018		2017		2016	
		Toll revenue	Number of vehicles	Toll revenue	Number of vehicles	Toll revenue	Number of vehicles
			(Unaudited)		(Unaudited)		(Unaudited)

Key Performance Metrics - Revenue and Expenses

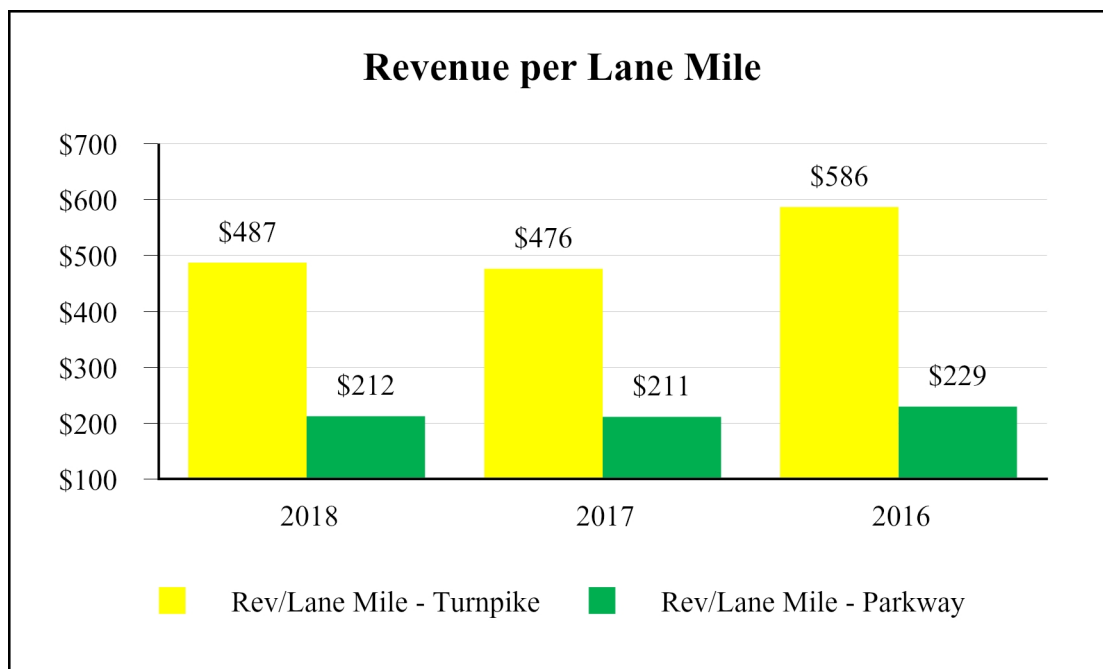

Toll Revenue – Toll revenue has increased consistently from 2016 to 2018. When comparing 2018 to 2017, there is an increase in toll revenue of 2.1% or \$32,430 for both the Turnpike and Parkway. The increase in the toll revenue is due to normal growth, favorable economic conditions, and strong commercial traffic. Toll revenue from 2017 to 2016 also increased for both the Turnpike and Parkway, for an overall increase of 0.6%. The slight increase in the toll revenue is due to milder weather conditions, favorable economic conditions, and comparatively stable gas prices through most of the year in 2017. Toll revenue increased in 2017 despite the Delaware River Turnpike Bridge closure for 48 days in the first quarter and the impact of winter storm Stella in March 2017.

	New Jersey Turnpike	Garden State Parkway	Total
2018	\$ 1,179,324	433,002	1,612,326
2017	\$ 1,151,738	428,158	1,579,896
2016	\$ 1,144,558	426,104	1,570,662
% change from 2017 to 2018	2.4%	1.1%	2.1%
% change from 2016 to 2017	0.6%	0.5%	0.6%

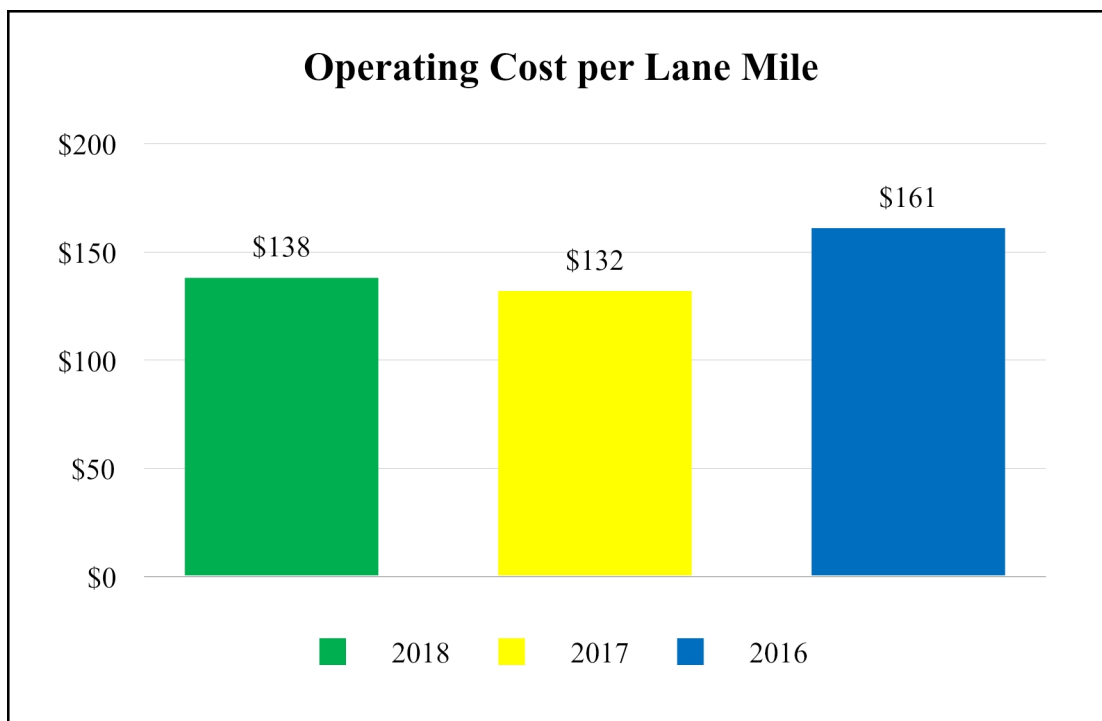

Revenue per Lane Mile – Revenue has increased each year (from 2017 to 2018 and from 2016 to 2017) on both the roadways. From 2017 to 2018, the increase is attributed to normal growth, favorable economic conditions, and strong commercial traffic. From 2016 to 2017, the increase in revenue is due to the milder weather conditions, favorable economic conditions, comparatively stable gas prices and the impacts of the widening programs on both roadways. The increase in revenue per lane mile between 2017 and 2018 is due to comparatively higher revenue and marginal increase in the lane miles in 2018. Despite the increase in the toll revenue from 2016 to 2017, revenue per lane mile decreased due to a significant increase in the lane miles in 2017 from the addition of shoulder lane miles on both the roadways.

	2018	2017	2016
Toll Revenue - Turnpike	\$ 1,179,324	1,151,738	1,144,558
Toll Revenue - Parkway	433,002	428,158	426,104
Total Toll Revenue	<u>\$ 1,612,326</u>	<u>1,579,896</u>	<u>1,570,662</u>
Lane Miles (actual) - Turnpike	2,423	2,418	1,953
Lane Miles (actual) - Parkway	2,041	2,028	1,861
Total Lane Miles (actual)	<u>4,464</u>	<u>4,446</u>	<u>3,814</u>
Revenue per Lane Mile - Turnpike	\$ 487	476	586
Revenue per Lane Mile - Parkway	\$ 212	211	229
Revenue per Lane Mile - Authority	\$ 361	355	412

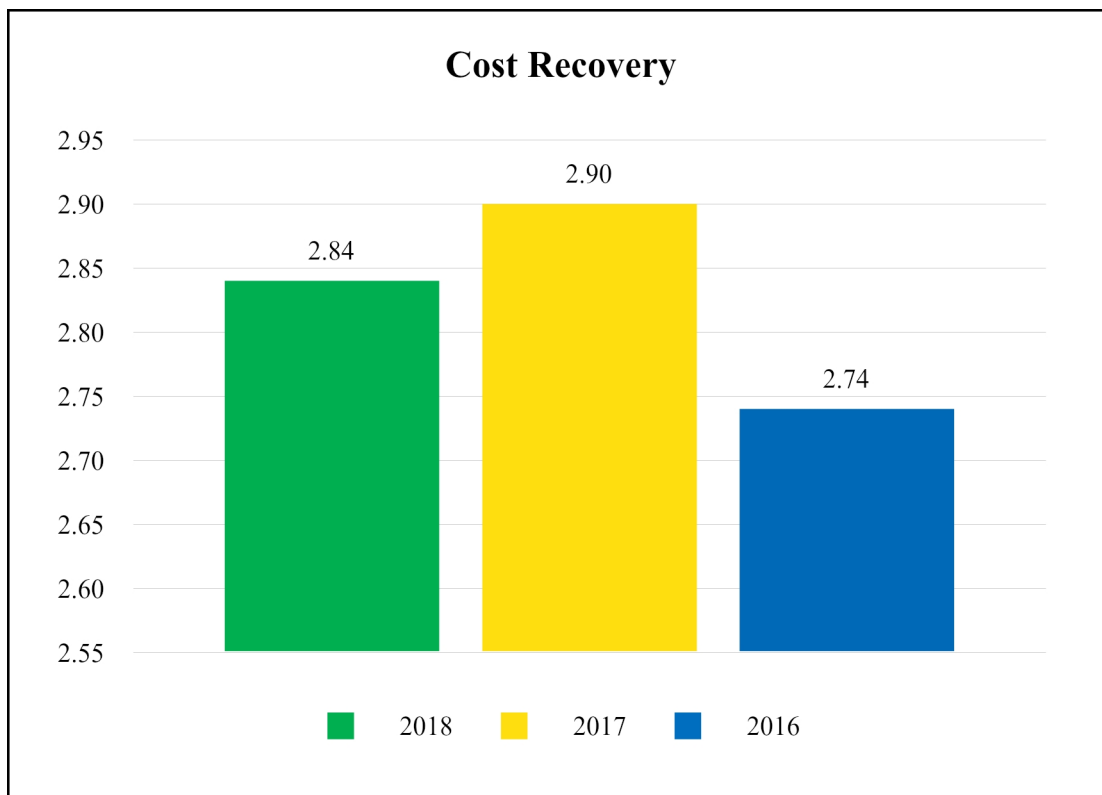

Operating Cost per Lane Mile – Operating expenses shown below include maintenance, toll collection, state police and traffic control, technology and general administrative expenses, but excludes depreciation. From 2017 to 2018, there was an increase in the operating cost per lane mile which can be attributed to the increase in total operating expenses in 2018 by \$31,302. From 2016 to 2017, there was a decrease in operating cost per lane mile which can be attributed to the decrease in total operating expenses in 2017 by \$30,589 and also due to the increase in lane miles in 2017 from the addition of shoulder lane miles on both the roadways. Despite the increase in 2018, the operating cost/lane mile has decreased in 2018 as compared to 2016.

	2018	2017	2016
Total operating expenses	\$ 616,182	584,880	615,469
Lane Miles (actual) - Turnpike	2,423	2,418	1,953
Lane Miles (actual) - Parkway	2,041	2,028	1,861
Total Lane Miles	4,464	4,446	3,814
Operating cost Excluding Depreciation/Lane Mile - Authority \$	138	132	161

Cost Recovery – The cost recovery ratio is calculated by dividing operating revenues by operating expenses. Therefore, a ratio 1.0 or above is a positive sign as it indicates operating expenses are being fully recouped by operating revenues. The cost recovery ratio was over 2.0 in each of the years 2016 – 2018, which is a strong indicator of the Authority's ability to meet its operating expenses with its operating revenues. From 2017 to 2018, the cost recovery ratios decreased due to an increase in operating expenses that is not proportional to the increase in operating revenue. From 2016 to 2017, the ratio increased due to marginally higher operating revenue and comparatively lower operating expenses. While the ratio declined in 2018 as compared to 2017, it remained constant when compared to 2016, despite increases in the absolute dollar value of operating expenses due to continued operating revenue growth which has outpaced operating expense growth.

	2018	2017	2016
Operating Revenue	\$ 1,753,003	1,698,593	1,689,353
Operating Expenses (excluding depreciation)	\$ 616,182	584,880	615,469
Cost Recovery	2.84	2.90	2.74

Financial Management Principles and Guidelines

In December 2012, the Authority adopted its “Financial Management Principles and Guidelines” (the Guidelines). Among the policies established, the Authority will manage its toll rates, expense budget and debt issuance program to achieve minimum senior debt service coverage of 1.40x and total requirement coverage of 1.20x. The Authority will also manage its cash flow and total expenditure levels such that it maintains average unrestricted cash balance in the General Reserve Fund equal to at least \$75,000. The Guidelines were amended in November 2015 to increase the minimum unrestricted cash balance in the General Reserve Fund to \$100,000. In January 2017, the Authority once again amended its Guidelines with respect to the minimum General Reserve Fund Balance requirement. The amended Guidelines increase the unrestricted cash balance in the General Reserve fund as follows:

- (1) a minimum balance of \$125,000 at 12/31/17;
- (2) a minimum balance of \$150,000 at 12/31/18;
- (3) a minimum balance of \$175,000 at 12/31/19;
- (4) beginning in 2020, by December 31st of each year, a minimum balance equal to 10% of that year's budgeted total annual revenue.

The Guidelines are implemented at the discretion of the Authority and are not a legal covenant with bondholders. Such Guidelines can be changed or eliminated at any time at the discretion of the Authority. As specified in the Guidelines, the Authority also adopted an Interest Rate Swap Management Plan in April 2013 which was amended in November 2015, an Investment Policy in September 2013, and a Debt Management Policy in January 2014. These documents may be found on the Authority's website at <http://www.njta.com/investor-relations/about-investor-relations>.

Debt Administration

The issuance of new bonds is conducted in accordance with the New Jersey Turnpike Act of 1948, constituting Chapter 454 of the Laws of New Jersey of 1948, as amended and supplemented and the Turnpike Revenue Bond Resolution adopted on August 20, 1991, as amended, restated and supplemented. The issuance of new bonds requires the approval of the Board of Commissioners and prior approval in writing from the Governor and from either or both the State Treasurer and the Director of the Division of Budget and Accounting of the Department of Treasury, payable solely from tolls and other revenues of the Authority. Detailed information on the Bonds activity during 2018 and 2017 can be found in note 6.

Bonds payable are shown below:

Series	2018	2017	2016
Series 2000 (B-G)	\$ —	—	400,000
Series 2004 (C2)	132,850	132,850	132,850

Premium and discount, net	567,258	627,624	444,966
Total outstanding bonds	\$ 11,331,888	11,610,729	11,071,121

2018 – 2017

During 2018, the Authority did not issue or refund any Turnpike Revenue Bonds. As of December 31, 2018, Moody's Investors Services, Inc., S&P Global Ratings and Fitch Ratings have the ratings A2, A+ and A, respectively, to the Authority's outstanding bonds.

2017 – 2016

On April 11, 2017, the Authority issued \$600,000 of Series 2017A Turnpike Revenue Bonds. The purpose of the Series 2017A Bonds was to (i) continue to fund projects under the \$7 Billion CIP, (ii) make a deposit to the Debt Reserve Fund and (iii) pay the costs of issuance of the Series 2017A Bonds.

On August 3, 2017, the Authority issued \$646,765 of the Series 2017B Turnpike Revenue Bonds to fully refund and, defease the Series 2009E Bonds, and to partially refund and defease the Series 2009H Bonds, the Series 2009I Bonds and the Series 2013A Bonds.

On October 26, 2017, the Authority issued \$579,375 of Series 2017C1-6 and Series 2017D1-4 Turnpike Revenue Bonds. The Series 2017C1-6 Bonds were issued to fully refund the Series 2000B-G Bonds. The Series 2017D1-4 Bonds were issued to fully refund the Series 2013D-3 Bonds, the Series 2013E-3 Bonds and the Series 2014B-3 Bonds in order to meet the mandatory tender date on the refunded bonds to avoid interest rate escalations. At the same time the Authority entered into an amendment on its existing Series 2000B-G Interest Rate Swap agreement and re-identified it to the Series 2017C1-6 Bonds.

On December 14, 2017, the Authority issued \$527,525 of Series 2017E and Series 2017F Turnpike Revenue Bonds to fully refund and defease the Series 2009I Bonds and to partially refund and defease the Series 2009H Bonds, the Series 2012A Bonds and the Series 2013A Bonds.

On December 21, 2017, the Authority issued \$726,640 of Series 2017G Turnpike Revenue Bonds to partially refund and defease the Series 2012A Bonds and the Series 2013A Bonds.

Moody's Investors Services, Inc., S&P Global Ratings and Fitch Ratings assigned the ratings A2, A+ and A, respectively, to each of the Series 2017 Turnpike Revenue Bonds.

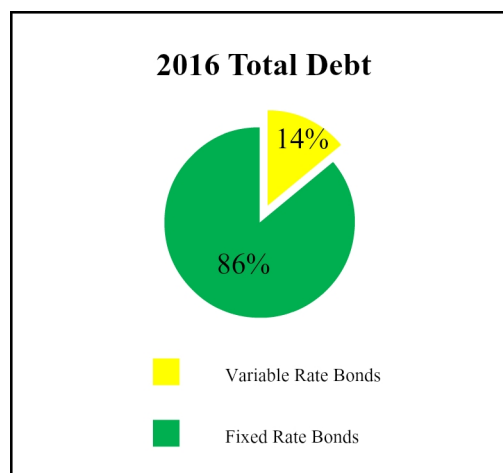

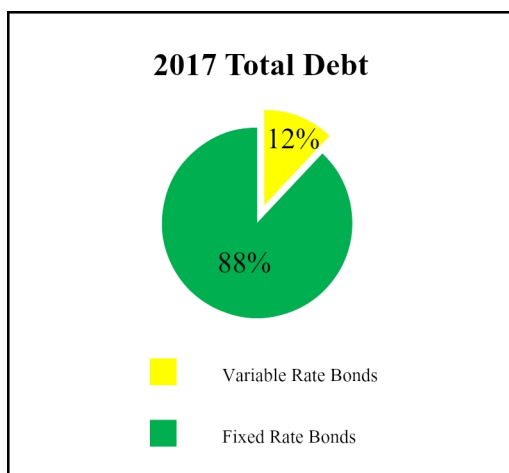

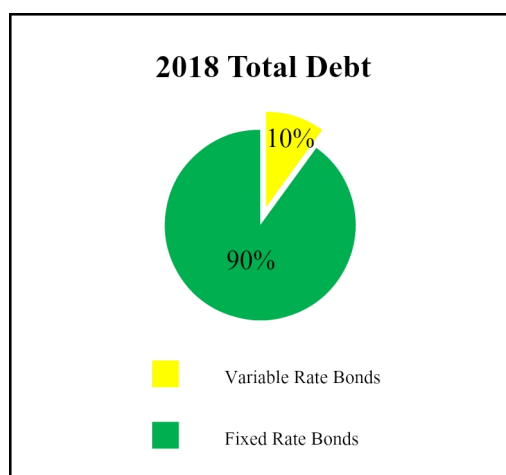

Build America Bond Subsidy Payments

The Authority's Series 2009F and Series 2010A Turnpike Revenue Bonds were issued as Build America Bonds (BAB). The BAB program was authorized by the American Recovery and Reinvestment act enacted in February 2009 to encourage local spending on new construction. Under the program, the U.S. Treasury makes a direct payment to the Authority originally equal to 35% of the interest expense for eligible bonds.

The Budget Control Act of 2011 reduced the amount of the subsidy paid by the Federal Government through automatic federal spending cuts commonly known as sequestration. The payment to the Authority received in June 2016 (for July 1, 2016 interest payment) was reduced by 6.8%, or \$2,777. The payment received in December 2016 (for January 1, 2017) was reduced by \$2,817 or 6.9%, the payment received in April 2017 (for July 1, 2017) was reduced by \$2,817 or 6.9%, the payment received in December 2017 (for January 1, 2018) was reduced by \$2,695 or 6.6%, the payment received in May 2018 (for July 1, 2018) was reduced by \$2,695 or 6.6%, and the payment received in November and December 2018 (for January 1, 2019) was reduced by \$2,532 or 6.2%. The Internal Revenue Service has reported that the Authority's payment due on July 1, 2019 will also have a 6.2% reduction. There is uncertainty as to whether or not the Federal Government will make further cuts to the program.

Debt Portfolio

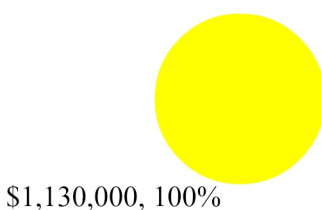

The Authority's bond portfolio at December 31, 2018 had a par value outstanding of \$10,764,630 as compared to \$10,983,105 at December 31, 2017 and \$10,626,155 at December 31, 2016. The par value of bonds outstanding decreased in 2018 as compared to 2017 primarily due the maturity of the Series 2009G Bonds, the Series 2013B Bonds, and the Series 2013C Bonds as well as the lack of issuance of any new bonds in 2018. The percentage of fixed rate versus variable rate bonds has declined since 2015, as the Authority has solely issued fixed rate debt to finance the \$7 Billion CIP to avoid the risks associated with variable rate debt. As of December 31, 2018, total debt includes 90% of fixed rate bonds and only 10% of variable rate bonds, as compared to 88% of fixed rate bonds and 12% of variable rate bonds as of December 31, 2017 and 86% of fixed rate bonds and 14% of variable rate bonds as of December 31, 2016. These percentages are within the Authority's Guidelines, which limit variable rate bonds to 20% of total bonds outstanding.

The Authority has been actively reducing the basis risk on its interest rate swap portfolio when possible over the past several years. Basis risk includes those variable rate bonds which have an interest rate index (either SIFMA or LIBOR) used to determine interest payments on the bonds which is different from the interest rate index (either SIFMA or LIBOR) used to calculate the variable payment received on the associated interest rate swap. At December 31, 2018 and December 31, 2017, the Authority is and was not exposed to basis risk, as the Authority amended all interest rate swaps that had basis risk to receive a variable rate based on the same rate or index as the hedged variable rate debt. At December 31, 2016, the percentage of variable rate bonds bearing basis risk was reduced to 35% from 44% at December 31, 2015.

■ Total bearing basis risk ■ Total without basis risk

Debt Service Coverage

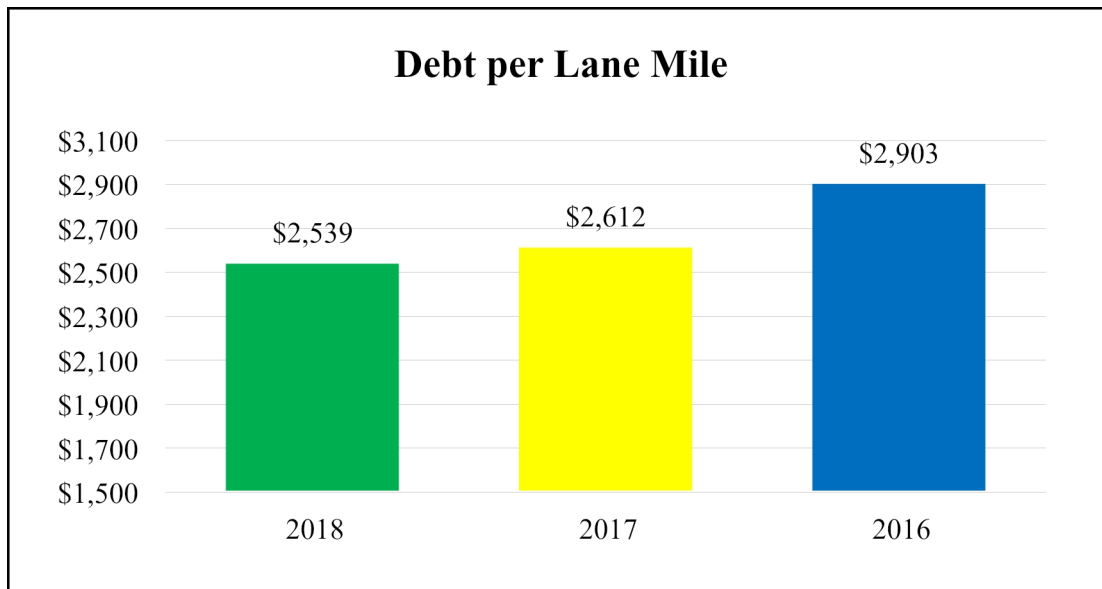

The Revenue Requirement under Section 713(b) of the Turnpike Revenue Bond Resolution states that in each calendar year, Net Revenues shall at least equal the Net Revenue Requirement for such year. The Net Revenue Requirement means with respect to any period of time, "an amount equal to the greater of (i) the sum of Aggregate Debt Service, Maintenance Reserve Payments, Special Project Reserve Payments and payments, if any, to the Charges Fund for such period or (ii) 1.20 times the Aggregate Debt Service for such period."

	2018	2017	2016
(i)			
Net revenue available for debt service	\$ 1,322,019	1,290,374	1,294,591
Less net revenue requirements (the sum of aggregate debt service, maintenance reserve, special project reserve and charges funds payments)	(948,054)	(979,546)	(901,460)
Excess net revenues	<u>\$ 373,965</u>	<u>310,828</u>	<u>393,131</u>
(ii)			
Net revenue available for debt service	\$ 1,322,019	1,290,374	1,294,591
Less net revenue requirements computed under test (120% of aggregate debt service requirements)	(946,174)	(987,581)	(927,694)
Excess net revenues	<u>\$ 375,845</u>	<u>302,793</u>	<u>366,897</u>
Net revenue available for debt service	\$ 1,322,019	1,290,374	1,294,591
Debt service requirements	\$ 788,478	822,984	773,078
Debt service coverage ratio	1.68	1.57	1.67

Debt per Lane Mile – Debt per lane mile decreased by \$73 to \$2,539 in 2018 from \$2,612 in 2017 due to the decrease in bonds outstanding which arose primarily from the scheduled principal payments in January 2018 of the Series 2009G Bonds, the Series 2013B Bonds and, the Series 2013C Bonds. In addition, the Authority did not issue any new bonds in 2018. The debt per lane mile decreased in 2017 to \$2,612 from \$2,903 in 2016 in spite of an increase in bonds outstanding due to a significant increase in the lane miles on both the roadways in 2017, from the inclusion of shoulder lane miles in the total lane miles calculation.

	2018	2017	2016
Bond indebtedness, net	\$ 11,331,888	11,610,729	11,071,121
Lane Miles (actual) – Turnpike	2,423	2,418	1,953
Lane Miles (actual) – Parkway	2,041	2,028	1,861
Total Lane Miles (actual)	4,464	4,446	3,814
Debt per Lane Mile – Authority	\$ 2,539	2,612	2,903

Net revenue available for debt service has increased in 2018 by 2.5%, or \$31,645 to \$1,322,019 from \$1,290,374 in 2017. The primary reason for this increase is higher operating revenue. Operating revenue increased in 2018 due to increase in toll revenue and and E-ZPass fees. This increase is offset by an increase in operating expenses from higher maintenance costs and state police costs. Net revenue available for debt service slightly decreased in 2017 by \$4,217 mainly due to an increase in operating expenses in 2017 primarily related to an increased spending on snow and severe weather events. The increase in operating expenses in 2017 was partially offset by the decrease in toll collection expense and increase in total revenues resulting in a marginal decrease in the net revenue available for debt service.

Contacting Authority's Financial Management

The purpose of this narrative and the attached exhibits was to assist the readers in obtaining a general overview of the Authority's business and finances. If you should have any questions about this report or need clarification on its contents, please contact the Chief Financial Officer of the New Jersey Turnpike Authority, P.O. Box 5042, Woodbridge, New Jersey 07095-5042 or via email at info@turnpike.state.nj.us.

See accompanying notes to basic financial statements.

(1) Organization

The New Jersey Turnpike Authority (the Authority) is a body corporate and politic organized and existing by virtue of the New Jersey Turnpike Authority Act of 1948, constituting Chapter 454 of the Laws of New Jersey of 1948, as amended and supplemented (the Act). The Authority is a public instrumentality exercising essential governmental functions. The Act authorizes the Authority to construct, maintain, repair, and operate transportation projects at locations established by law or by the Authority. Pursuant to the Act, the Authority has owned and operated the New Jersey Turnpike (the Turnpike) since the time the Turnpike opened for traffic in 1951. On May 27, 2003, the Act was amended. The amendment empowered the Authority, effective at the Transfer Date, which was July 9, 2003, to assume all powers, rights, obligations and duties of the New Jersey Highway Authority (the Highway Authority), which owned and operated the Garden State Parkway (the Parkway) and the PNC Bank Arts Center. As a result, the assets and liabilities of the Authority and the Highway Authority are now combined under the ownership and operation of the Authority and the Turnpike and Parkway now constitute the Turnpike System.

The Act also authorizes the Authority to fix and establish tolls for the use of the Turnpike System, and to issue Turnpike revenue bonds or notes of the Authority, subject to prior approval in writing from the Governor and from either or both the State Treasurer and the Director of the Division of Budget and Accounting of the Department of the Treasury, payable solely from tolls and other revenues of the Authority. Under the provisions of the Act, the Turnpike bonds or notes and the interest thereon shall not be deemed to constitute a debt or liability or a pledge of the faith and credit of the State or any political subdivision thereof.

The Authority has no stockholders or equity holders and all bond proceeds, revenues or other cash received must be applied for specific purposes in accordance with the provisions of the above Act and the Turnpike Revenue Bond Resolution of 1991 as amended, restated and supplemented (the Bond Resolution) for security of the bondholders. The Authority's Board of Commissioners is comprised of eight members as follows: the Commissioner of the New Jersey Department of Transportation, ex officio, or the Commissioner's designee; five members appointed by the Governor with the advice and consent of the Senate, and two members appointed by the Governor, one upon the recommendation of the President of the Senate and one upon the recommendation of the Speaker of the General Assembly. The Governor designates the chairman and vice chairman, who serve in these positions at the pleasure of the Governor and until their successors have been designated. As of December 31, 2018 and 2017, one seat was vacant.

Five members constitute a quorum and the vote of five members is necessary for any action taken by the Authority. The Act provides that the Governor shall have the right to veto any action of the Authority; however the Act prohibits the Governor or legislature from taking any actions that would impair the rights of Authority bondholders.

(2) Summary of Significant Accounting Policies

(a) Reporting Entity

The Governmental Accounting Standards Board (GASB) establishes the criteria used in determining which organizations should be included in these financial statements. The GASB's Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, requires the inclusion of government organizations for which the Authority is financially accountable. Financial accountability is defined as: 1) appointment of a voting majority of the component unit's board and either (a) the ability to impose will by the primary government or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or 2) fiscal dependency on the primary government.

The Garden State Arts Foundation, Inc. (the Foundation) (see note 14) is included in the financial statements presented in accordance with accounting principles generally accepted in the United States of America as a blended component unit. Although legally separate from the Authority, the Foundation's members include the Commissioners of the Authority, who represent a voting majority of the Foundation's members. The Authority can impose its will upon the Foundation by virtue of the fact that the entirety of the Foundation's Board is comprised solely of Authority Board members.

Additionally, the Authority is a component unit of the State of New Jersey, and its financial statements are included in the State of New Jersey's Comprehensive Annual Financial Report as a discrete component unit.

(b) Basis of Accounting

The Authority's activities are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets, liabilities, net position, revenues and expenses are accounted for as an enterprise fund with revenues recorded when earned and expenses recorded at the time liabilities are incurred.

The Authority follows accounting principles generally accepted in the United States of America as prescribed by GASB.

(c) Capital Assets

Capitalization Policy

The cost to construct, acquire or replace an existing asset (or otherwise prolong the useful life of an existing asset) is capitalized under the Authority's capitalization policy. The capitalization threshold is \$50 and includes equipment valued over \$50 or any purchase related to a capital project whose project value exceeds \$50.

Capital assets are reported at cost, including all ancillary charges necessary to place the assets in their intended location and condition for use. If land is purchased, the capitalized amount includes the purchase price plus costs such as legal fees, filling, and excavation costs incurred to put the land in condition for its intended use. The capitalized amounts for building include both acquisition and capital improvement costs and net construction period interest.

An asset is deemed substantially complete when the structure or project is ready for the purpose for which it was constructed.

Depreciation Policy

In 2016, the Authority performed a study of the useful lives and revised the useful lives of certain asset categories on a prospective basis. In 2018, the Building Improvements asset subclass was added to the depreciation policy. This class represents assets that are integral to building use but, have an estimated useful life less than the building structure. Capital assets are depreciated using straight-line method over their estimated useful lives as follows:

Roadways:

Road Bed	100 yrs
Road Surface	10 yrs
Sound Barriers	35 yrs
Retaining Walls	75 yrs
Concrete Surfaces and Barrier Curb	40 yrs

Bridges:

Piers and Abutments	75 yrs
Deck	40-50 yrs
Spans	40-50 yrs
Major Bridge Repairs	20 yrs

Buildings:

Buildings	35-50 yrs
Buildings Improvements	20 yrs

Equipment	3-50 yrs
-----------	----------

(d) Investments

Investments are reported at fair value based on quoted market prices or other fair value measurement methods allowed by GASB Statement No. 72, *Fair Value Measurements and Application* (GASB 72). All investment income, including changes in the fair value of investments, is reported as non-operating revenue.

Investment Objectives

All investment decisions will meet the following requirements:

1. Safeguard and preserve the principal amount of invested funds.
2. Manage and maintain adequate liquidity to meet cash flow requirements, including bond payments.
3. Maintain demand bank balances at minimum levels consistent with sound operations.
4. Maximize the total rate of return on invested funds.

Authorized Investments - Investment Policy

The investment policies of the Authority are established in conformity with the Investment Policy adopted by the Board of Commissioners on September 24, 2013, which defines investment securities to mean any of the following securities legal for investment of the Authority's funds at the time of the purchase thereof:

- (a) Federal securities, which are (i) any direct and general obligations of, or any obligations guaranteed by, the United States of America, including but not limited to interest obligations of the Resolution Funding Corporation or any successor thereto, (ii) any obligations of any state or political subdivision of a state which bonds are fully secured as to principal and interest by an irrevocable pledge of moneys or direct and general obligations of, or obligations guaranteed by the United States of America, which moneys or obligations are segregated in trust and pledged for the benefit of the holders of the bonds, (iii) certificates of ownership of the principal or interest of direct and general obligations of, or obligations guaranteed by, the United States of America, which obligations are held in trust by a commercial bank which is a member of the Federal Reserve System,
- (b) Bonds, debentures, notes or other evidences of indebtedness issued by any agency or instrumentality of the United States to the extent such obligations are guaranteed by the United States or by another such agency the obligations (including guarantees) of which are guaranteed by the United States,
- (c) Bonds, debentures, notes or other evidences of indebtedness issued by any of the following agencies:
 - Government National Mortgage Association (GNMA)
 - Federal Home Loan Mortgage Corporation (FHLMC)
 - Federal National Mortgage Association (FNMA)
 - Federal Home Loan Banks (FHLB)
 - Federal Land Banks
 - Federal Intermediate Credit Banks
 - Banks for Cooperatives
 - Tennessee Valley Authority
 - United States Postal Service
 - Farmers Home Administration
 - Export-Import Bank
 - Federal Financing Bank
 - Student Loan Marketing Association (SLMA);
- (d) Negotiable or non-negotiable certificates of deposit issued by any bank, trust company or national banking association, which certificates of deposit shall be continuously secured or collateralized by obligations described in subparagraphs (a), (b), and (c) above, which shall have a market value (exclusive of accrued interest) at all times at least equal to the principal amount of such certificates of deposit and shall be lodged with the Trustee, as custodian, by the bank, trust company or national banking association issuing such certificates of deposit.

- (e) Uncollateralized negotiable or non-negotiable certificates of deposit issued by any bank, trust company or national banking association, the unsecured obligations of which are rated in one of the two highest rating categories, without regard to rating sub-categories, by Moody's Investors Service (Moody's) and Standard & Poor's (S&P).
- (f) Repurchase agreements collateralized by obligations described in subparagraphs (a), (b), and (c) above with any registered broker/dealer subject to the Securities Investors Protection Corporation jurisdiction, which has an uninsured, unsecured and unguaranteed obligation rated "Prime-1" or "A3" or better by Moody's and "A-1" or "A" or better by S&P, or any commercial bank with the above ratings provided:
 - (i) a master repurchase agreement or specific written repurchase agreement governs the transaction, which characterizes the transaction as a purchase and sale of securities.
 - (ii) the securities are held free and clear of any lien, by the Trustee or an independent third party acting solely as agent for the Trustee, and such third party is (i) a Federal Reserve Bank, (ii) a bank which is a member of the Federal Deposit Insurance Corporation and which has combined capital, surplus, and undivided profits of not less than \$75,000, or (iii) a bank approved in writing for such purpose by each Credit Issuer, if any, and the Trustee shall have received written confirmation from such third party that it holds such securities, free and clear of any lien, as agent for the Trustee,
 - (iii) a perfected first security interest under the Uniform Commercial Code, or book entry procedures prescribed at 31 CFR 306.1 et seq. or 31 CFR 350.0 et seq. or a successor provision in such securities is created for the benefit of the Trustee,
 - (iv) the repurchase agreement has a term of six month or less, or the Authority will value the collateral securities no less frequently than monthly and will liquidate the collateral securities if any deficiency in the required collateral percentage is not restored within two business days of such valuation,
 - (v) the repurchase agreement matures on or before a debt service payment date (or other appropriate liquidation period), and
 - (vi) the fair market value of the securities in relation to the amount of the repurchase obligation is equal to at least 100%.
- (g) Banker's acceptances, Eurodollar deposits and certificates of deposit (in addition to the certificates of deposit provided for by subparagraphs (d) and (e) above) of the domestic branches of foreign banks having a capital and surplus of \$1,000,000, or more, or any bank or trust company organized under the laws of the United States of America or Canada, or any state or province thereof, having capital and surplus, in the amount of \$1,000,000; provided that the aggregate maturity value of all such banker's acceptances and certificates of deposit held at any time as investment of funds under the Bond Resolution with respect to any particular bank, trust company or national association shall not exceed 5% of its capital and surplus; and provided further that any such bank, trust company, or national association shall be rated in

one of the two highest rating categories, without regard to rating sub-categories, by both Moody's and S&P.

- (h) Other obligations of the United States of America or any agency thereof which may then be purchased with funds belonging to the State of New Jersey or which are legal investments for savings banks in the State of New Jersey.
- (i) Deposits in the New Jersey Cash Management Fund.
- (j) Obligations of any state, commonwealth or possession of the United States or a political subdivision thereof or any agency or instrumentality of such a state, commonwealth, possession or political subdivision, provided that at the time of their purchase such obligations are rated in either of the two highest rating categories by both Moody's and S&P.
- (k) Commercial paper with a maturity date not in excess of 270 days rated A1+ and P-1 by Moody's at the time of such investment, issued by an entity incorporated under the laws of the United States or any state thereof.

(e) *Accounts Receivable*

Accounts receivable consist primarily of toll revenue due from commercial companies and other agencies, Federal Emergency Management Agency (FEMA) disaster assistance, charges and amounts due from individuals, and revenues receivable from operators of food and fuel concessions at the service plazas. Toll revenue accounts receivable from E-Z Pass postpaid commercial accounts are collateralized by either a surety bond or cash. Toll revenue accounts receivable from other E-Z Pass agencies are guaranteed under an E-Z Pass Group Agency Agreement (formerly known as Interagency Group Reciprocity Agreement). A reserve for uncollectible accounts receivable is established based on specific identification and historical experience.

Accounts receivable and allowance for doubtful accounts consist of the following as of December 31, 2018 and 2017:

	December 31	
	2018	2017
E-ZPass Group Agencies	\$ 35,672	35,411
FEMA	142	9,051
New Jersey E-Zpass Agencies	781	554
Other Government Receivables	77	—
Total Government Receivables	<u>\$ 36,672</u>	<u>45,016</u>
NJ E-Zpass Customers (1)	\$ 5,893	5,622
Postpaid E-Zpass Customers (2)	8,758	13,653
Property Damage Claims	1,378	1,515
Accounts Receivable - Other	11,122	4,661
Allowance for Doubtful Accounts	(2,067)	(2,607)
Total Non-Governmental Receivables, Net	<u>25,084</u>	<u>22,844</u>
Total Accounts Receivables, Net	<u>\$ 61,756</u>	<u>67,860</u>

- (1) New Jersey E-ZPass customer accounts receivable are collateralized by cash deposits totaling \$1,780 at December 31, 2018 and \$901 at December 31, 2017.
- (2) Postpaid E-ZPass customer accounts receivable are collateralized by cash and/or surety bonds totaling \$30,603 at December 31, 2018 and \$22,229 at December 31, 2017.

(f) Supplies Inventory

Inventories are reported on an average cost basis. Inventories consist of rock salt/calcium chloride, operating supplies (materials to maintain the roadway and vehicles), E-Z Pass transponders, and fuel (gas and diesel).

Inventory consists of the following as of December 31, 2018 and 2017:

	December 31	
	2018	2017
Rock Salt - Calcium Chloride	\$ 12,307	9,187
Operating Supplies	7,157	6,945
E-ZPass Transponders	7,164	6,353
Fuel	772	590
	<u>\$ 27,400</u>	<u>23,075</u>

(g) Deposits

Deposits consist mainly of collateral deposits for owner controlled insurance programs for general liability and workers compensation claims related to the Authority's \$7 Billion Capital Improvement Program, deposits for various land acquisitions under eminent domain, and deposits for the Authority's self-funded health insurance.

(h) Net Capitalized Interest

Net interest costs on funds borrowed to finance the construction or acquisition of certain capital assets, during the period of construction or acquisition, are capitalized and depreciated over the life of the related assets placed in service. The Authority capitalized net interest expense of \$113,512 during the year ended December 31, 2017. The Authority elected to early adopt GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*, effective January 1, 2018 which discontinues capitalization of interest expense. Accordingly, no interest expense was capitalized during 2018.

(i) Bonds Payable

Bonds payable consist of the total amount of outstanding bonds plus unamortized premiums and less unamortized discounts.

(j) Compensated Absences

The Authority accrues employees' unused sick leave and vacation time to be used at a later date or paid in cash upon termination or retirement from the Authority. The liability for sick leave is based on application dates and limits vary based upon the employee's specific contract and effective dates. The liability for unused vacation is calculated based on years of service, and the terms of the relevant labor agreement. The liability for both amounts is calculated based on the pay and salary rates in effect at the statement of net position date and was fully funded as of December 31, 2018 and 2017.

(k) Funds Held in Trust

Included in the December 31, 2018 and 2017 statements of net position is \$23,035 and \$26,139, respectively, for amounts retained from contractors and engineers and approximately \$209,000 and \$203,800, respectively, received primarily from New Jersey E-Z Pass customers for E-Z Pass tag deposits and toll prepayments.

(l) Unearned Revenue

The Authority recognizes revenue when earned. Amounts received in advance of the periods in which related services are rendered are recorded as a liability. Unearned revenue includes advance payments from the Pennsylvania Turnpike Commission for its share of maintenance work on a jointly owned facility, prepayment of rent by customers for the use of the Authority's fiber optic lines and communication towers, and advance rent paid by Live Nation Worldwide, Inc. as per the agreement dated December 7, 2017 (see further discussion in note 17).

(m) *Deferred Outflows and Deferred Inflows of Resources*

Deferred outflows include deferred amount on refunding and derivative instruments, deferred amount relating to pensions and deferred amount relating to other postemployment benefit (OPEB). Deferred outflows of resources are a consumption of net position that is applicable to a future reporting period.

Deferred inflows include change in fair value of hedging derivatives, deferred amount relating to pensions and deferred amount relating to other postemployment benefit (OPEB). Deferred inflows of resources are an increase in net position that is applicable to a future reporting period.

Accumulated decrease in fair value of hedging derivatives is resulting from the change due to deferred gain or loss and amortization of deferred gain or loss on interest rate swaps. Deferred amount on refunding is resulting from a loss in refinancing of debts due to a difference between the reacquisition price and the net carrying amount of the old debt and is amortized over the life of the related debt. Deferred outflows and deferred inflows of resources relating to pensions are reported for differences between expected or projected results compared to actual results related to the Authority's proportionate share in the cost sharing pension plan as well as changes in the Authority's proportion of the plan from the prior period. Deferred outflows also include the portion of employer contributions subsequent to the measurement date. Deferred outflows and deferred inflows of resources related to OPEB are the result of differences between the actual and expected experience and the changes of assumptions which are not reflected in the current year's OPEB expense. Deferred outflows relating to OPEB also include the payments of the retiree health benefits payments subsequent to the measurement date of the liability.

(n) *Net Position*

Net position is displayed in three components as follows:

Net investment in capital assets - This consists of capital assets, net of accumulated depreciation, less the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted under trust agreements - This consists of net position that is legally restricted by outside parties or by law through constitutional provisions or enabling legislation. When both restricted and unrestricted resources are available for use, generally it is the Authority's policy to use restricted resources first, and then unrestricted resources when they are needed.

Unrestricted - This consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

(o) *Toll Revenue*

Revenues from tolls are recognized in the period earned except for tolls collected through the violation enforcement process which are recognized when received. Pursuant to the provisions of the Bond Resolution, the Authority has covenanted to charge and collect such tolls as are required in order that in each calendar year net revenue shall at least

equal the net revenue requirement under the aforementioned resolution. The Act authorizes the Authority to set tolls subject to prior approval in writing from the Governor and from either or both the State Treasurer and the Director of Budget and Accounting of the Department of the Treasury. The Act further provides that the powers conferred upon the Governor and the Treasurer of the State described shall be exercised with due regard for the rights of the holders of bonds of the Authority at any time outstanding, and nothing in, or done pursuant to, the Act shall in any way limit, restrict or alter the obligation or powers of the Authority or officer of the Authority to carry out and perform in every detail each and every covenant, agreement or contract at any time made or entered into by or on behalf of the Authority with respect to its bonds or for the benefit, protection or security of the holders thereof.

(p) *E-Z Pass Fees*

E-Z Pass fees consist of the Authority's share of fees and charges generated from the operation of the New Jersey E-Z Pass Customer Service Center. This Customer Service Center is currently operated on behalf of the New Jersey Turnpike Authority, South Jersey Transportation Authority, Delaware River Port Authority, Delaware River Bay Authority, the Burlington County Bridge Commission and the Delaware River Joint Toll Bridge Commission by Conduent Inc., (formerly known as Xerox State and Local Solutions, Inc.). The fees and charges consist primarily of the monthly membership fee charged to New Jersey E-Z Pass account holders and the administrative fee collected from toll evaders. In addition, other fees are charged to E-Z Pass account holders for such items as monthly statement delivery, transponders sales, lost and stolen transponders and returned checks. Revenue is also generated from allowing certain parking lots to accept E-Z Pass as payment and interest on prepaid and tag deposit account balances. For financial reporting purposes, fees and charges are recognized when earned for all but administrative fees which are recognized when received from the patrons.

(q) *Classification of Revenues over Expenses*

The Authority has classified its revenues and expenses as either operating or non-operating.

Operating revenues include activities that have the characteristics of exchange transactions including tolls, E-Z Pass fees, rental fees received from concessionaires, and miscellaneous operating revenues. Non-operating revenue includes activities that have the characteristics of non-exchange transactions, such as the Build America Bonds subsidy and investment income.

Operating expenses include the costs of operating and maintaining the toll roads, administrative expenses, and depreciation on capital assets. All expenses not meeting this definition, including interest expense, are reported as non-operating expenses.

(r) *Income Taxes*

The Authority is exempt from federal income taxes under the Internal Revenue Code Section 115 and from state income taxes under N.J.S.A. 27:25-16. Accordingly, no provision is recorded for federal and state income taxes.

(s) Pension and Other Postemployment Benefits

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68), establishes standards for the measurement and reporting of the proportionate share of the net pension liability and pension expense. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension expense, information about the fiduciary net position of the State of New Jersey Public Employees' Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments of the plan are reported at fair value (note 11).

GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75), establishes accounting and financial reporting for other postemployment benefits (OPEB) that are provided to the employees of state and local governmental employers. GASB 75 establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses related to OPEB in the basic financial statements, in addition to requiring more extensive disclosures and required supplementary information. OPEB includes postemployment healthcare, as well as other forms of postemployment benefits (e.g., life insurance) when provided separately from a pension plan (note 12).

(t) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(u) Capital Contributions

Capital contributions include funding from outside sources, inclusive of state and local governments, agencies and authorities for highway, bridge and other capital improvement projects. The Authority recognized \$200 and \$12,470 in 2018 and 2017 respectively as capital contributions from outside sources as partial funding for capital projects. In 2018, the project included parking lot improvements at the Monmouth service area. In 2017, these projects primarily included improvements to the roadway infrastructure in the area of Interchange 125 on the Parkway, noise barrier construction in the vicinity of State Highway Route 18 near Turnpike Interchange 9 and improvements to the shoulders of the Newark Bay Hudson County Extension on the Turnpike.

(v) Reclassification

Certain prior year amounts have been reclassified to conform with the current year's presentation.

(w) Adoption of Accounting Pronouncements

The Authority adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB 75) in 2018. This statement addresses accounting and financial reporting for other postemployment benefits (OPEB) that are provided to the employees of state and local governmental employers. GASB 75 establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses related to OPEB in the basic financial statements, in addition to requiring more extensive disclosures and required supplementary information.

With the adoption of GASB 75, the Authority determined that it was not practicable to restate its January 1, 2017 net position. As a result of the implementation of GASB 75, beginning unrestricted net position as of January 1, 2018 was decreased by \$1,059,526.

The Authority has also chosen to early adopt GASB Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period* (GASB 89). This statement establishes accounting requirements for interest cost incurred before the end of a construction period. GASB 89 requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. Interest costs incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The provisions of GASB 89 have been applied prospectively as of January 1, 2018, and did not result in an adjustment to beginning net position.

(x) Accounting Pronouncements Issued but Not Yet Effective

The accounting pronouncements issued but not yet effective are GASB Statement No. 83, *Certain Asset Retirement Obligations* (GASB 83), GASB Statement No. 84, *Fiduciary Activities* (GASB 84), GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements* (GASB 88), and GASB Statement No. 90, *Majority Equity Interests - an amendment of GASB Statements No. 14 and No. 61* (GASB 90). GASB 83 requires a government entity to recognize an asset retirement obligation when the liability is incurred and reasonably estimable. GASB 84 provides guidance regarding identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The primary objective of GASB 88 is to improve the information disclosed in notes to governmental financial statements related to debt, including direct borrowings and direct placements. GASB 90 defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless certain conditions apply. The Authority is currently evaluating the applicability and the impact of these new statements.

(3) Cash and Investments

The New Jersey Turnpike Authority is authorized to engage in investment activity pursuant to the Act, and the Bond Resolution. Specific investment policies and practices are set forth in certain sections of the Authority's Investment Policy adopted on September 24, 2013. These guidelines are adhered to by the Authority's Finance Department when making day-to-day investment decisions. The Authority principally invests in securities of United States agencies, highly rated commercial paper, demand accounts, certificates of deposit, and repurchase agreements. According to management, the Authority is not in violation of any provisions of the Act, the Bond Resolution or its Investment Policy.

(a) Cash

All moneys held under the Bond Resolution, except amounts held by the Trustee or amounts which constitute investment securities, shall be continuously and fully secured by pledging, as collateral security, direct obligations of or obligations guaranteed by the United States of America having a fair value not less than the amount of such moneys.

The total cash carrying amount as of December 31, 2018 and 2017 is \$170,004 and \$243,202, respectively. The actual amount of cash on deposit in all bank accounts as of December 31, 2018 and 2017 was \$161,211 and \$219,922, respectively. Authority accounts had a book balance as of December 31, 2018 and 2017 of \$169,391 and \$242,576, respectively, actual cash on deposit of \$160,553 and \$219,141, respectively, and are collateralized by pledged securities totaling \$188,847 and \$233,489, respectively, held in the Authority's name by the Authority's financial institutions or its agents. The Foundation's cash balance as of December 31, 2018 and 2017 includes a book balance of \$613 and \$626, respectively. The actual amount of cash on deposit in the Foundation's bank accounts as of December 31, 2018 and 2017 was \$658 and \$781, respectively, of which \$434 and \$510, respectively, was insured by the Federal Deposit Insurance Corporation (FDIC) and \$224 and \$271, respectively, which was not insured or collateralized.

(b) Investments

All securities, other than securities held by the respective trustees for the benefit of the bondholders, are held by the Authority. All investment transactions are recorded on a transaction date basis.

Fair Value Measurement

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the financial statement measurement date. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels as follows:

- Level 1 - unadjusted quoted prices for identical assets or liabilities in active markets that a government can access at the measurement date
- Level 2 - quoted prices other than those included within Level 1 and other inputs that are observable for an asset or liability, either directly or indirectly
- Level 3 - unobservable inputs for an asset or liability

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3. When the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level that is significant to the entire measurement.

While the Authority believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following is a description of the valuation methodologies used for instruments measured at fair value:

- Certificates of deposit - The fair value of certificates of deposits and repurchase agreements are based on matrix pricing based on the securities' relationship to benchmark quoted prices.
- Commercial paper and Time deposit - The fair value is based on model-derived pricing based on the securities' purchase cost and date.
- Federal agency notes and U.S. Treasury bills - The fair value of federal agency notes and U.S. treasury bills are based on quoted prices for identical securities in markets that are not active or quoted prices for similar securities in active markets.
- State of New Jersey Cash Management Fund - The fair value of the State of New Jersey Cash Management Fund is based on quoted or published prices.

The Authority's investments as of December 31, 2018 and 2017 are summarized in the following tables by their fair value hierarchy:

December 31, 2018			
	Total	Level 1	Level 2
Investments measured at fair value:			
Certificates of Deposit	\$ 468,305	—	468,305
Commercial Paper	511,090	—	511,090
Federal Agency Notes	842,017	287,025	554,992
State of New Jersey Cash Management Fund	49,854	49,854	—
U.S. Treasury Bills	301,671	301,671	—
Total investments	<u>\$ 2,172,937</u>	<u>638,550</u>	<u>1,534,387</u>

December 31, 2017

	Total	Level 1	Level 2
Investments measured at fair value:			
Certificates of Deposit	\$ 490,897	—	490,897
Commercial Paper	658,242	—	658,242
Federal Agency Notes	710,954	200,155	510,799
Time Deposit	50,360	—	50,360
U.S. Treasury Bills	312,412	312,412	—
Total investments	<u>\$ 2,222,865</u>	<u>512,567</u>	<u>1,710,298</u>

Investment Maturity

The Authority's Investment Policy specifies maximum maturity limits by Bond Resolution Fund and by type of investment. At the time of purchase, the maturity of each security in the portfolio may not exceed the following maximum timeframes for the respective fund in which the investment is made. The maximum maturity will take into account any call, put, prepayment or other features that may impact maturity. All investments mature no later than necessary to provide moneys when needed for payments to be made from such funds.

- Revenue Funds - 1 year (by Bond Resolution)
- Construction Funds - 5 years (by Authority Policy)
- Maintenance Reserve Fund - 2 years (by Bond Resolution)
- Special Projects Reserve Fund - 2 years (by Bond Resolution)
- General Reserve Fund - 3 years (by Bond Resolution)
- Debt Service Fund - 1 year (by Authority Policy)
- Charges Fund - 3 months (by Authority Policy)
- Debt Reserve Fund - 5 years (by Bond Resolution)

The Authority's Investment Policy limits the maturity of commercial paper investments to 270 days. There is no other specific maturity limit for other types of Investment Securities; however the maturities are limited by Bond Resolution Fund as noted above.

Investments are generally purchased with the intent of holding to maturity, but the Chief Financial Officer, or designee, has the flexibility to restructure and rebalance portfolio holdings to manage risk and take advantage of market opportunities.

As of December 31, 2018 and 2017 the Authority had the following investments by their maturity date range:

Investment type	December 31, 2018		
	Fair value	Investment maturities	
		Less than 1 year	1–5 years
Investments:			
Certificates of Deposit	\$ 117,435	117,435	—
Commercial Paper	315,172	315,172	—
Federal Agency Notes	272,938	272,938	—
U.S. Treasury Bills	193,635	193,635	—
Total investments	899,180	899,180	—
Restricted investments held by trustee:			
Certificates of Deposit	350,870	87,569	263,301
Commercial Paper	151,075	151,075	—
Federal Agency Notes	494,174	395,080	99,094
U.S. Treasury Bills	83,039	83,039	—
Total restricted investments held by trustee	1,079,158	716,763	362,395
Restricted investments held by Authority:			
Commercial Paper	44,843	44,843	—
Federal Agency Notes	74,905	74,905	—
State of New Jersey Cash Management Fund	49,854	49,854	—
U.S. Treasury Bills	24,997	24,997	—
Total restricted investments held by Authority	194,599	194,599	—
Total investments	\$ 2,172,937	1,810,542	—

Note: Table includes \$10,938 of accrued interest, and Federal agency notes include \$263 in unrealized loss for the year ended December 31, 2018.

- (1) Included in investments above at December 31, 2018 is \$10,747 the Authority has designated as reserved for national toll interoperability requirements under Federal Law P.L. 112-131, the Moving Ahead for Progress in the 21st Century Act (Map-21) (\$10,500), and emergency maintenance work (\$247).
- (2) The Authority does not have any investments with maturities greater than 5 years.

Investment type	December 31, 2017		
	Fair value	Investment maturities	
		Less than 1 year	1–5 years
Investments:			
Certificates of Deposit	\$ 50,329	50,329	—

Total restricted investments held by Authority	<u>425,612</u>	<u>425,612</u>	<u>—</u>
Total investments	<u>\$2,222,865</u>	<u>1,889,269</u>	<u>333,596</u>

Note: Table includes \$7,901 of accrued interest, and Federal agency notes include \$173 in unrealized loss for the year ended December 31, 2017.

- (1) Included in investments above at December 31, 2017 is \$10,747 the Authority has designated as reserved for national toll interoperability requirements under Federal Law P.L. 112-131, the Moving Ahead for Progress in the 21st Century Act (Map-21) (\$10,500), and emergency maintenance work (\$247). In 2017, the amount reserved for the \$7 Billion Capital Improvement Program was spent resulting in a reduction in investments of \$20,000.
- (2) The Authority does not have any investments with maturities greater than 5 years.

The Authority's investment portfolio is subject to the following risks:

Interest rate risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the Authority's Investment.

Policy sets maximum maturity limits for investments and requires that investment maturities are matched to the Authority's liquidity needs. At the time of purchase, the maturity of each security in the portfolio may not exceed the following maximum time frames for the respective fund in which the investment is made in accordance with the Bond Resolution or Authority policy.

Credit risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Authority's investment guidelines and policies are designed to protect principal by limiting credit risk. This is accomplished through ratings, and collateral requirements that vary according to the type of investment as defined in the Authority's Investment Policy. The Authority's Investment Policy states that all investments ratings shall be based on security ratings at the time of purchase. In the event of a downgrade in rating, the Chief Financial Officer, or designee, will determine whether to sell or hold the investment. The Authority will not make an investment in an issuer who has a negative outlook associated with their credit rating, except for US Treasury or Federal Agencies. The portfolio's average credit quality should be rated Aa3/AA- or better by Moody's/S&P. In addition, certain investment securities require collateral posting requirements as outlined in note 2.

As of December 31, 2018 and 2017, the Authority's investment quality ratings as rated by Standard & Poor's and Moody's were as follows:

December 31, 2018				
Standard and Poor's/Moody's ratings				
	A-1+/P-1	AA+/Aaa	Totals	
Commercial Paper	\$ 511,090	—	511,090	
Federal Agency Notes	742,923	99,094	842,017	
U.S. Treasury Bills	301,671	—	301,671	
	<u>\$ 1,555,684</u>	<u>99,094</u>	<u>1,654,778</u>	

December 31, 2017				
Standard and Poor's/Moody's ratings				
	A-1+/P-1	**A-1/P-1	AA+/Aaa	Totals
Commercial Paper	\$ 639,869	18,373	—	658,242
Federal Agency Notes	606,006	—	104,948	710,954
U.S. Treasury Bills	312,412	—	—	312,412
	<u>\$ 1,558,287</u>	<u>18,373</u>	<u>104,948</u>	<u>1,681,608</u>

** At the time of the purchase, GE Capital (the Issuer) was rated A-1+/P-1 in accordance with the Authority's Bond Resolution. In December 2017, the Issuer was downgraded to A-1/P-1. The investment for this Issuer matured on January 2, 2018.

Custodial credit risk: For investments, custodial credit risk is the risk that in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments that are in the possession of the outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Authority, and are held by either the counterparty or the counterparty's trust department or agent but not in the name of the Authority.

The Authority manages custodial credit risk by limiting its investments to highly rated institutions, having its investments registered in its name, and requiring high quality collateral be held by the counterparty in the name of the Authority for certain investment securities. As of December 31, 2018 and 2017, the Authority was not exposed to custodial credit risk on its investment securities.

Concentration of credit risk: Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer that exceeds 5% or more of its total investments. Concentrations limits are established in the Authority's Investment Policy as follows:

There are no limitations on investments carrying the full faith and credit of the United States Government, including repurchase agreements collateralized by such investments;

- (a) Investments in any single Federal Agency not carrying the full faith and credit of the United States Government are limited to 40% of the portfolio;
- (b) Investments in Certificates of Deposit are limited to 30% of the portfolio;
- (c) Investments made in Commercial Paper are limited to 30% of the total portfolio;
- (d) Investments in Municipal securities are limited to 30% of the total portfolio;
- (e) Investments in any one single issuer (excluding US Treasury and Federal Agency securities) are limited to 5% of the portfolio.

The Investment Policy authorizes the management to deviate from the policy if it is in the general best interest of the Authority. At December 31, 2018, the Authority exceeded its concentration limits for a single issuer with U.S. Bank, National Securities Clearing Corporation and Nordea Bank as discussed further below. While the par amount of investments with U.S. Bank has decreased to \$247,000 in 2018 from \$265,000 in 2017, U.S. Bank's holdings as a percentage of the total portfolio have increased due to the drop in total portfolio value. The investments within the U.S. Bank portfolio are long-term in nature and are slowly being decreased as they mature to ensure that the Authority does not exceed its concentration limits for a single issuer. National Securities Clearing Corporation holdings increased in 2018 due to an investment made under a \$150,000 notional value forward delivery agreement between the Authority and Deutsche Bank in which Deutsche Bank delivers investment securities to the Debt Reserve Fund which are held in the Authority's name. Deutsche Bank invested \$100,000 in National Security Clearing Corporation which exceeded the concentration limits for a single issuer. The concentration limit was exceed for Nordea Bank because the bank offered the best rates and available securities when the Authority had available funds to invest. At December 31, 2017, the Authority exceeded its concentration limits for a single issuer with U.S. Bank, and Toyota Motor Credit Corp. due to a scarcity of highly rated investments available in current market conditions. More than 5% of the Authority's investments are concentrated in the following issuers as of December 31, 2018 and 2017, respectively:

Issuer	December 31	
	2018	2017
Federal Home Loan Bank	26.5%	17.4%
Federal Home Loan Mortgage Corp.	7.4	6.8
National Securities Clearing Corp.	7.2	N/A
Nordea Bank	5.1	N/A
Toyota Motor Credit Corp.	N/A	6.8
U.S. Bank	11.4	9.9
U.S. Treasury	13.9	14.4

(4) Capital Assets

Capital assets consist of land, construction in progress, infrastructure, buildings, and equipment. Infrastructure assets are typically items that are immovable, such as highways and bridges. These assets are capitalized as per the Authority's capitalization policy and depreciated as per the depreciation policy. The schedule below shows a summary of changes in the capital assets as of December 31, 2018 and 2017 is as follows:

Classification	December 31, 2017	Additions	Retirements/ transfers	December 31, 2018
Nondepreciable capital assets:				
Land	\$ 832,460	1,301	—	833,761
Construction In Progress	1,561,960	445,129	(1,471,185)	535,904
Total nondepreciable capital assets	2,394,420	446,430	(1,471,185)	1,369,665

Total accumulated depreciation	(3,465,282)	(304,991)	—	(3,770,273)
Capital assets, net	\$ 11,455,725	770,181	(384,840)	11,841,066

(5) Accounts Payable and Accrued Expenses

Accounts payable consist of amounts owed to vendors for goods and services related to the operation and maintenance of the Turnpike System, and amounts owed to vendors related to work performed and materials supplied for capital projects. Accounts payable—pension includes pension expense related to the State of New Jersey PERS plan, representing the pension expense for 12 months which has been invoiced by PERS in the later part of 2018 and payable by April 1, 2019. Accrued expenses include accrued salaries and benefits earned by employees, and other accrued expenses which primarily include the inventory receipt accruals.

A summary of the accounts payable and accrued expenses as of December 31, 2018 and 2017 is as follows:

	December 31	
	2018	2017
Vendors – operations and maintenance	\$ 33,467	42,054
Vendors – capital expenditures	50,700	69,919
Accounts payable – pension	18,544	25,667
Accrued salaries and benefits	10,262	11,933
Accrued expenses - other	3,240	1,885
Total	<u>\$ 116,213</u>	<u>151,458</u>

(6) **Bond Indebtedness**

As of December 31, 2018 and 2017, bond indebtedness consisted of the following:

			December 31	
	Interest rate	Maturity	2018	2017
Turnpike revenue bonds:				
Series 2004C-2, not subject to optional redemption prior to maturity	5.50%	Jan. 1, 2025	\$ 132,850	132,850
Series 2005A, not subject to optional redemption prior to maturity	5.25%	Jan. 1, 2026 through Jan. 1, 2030	173,650	173,650
Series 2005B (Federally Taxable), not subject to optional redemption prior to maturity	4.81%	Jan. 1, 2019	32,500	32,500
Series 2005D1-D4, (Federally Taxable Converting to Tax-Exempt) convertible to tax-exempt on Jan. 1, 2009 through Jan. 1, 2013, not subject to optional redemption	5.25%	Jan. 1, 2026	208,735	208,735
Series 2009F, Term Bond, Federally redemption prior to maturity at make-whole redemption price, subject to mandatory redemption on Jan. 1, 2037 through Jan. 1, 2040	7.41%	Jan. 1, 2040	1,375,000	1,375,000
Series 2009G, not subject to redemption prior to maturity	5.00%	Jan. 1, 2018	—	19,125
Series 2009H, subject to optional redemption prior to maturity on/after Jan. 1, 2019 in whole or part at redemption price plus 100% accrued interest	5.00%	Jan. 1, 2020	36,695	36,695
Series 2010A, Federally Taxable – Issuer Subsidy Build America Bonds, subject to optional redemption prior to maturity at make-whole redemption price. Subject to mandatory redemption on Jan. 1, 2035 through Jan. 1, 2041	7.10%	Jan. 1, 2041	1,850,000	1,850,000
Series 2012A, subject to optional redemption prior to maturity on/after Jan. 1, 2022 in whole or in part	3.63% to 4.00%	Jan. 1, 2031 & Jan. 1, 2033	15,000	15,000
Series 2012B, not subject to optional redemption prior to Jan. 1, 2023	5.00%	Jan. 1, 2019 through Jan. 1, 2023	329,250	329,250
Subject to optional redemption in whole or in part on any date on/after Jan. 1, 2023	3.50% to 5.00%	Jan. 1, 2024 through Jan. 1, 2030	475,185	475,185
Series 2013A, not subject to optional redemption prior to Jan. 1, 2023	3.00% to 5.00%	Jan. 1, 2017 through Jan. 1, 2023	26,455	31,805
Subject to optional redemption on/after Jul. 1, 2022	3.00% to 5.00%	Jan. 1, 2024 through Jan. 1, 2043	285,645	285,645
Series 2013B, not subject to optional redemption prior to maturity	Variable, 1.61% at Dec 31, 2017	Jan. 1, 2018	—	52,500

	Interest rate	Maturity	December 31	
			2018	2017
Series 2013C, not subject to optional redemption prior to maturity	Variable, 2.26% at Dec 31, 2017	Jan. 1, 2018	—	141,500
Series 2013F, subject to optional redemption prior to maturity on/after Jan. 1, 2023 in whole or part	3.00% to 5.00%	Jan. 1, 2026 through Jan. 1, 2035	90,880	90,880
Series 2014A, subject to optional redemption prior to maturity on/after July 1, 2024 in whole or part	4.00% to 5.00%	Jan. 1, 2027 through Jan. 1, 2035	1,000,000	1,000,000
Series 2014C, not subject to optional redemption prior to maturity	5.00%	Jan. 1, 2019 through Jan. 1, 2025	201,860	201,860
Series 2015A, subject to optional redemption in whole or part, on/after Jan. 1, 2016	Variable, 2.35% at Dec. 31, 2018, 1.69% at Dec. 31, 2017	Jan. 1, 2024	92,500	92,500

			<u>567,258</u>	<u>627,624</u>
			<u>\$ 11,331,888</u>	<u>11,610,729</u>

(a) Bond Insurance

For the Series 2004C and Series 2005A-D Bonds, principal and interest payments are insured on the stated maturity and interest payment dates through municipal bond insurance which totaled \$515,235 and \$547,735 as of December 31, 2018 and 2017, respectively.

In order to meet the Debt Reserve Requirement under the Bond Resolution, the Authority must deposit cash and investments in the Debt Reserve Fund. In lieu of cash and investments, the Authority may maintain a surety bond or insurance policy payable to the Trustee. The Debt Reserve Requirement of \$583,155 as of December 31, 2018 was met through investments in the Debt Reserve Fund with a fair market value of \$601,039 and insurance policies payable to the Trustee with a payment limit of \$178,333. The Debt Reserve Requirement of \$596,504 as of December 31, 2017 was met through investments in the Debt Reserve Fund with a fair market value of \$600,788 and insurance policies payable to the Trustee with a payment limit of \$322,019. Although the insurance policies are still in effect at December 31, 2018, according to the terms of the insurance policies, cash and investments in the Debt Reserve Fund must be drawn upon first to satisfy any payments required from the Debt Reserve Fund. As of December 31, 2018 and December 31, 2017, the fair market value of the cash and investments in the Debt Reserve Fund meets the Debt Reserve Requirement in its entirety.

(b) Interest Payments - Fixed Rate Debt

Interest payments on all fixed rate debt are payable semi-annually on July 1 and January 1 except for Capital Appreciation Bonds.

(c) Variable Rate Debt

Interest rates on variable rate debt are reset monthly except for series 2015F, series 2015G, series 2016B, series 2016C, and series 2016D bonds, which are reset weekly. Interest is paid monthly.

(d) Build America Bonds

The Series 2009F Bonds and the Series 2010A Bonds are designated as Federally Taxable, Issuer Subsidy Build America Bonds for purposes of the American Recovery and Reinvestment Act of 2009. The Authority receives a cash subsidy from the United States Treasury originally equal to 35% of the interest payable on the Bonds. The Budget Control Act of 2011 reduced the amount of the subsidy paid by the Federal Government through automatic federal spending cuts commonly known as sequestration. The payment to the Authority received for the July 1, 2018 interest payment was reduced by 6.6%, and the payment received in December 2018 (for January 1, 2019 interest payment) was reduced by 6.2%. The Internal Revenue Service has reported that the Authority's payment due on July 1, 2019 will also have a 6.2% reduction. There can be no certainty the Federal Government will not make further cuts to the program. These cash payments constitute pledged revenues under the Authority's bond resolution. The Series 2009F Bonds and the Series 2010A Bonds are subject to redemption prior to maturity at the make-whole redemption price which is equal to the greater of (i) 100% of the principal amount of the Bonds to be redeemed plus accrued and unpaid interest and (ii) the sum of the present value of the remaining scheduled payments of principal

and interest, discounted to the date on which the Bonds are to be redeemed on a semi-annual basis, assuming a 360 day year consisting of twelve 30 day months, at the adjusted Treasury Rate plus 50 basis points for the Series 2009F Bonds and 40 basis points for the Series 2010A Bonds, plus accrued and unpaid interest. The Bonds are also subject to redemption prior to their maturity at the option of the Authority upon a material adverse change to Section 54AA or 6431 of the Internal Revenue Code of 1986 pursuant to which the Authority's 35% cash subsidy payment is reduced or eliminated. In this case the redemption price is equal to the greater of (i) 100% of principal amount of the Bonds to be redeemed plus accrued and unpaid interest and (ii) the sum of the present value of the remaining scheduled payments of principal and interest, discounted to the date on which the Bonds are to be redeemed on a semi-annual basis, assuming a 360 day year consisting of twelve 30 day months, at the adjusted Treasury Rate plus 100 basis points, plus accrued and unpaid interest. The Series 2009F Bonds are subject to mandatory redemption on January 1, 2037 through January 1, 2040 at 100% of the principal amount plus accrued interest. The Series 2010A Bonds are subject to mandatory redemption on January 1, 2035 through January 1, 2041 at 100% of the principal amount plus accrued interest.

(e) Floating Rate Bonds and SIFMA Index Bonds

The following table summarizes the terms of the Authority's direct placement of Floating Rate Bonds, and publicly offered Floating Rate Bonds as of December 31, 2018:

Series of bonds	Tax exempt or federally taxable	Final maturity date	Par amount	Floating rate	Interest rate reset	Mandatory tender date
2015A	Tax-Exempt	1/1/2024	\$ 92,500	67% 1 month LIBOR + 78 bp	Monthly	—
2015B	Tax-Exempt	1/1/2024	50,000	75% 1 month LIBOR + 45 bp	Monthly	1/1/2020
2015C	Tax-Exempt	1/1/2024	43,750	67% 1 month LIBOR + 70 bp	Monthly	—
2015D	Tax-Exempt	1/1/2024	43,750	67% 1 month LIBOR + 70 bp	Monthly	—
2015F	Tax-Exempt	1/1/2022	72,350	75% 1 month LIBOR + 59.5 bp	Weekly	—
2015G	Tax-Exempt	1/1/2024	25,000	69.75% 1 month LIBOR + 60 bp	Weekly	—
2015H	Tax-Exempt	1/1/2022	48,235	67% 1 month LIBOR + 74 bp	Monthly	—
2016B	Tax-Exempt	1/1/2023	75,025	70% 1 month LIBOR + 63 bp	Weekly	—
2016C	Tax-Exempt	1/1/2023	50,015	70% 1 month LIBOR + 63 bp	Weekly	—
2016D	Tax-Exempt	1/1/2024	50,000	70% 1 month LIBOR + 64 bp	Weekly	—
2017C1	Tax-Exempt	1/1/2021	31,050	70% 1 month LIBOR + 34 bp	Monthly	—
2017C2	Tax-Exempt	1/1/2022	32,775	70% 1 month LIBOR + 48 bp	Monthly	—
2017C3	Tax-Exempt	1/1/2023	34,575	70% 1 month LIBOR + 60 bp	Monthly	—
2017C4	Tax-Exempt	1/1/2024	36,475	70% 1 month LIBOR + 70 bp	Monthly	—
2017C5	Tax-Exempt	1/1/2028	150,000	70% 1 month LIBOR + 46 bp	Monthly	1/1/2021
2017C6	Tax-Exempt	1/1/2030	115,125	70% 1 month LIBOR + 75 bp	Monthly	1/1/2023
2017D1	Tax-Exempt	1/1/2024	129,375	70% 1 month LIBOR + 70 bp	Monthly	—
2017D2	Tax-Exempt	1/1/2022	16,075	70% 1 month LIBOR + 48 bp	Monthly	—
2017D3	Tax-Exempt	1/1/2023	16,675	70% 1 month LIBOR + 60 bp	Monthly	—
2017D4	Tax-Exempt	1/1/2024	17,250	70% 1 month LIBOR + 70 bp	Monthly	—

The Series 2015A, Series 2015B, Series 2015C, Series 2015D, Series 2015F, Series 2015G, Series 2015H, Series 2016B, Series 2016C and Series 2016D Bonds are direct placements of Floating Rate Bonds. The Series 2017C1-6 and Series 2017D1-4 Bonds are publicly offered Floating Rate Bonds. Pursuant to the terms of the Series 2015A, Series 2015B, Series 2015C, Series 2015D, Series 2015F, Series 2015G,

Series 2015H, Series 2016B, Series 2016C and Series 2016D Bonds, in addition to being subject to mandatory tender for purchase on the Mandatory Tender Date or maturity date set forth in the chart above, upon the occurrence of certain enumerated extraordinary mandatory purchase events, the respective Series of Bonds may also be subject to mandatory tender for purchase at the option of the applicable bank that is the holder of such Series of Bonds prior to the occurrence of such Mandatory Tender Date. In the event that the Authority cannot pay the purchase price for all or a portion of such Series of Bonds on the Mandatory Tender Date or any such extraordinary mandatory purchase date, (i) 50% of the principal amount of any unpurchased Bonds will be subject to mandatory redemption on the date that is one year after such Mandatory Tender Date or extraordinary mandatory purchase date, at a Redemption Price equal to 100% of the principal amount of such Bonds to be redeemed plus accrued interest to the redemption date, and (ii) the entire remaining aggregate principal amount of such unpurchased Bonds will be subject to mandatory redemption on the date that is two years after such Mandatory Tender Date or extraordinary mandatory purchase date, at a Redemption Price equal to 100% of the principal amount of such Bonds to be redeemed plus accrued interest to the redemption date.

(f) Security

All bonds outstanding under the Bond Resolution, together with amounts owed under the interest rate swap agreements, are secured on a parity by a pledge of net revenues of the Authority senior in priority to any other Authority obligations secured by such net revenues.

(g) Future Payments of Debt Service

The following table sets forth as of December 31, 2018, payments of principal (through sinking fund installments) and interest to be made to the Debt Service Fund from the Revenue Fund on all outstanding bonds of the Authority for the next five years and thereafter. Interest on variable-rate debt and interest rate swaps in the following table is based upon the variable-rates as of December 31, 2018.

	Principal	Interest	Interest rate swaps, net	Total
December 31:				
2019	\$ 201,025	541,699	48,543	791,267
2020	228,205	529,825	48,543	806,573
2021	249,395	522,088	45,759	817,242
2022	278,700	517,325	40,599	836,624
2023	289,050	514,123	31,975	835,148
2024-2028	1,837,560	2,441,033	62,244	4,340,837
2029-2033	2,260,860	1,995,906	7,301	4,264,067
2034-2038	2,767,791	1,371,102	—	4,138,893
2039-2043	2,455,544	415,812	—	2,871,356
2044-2046	196,500	14,618	—	211,118
	<u>\$ 10,764,630</u>	<u>8,863,531</u>	<u>284,964</u>	<u>19,913,125</u>

(i) **Interest Expense**

Interest expense was comprised of the following:

	Year ended December 31	
	2018	2017
Turnpike Revenue Bonds, Series 2000B – G	\$ —	14,790

Turnpike Revenue Bonds, Series 2015E	36,413	36,413
Turnpike Revenue Bonds, Series 2015F	2,950	2,944
Turnpike Revenue Bonds, Series 2015G	992	989
Turnpike Revenue Bonds, Series 2015H	1,951	1,957
Turnpike Revenue Bonds, Series 2016A	7,312	7,312
Turnpike Revenue Bonds, Series 2016B	2,981	3,020
Turnpike Revenue Bonds, Series 2016C	2,000	1,982
Turnpike Revenue Bonds, Series 2016D	2,021	2,020
Turnpike Revenue Bonds, Series 2017A	29,409	21,240
Turnpike Revenue Bonds, Series 2017B	31,304	12,866
Turnpike Revenue Bonds, Series 2017C	18,887	3,265
Turnpike Revenue Bonds, Series 2017D	7,237	1,264
Turnpike Revenue Bonds, Series 2017E	17,984	849
Turnpike Revenue Bonds, Series 2017F	5,372	254
Turnpike Revenue Bonds, Series 2017G	30,479	847
	<u>587,496</u>	<u>604,510</u>
Less amortization of bond premium and discount	(38,051)	(30,876)
Less GASB Statement No. 53 interest expense adjustment (1)	(24,649)	(32,932)
Less interest expense capitalized to projects (2)	—	(118,789)
Net interest expense	<u>\$ 524,796</u>	<u>421,913</u>

(1) For the Series 2015A-D, 2015F, 2016B, 2017C1-6 and 2017D Bonds

(2) The Authority elected to early adopt GASB 89 as of January 1, 2018 and therefore no interest was capitalized to projects in 2018.

(j) Defeased Bonds

As of December 31, 2018 and 2017, the Authority has approximately \$1,964,000 and \$1,981,000, respectively, of bonds outstanding which have been previously defeased in substance and are secured by investments held by various escrow agents. The escrow accounts are invested in obligations of U.S. government agencies and are not controlled by the Authority. The bonds are considered extinguished and accordingly, the assets and obligations are not reflected on the financial statements of the Authority.

(7) Derivative Instruments

The fair value balances and notional amounts of derivative instruments outstanding as of December 31, 2018 and 2017, classified by type, and the changes in fair value of such derivative instruments for the year then ended as reported in the accompanying financial statements are as follows:

Changes in fair value for year ended December 31, 2018			Fair value as of December 31, 2018		
Classification	Amount		Classification	Amount	Notional
Cash flow hedges:					
Pay-fixed, receive-variable interest rate swaps ⁽¹⁾	Deferred Inflow	\$ 14,176	Interest rate swap liabilities	\$ (6,738)	1,125,000
Changes in fair value for year ended December 31, 2017			Fair value as of December 31, 2017		
Classification	Amount		Classification	Amount	Notional
Cash flow hedges:					
Pay-fixed, receive-variable interest rate swaps ⁽¹⁾	Deferred Outflow	\$ (4,027)	Interest rate swap liabilities	\$ (20,914)	1,319,000

⁽¹⁾ Includes fair value of at-the-market interest rate swaps from hybrid instruments

The fair values of the interest rate swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

Objective and Terms of Derivative Instruments

The following tables display the objective and terms of the Authority's derivative instruments outstanding as of December 31, 2018 and 2017, along with the credit rating of the associated counterparty (amounts in thousands):

December 31, 2018						
Type	Objective	Notional amount	Effective date	Maturity date	Terms	Counterparty credit rating
Hedging derivative instruments:						
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015A bonds	\$ 87,500	Apr. 1, 2016	Jan. 1, 2024	Pay 2.98%, receive 67% of 1 month USD-LIBOR-BBA	A1/AA-/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015B bonds	50,000	Feb. 11, 2009	Jan. 1, 2024	Pay 3.331%, receive 75% of 1 month USD-LIBOR-BBA	A2/A/A+
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015C bonds	43,750	Feb. 11, 2009	Jan. 1, 2024	Pay 3.2488%, receive 67% of 1 month USD-LIBOR-BBA	A2/A/A+
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015D bonds	43,750	Feb. 11, 2009	Jan. 1, 2024	Pay 3.2525%, receive 67% of 1 month USD-LIBOR-BBA	A2/A/A+
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015F bonds	72,350	May. 21, 2013	Jan. 1, 2022	Pay 3.4486%, receive until 73.2% of 1 month USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015G bonds	25,000	Sep. 1, 2015	Jan. 1, 2024	Pay 3.35%, receive 67% of 1 month USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2015H bonds	48,235	Sep. 1, 2015	Jan. 1, 2022	Pay 3.305%, receive 67% of 1 month USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2016B bonds	75,025	May. 21, 2013	Jan. 1, 2023	Pay 3.4486%, receive 73.2% of 1 month of USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2016C bonds	50,015	Sep. 1, 2015	Jan. 1, 2023	Pay 3.4486%, receive 63% of 1 month plus 20bp USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2016D bonds	50,000	Sep. 1, 2015	Jan. 1, 2024	Pay 3.35%, receive 67% of 1 month USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017C bonds	240,000	Sep. 1, 2015	Jan. 1, 2030	Pay 4.172%, receive 70% of 1 month of USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017C bonds	160,000	May. 21, 2013	Jan. 1, 2030	Pay 4.172%, receive 70% of 1 month of USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017D1 bonds	77,625	May. 21, 2013	Jan. 1, 2030	Pay 3.4486%, receive 73.2% of 1 month of USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017D1 bonds	51,750	Sep. 1, 2015	Jan. 1, 2030	Pay 3.4486%, receive 63% of 1 month plus 20bp USD-LIBOR-BBA	Aa2/A+/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017D2-4 bonds	50,000	Aug. 4, 2014	Jan. 1, 2024	Pay 3.35%, receive 67% of 1 month USD-LIBOR-BBA	A1/A+/A+

December 31, 2017						
Type	Objective	Notional amount	Effective date	Maturity date	Terms	Counterparty credit rating
Hedging derivative instruments:						
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2013B bonds	\$52,500	Mar. 14, 2011	Jan. 1, 2018	Pay 5.5728%, receive 75% of 1 month of USD-LIBOR-BBA	A1/A-/A

Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017D1 bonds	51,750	Sep. 1, 2015	Jan. 1, 2030	Pay 3.4486%, receive 63% of 1 month USD-LIBOR-BBA	Aa2/AA-/AA-
Pay-fixed, receive-variable interest rate swap	Hedge of interest rate risk on the Series 2017D2-4 bonds	50,000	Aug. 4, 2014	Jan. 1, 2024	Pay 3.35%, receive 67% of 1 month USD-LIBOR-BBA	A1/A+/A+

(a) Risks

Credit risk: The Authority is exposed to credit risk on derivative instruments that are in asset positions. To minimize its exposure to loss related to credit risk, it is the Authority's policy to require counterparty collateral posting provisions in its derivative instruments. These terms require full collateralization of the fair value of derivative instruments in asset positions (net of the effect of applicable netting arrangements) should the counterparty's credit rating fall below BBB- as issued by Standard & Poor's or Baa3 as issued by Moody's Investors Service. Collateral posted is to be in the form of U.S. Treasury securities held by a third-party custodian. All of the Authority's derivative investments provide for the netting of the value of asset and liability positions with the same counterparty upon termination. There were no derivative instruments in asset positions as of December 31, 2018 and 2017, respectively.

Basis risk: is the risk associated with imperfect hedging. It arises because of the difference between the price of the asset to be hedged and the price of the asset serving as the hedge. The Authority as of December 31, 2018 and December 31, 2017 is not exposed to basis risk as all interest rate swaps receive a variable rate based on the same rate or index as the hedge variable rate debt.

Termination risk: The Authority or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. If at the time of termination, a hedging derivative instrument is in a liability position, the Authority would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

(b) Contingencies

All of the Authority's derivative instruments, except for the \$25,000, \$48,235, \$50,015, \$50,000 and \$101,750 notional value swaps that hedge the Series 2015G, 2015H, 2016C, 2016D and 2017D Bonds, respectively, include provisions that require the Authority to post collateral in the event its credit rating falls below BBB as issued by Standard & Poor's or Baa2 as issued by Moody's Investors Service. For the Series 2015G, 2015H, 2016C, 2016D and 2017D Swap Agreements only, the rating on the respective Series 2015G, 2015H, 2016C, 2016D and 2017D Bonds would have to drop below A2 from Moody's, below A from S&P and below A from Fitch for any collateral posting requirements to be imposed upon the Authority under such agreements. The collateral posted is to be in the form of U.S. Treasury securities in the amount of the fair value of derivative instruments in liability positions. If the Authority does not post collateral, the derivative instrument may be terminated by the counterparty. As of December 31, 2018 and 2017, the aggregate fair value of all derivative instruments in liability positions with these collateral posting provisions, based on their stated fixed rates, is approximately \$98,469 and \$131,687, respectively. If the collateral posting requirements were triggered as of December 31, 2018 and 2017, the Authority would be required to post \$98,469 and \$131,687, respectively, in collateral to its counterparties. The Authority's credit rating is A2 Moody's, A+ S&P and A Fitch; therefore, no collateral has been posted as of December 31, 2018 or 2017, respectively.

(c) **Hybrid Instrument Borrowings**

The interest rate swaps hedging the series noted below include fixed rates that were off-market at the execution of the interest rate swaps or current hedging relationship. For financial reporting purposes these interest rate swaps are considered hybrid instruments and are allocated between borrowings with an aggregate original amount of \$131,666 and \$209,431 as of December 31, 2018 and 2017, respectively, reflecting the difference between the fair value of the instrument at execution and an interest rate swap with a fixed rate that was considered at-the-market at execution. Activity for the hybrid instrument borrowings for the years ended December 31, 2018 and 2017 was as follows:

		December 31, 2017	Reidentifications	Additions/ Reductions	December 31, 2018	Current portion
Hybrid instrument borrowings:						
Series 2013 B	\$	4,556	—	(4,556)	—	—
Series 2013 C1		5,557	—	(5,557)	—	—
Series 2013 C2		6,896	—	(6,896)	—	—
Series 2015A		8,740	—	(1,213)	7,527	1,222
Series 2015B		5,248	—	(726)	4,522	734
Series 2015C		4,509	—	(626)	3,883	632
Series 2015D		4,517	—	(626)	3,891	633
Series 2015F		8,901	—	(1,737)	7,164	1,759
Series 2016B		8,914	—	(1,431)	7,483	1,453
Series 2017C1		45,888	—	(622)	45,266	3,453
Series 2017C2		30,605	—	(415)	30,190	2,303
Series 2017D1		8,715	—	(244)	8,471	1,358
	\$	143,046	—	(24,649)	118,397	13,547

		December 31, 2016	Reidentifications	Additions/ Reductions	December 31, 2017	Current portion
Hybrid instrument borrowings:						
Series 2013 B	\$	9,090	—	(4,534)	4,556	4,556
Series 2013 C1		11,088	—	(5,531)	5,557	5,555
Series 2013 C2		13,758	—	(6,862)	6,896	6,895
Series 2013D		9,956	(8,715)	(1,241)	—	—
Series 2015A		9,606	—	(866)	8,740	1213
Series 2015B		5,966	—	(718)	5,248	726
Series 2015C		5,129	—	(620)	4,509	626
Series 2015D		5,137	—	(620)	4,517	626
Series 2015F		10,618	—	(1,717)	8,901	1,737
Series 2016B		8,954	—	(40)	8,914	1432
Series 2017C1 (1)		—	45,888	—	45,888	246
Series 2017C2 (1)		—	30,605	—	30,605	622
Series 2017D1		—	8,715	—	8,715	415
	\$	89,302	76,493	(22,749)	143,046	24,649

- (1) During 2017, the Authority amended the variable rate received on its derivative instruments previously considered investments under GASB 53. Since the variable rate received is now based on the same index as the interest rate on the hedged bonds, the derivative instruments are now considered effective under GASB 53 and are reported within the hybrid instrument borrowing balance for the Authority.

The following table sets forth as of December 31, 2018, payments of principal and interest on the hybrid instrument borrowings for the next five years and thereafter. The total payments generally reflect the difference between the stated fixed rate of the hybrid instrument and the at-the-market fixed rate at the execution of the instrument or current hedging relationship.

	Principal	Interest	Total
December 31:			
2019	\$ 13,547	1,731	15,278
2020	13,735	1,543	15,278
2021	13,926	1,352	15,278
2022	14,119	1,159	15,278
2023	12,470	962	13,432
2024-2028	37,009	2,693	39,702
2029-2031	13,591	326	13,917
	<u>\$ 118,397</u>	<u>9,766</u>	<u>128,163</u>

(8) Debt Compliance

The Revenue Requirement under Section 713(b) of the Turnpike Revenue Bond Resolution states that in each calendar year, Net Revenues shall at least equal the Net Revenue Requirement for such year. Under Section 101 of said Resolution, Net Revenues are defined as “for any calendar year or other period of time, the Pledged Revenues during such year or period less the amounts of the Operating Expenses for such year or period.” The Net Revenue Requirement means with respect to any period of time, “an amount equal to the greater of (i) the sum of Aggregate Debt Service, Maintenance Reserve Payments, Special Project Reserve Payments and payments, if any, to the Charges Fund for such period or (ii) 1.20 times the Aggregate Debt Service for such period (excluding, for the purposes of clause (ii) only, any payment due and payable by the Authority under a Qualified Swap upon an early termination thereof).”

The net revenue requirement was met under test (i) and (ii) above for 2018 and 2017 as follows:

	2018	2017
(i):		
Net revenue available for Debt Service	\$ 1,322,019	1,290,374
Less net revenue requirements computed under test (the sum of aggregate debt service, maintenance reserve, special project reserve and charges fund payments)	(948,054)	(979,546)
Excess net revenue	<u>\$ 373,965</u>	<u>310,828</u>
(ii):		
Net revenue available for Debt Service	\$ 1,322,019	1,290,374
Less net revenue requirements computed under test (120% x aggregate debt service requirements of \$788,478 and \$822,984 in 2018 and 2017, respectively)	(946,174)	(987,581)
Excess net revenue	<u>\$ 375,845</u>	<u>302,793</u>

The debt service coverage ratio (Net Revenue divided by Debt Service) was 1.68 and 1.57 in 2018 and 2017, respectively.

(9) Changes in Long-Term Liabilities

Long-term liabilities primarily include bonds payable (note 6), hybrid instrument borrowing and interest rate SWAP liabilities (recorded as per GASB 53 and detailed in note 7), other long-term obligations, other postemployment benefit (OPEB) liability (recorded as per GASB 75 and detailed in note 12), and net pension liability (recorded as per GASB 68 and detailed in note 13). Other long-term obligations include pollution remediation liability (note 10), self-insurance liability (note 13), a reserve for E-Z Pass tag swap to cover the costs of a program which periodically replaces New Jersey E-Z Pass customer transponders that have reached the end of their useful lives, and other reserves which mainly includes reserves for future self-insured claim settlements. In addition, other long-term liabilities include pension - employer contribution which represents pension expenses for 6 months (July 1, 2018 - December 31, 2018) that are not payable within a year, compensated absences which cover employees accrued sick and vacation banks, and other liabilities which mainly includes FICA tax and arbitrage liabilities.

The chart below shows the additions to and reductions from the above-mentioned categories of long-term liabilities and the balances as of December 31, 2018 and 2017, respectively.

	December 31, 2017	Additions	Reductions	December 31, 2018	Current portion
Bonds payable, net	\$ 11,610,729	—	(278,841)	11,331,888	201,025
Hybrid instrument borrowing	143,046	—	(24,649)	118,397	13,547
Interest rate swap liabilities	20,914	104	(14,280)	6,738	—
Other long-term obligations:					
Pollution remediation liability	23,938	1,219	(1,465)	23,692	5,755
Self-insurance	41,342	2,524	(9,014)	34,852	—
Reserve for E-ZPass tag swap	17,339	4,830	(7,693)	14,476	—
Other Reserves	18,424	9,294	(9,250)	18,468	—
Pension - Employer Contribution	—	12,185	—	12,185	—
Compensated absences	16,227	2,690	(1,661)	17,256	4,181
Other liabilities	2,572	293	(141)	2,724	—
Other postemployment benefits	494,098	1,246,815	—	1,740,913	—
Net pension liability	438,493	—	(72,894)	365,599	—
Total	<u>\$ 12,827,122</u>	<u>1,279,954</u>	<u>(419,888)</u>	<u>13,687,188</u>	<u>224,508</u>

	December 31, 2016	Additions	Reductions	December 31, 2017	Current portion
Bonds payable, net	\$ 11,071,121	3,315,064	(2,775,456)	11,610,729	218,475
Hybrid instrument borrowing	89,302	85,208	(31,464)	143,046	24,649
Interest rate swap liabilities	29,190	10,908	(19,184)	20,914	—
Other long-term obligations:					
Pollution remediation liability	25,790	308	(2,160)	23,938	2,376
Self-insurance	42,516	11,107	(12,281)	41,342	—
Reserve for E-ZPass tag swap	20,035	3,500	(6,196)	17,339	—
Other Reserves	17,563	9,435	(8,574)	18,424	—
Compensated absences	18,219	19,040	(21,032)	16,227	3,573
Other liabilities	2,754	2	(184)	2,572	—
Other postemployment benefits	432,545	104,486	(42,933)	494,098	—
Net pension liability	561,453	—	(122,960)	438,493	—
Total	<u>\$ 12,310,488</u>	<u>3,559,058</u>	<u>(3,042,424)</u>	<u>12,827,122</u>	<u>249,073</u>

(10) Pollution Remediation Obligations

The Authority accounts for its pollution remediation obligations (PRO) in accordance with GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations* (GASB 49). As a result, the Authority has recorded in the statements of net position a PRO liability in the amount of \$23,692 and \$23,938 as of December 31, 2018 and 2017, respectively. The Authority's PRO liability is measured based on the expected costs of future activities, estimating a reasonable range of potential outlays and multiplying those outlays by their probability of occurring. The estimate of the liability does not include cost components that are not yet reasonably measurable.

The Authority owns numerous properties with environmental issues that meet the criteria for "obligating events" and disclosure under GASB 49. The matters relate to soil and groundwater contamination at various facilities along the Turnpike and Parkway including maintenance districts, toll facilities, service areas and other Authority owned facilities. The following table summarizes the Authority's expected outlays and payments for pollution remediation as of December 31:

	2018	2017
Right of Way	\$ 13,100	13,450
Service areas	9,233	9,252
Maintenance districts	802	748
Toll facilities	400	373
Other facilities	157	115
Liability for pollution obligations remediation	<u>\$ 23,692</u>	<u>23,938</u>

(11) Pension and Deferred Compensation

1) Plan description

Permanent full-time employees of the Authority are covered by the State of New Jersey Public Employees' Retirement System (PERS), a plan that has been characterized for financial accounting purposes as a cost-sharing multiple-employer defined benefit pension plan. PERS is a contributory defined-benefit plan established in January 1955, under the provisions of N.J.S.A. 43:15A to provide coverage to substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not a member of another State administered retired system. Membership is mandatory and vesting occurs after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The risks of participating in a cost-sharing multiple-employer plan are different from those of participating in a single-employer plan in the following aspects:

- Assets contributed to the multiple-employer plan by one employer may be used to provide benefits to employees of other participating employers.
- If a participating entity stops contributing to the multiple-employer plan, the unfunded obligations of the plan may be borne by the remaining participating entities.
- If an entity petitions to stop participating in the multiple-employer plan, the entity may be required to pay the plan a withdrawal liability based on the funded status of the plan.

These aspects of cost-sharing multiple-employer plan participation are consistent with the manner of administration of the PERS. These aspects are not required by law but are part of the PERS administrative practices. Neither the financial accounting treatment of the PERS, nor their administrative practices, nor this note shall be deemed a representation that the PERS are subject to any laws that require the multiple-employer plan attributes that are set forth above.

PERS issues a stand-alone financial report that is available to the public. The report may be accessed via the State of New Jersey's website at: <https://www.state.nj.us/treasury/pensions/documents/financial/gasb/gasb68-pers19.pdf>.

2) Benefits provided
A summary of the PERS eligibility requirements is as follows:

	TIER 1 (Enrolled before July 1, 2007)	TIER 2 (Eligible for enrollment on or after July 1, 2007 and before November 2, 2008)	TIER 3 (Eligible for enrollment on or after November 2, 2008 and on or before May 21, 2010)	TIER 4 (Eligible for enrollment after May 21, 2010 and before June 28, 2011)	TIER 5 (Eligible for enrollment on or after June 28, 2011)
PERS	Minimum base salary of \$1,500 required for PERS Tier 1 enrollment. IRS Annual Compensation Limit on maximum salary generally apply \$280,000 for 2019.	Minimum base salary of \$1,500 required for PERS Tier 2 enrollment. PERS salary limited to Social Security maximum wage \$132,900 for 2019. PERS members are eligible for participation in the Defined Contribution Retirement Program (DCRP) for salary over the maximum wage limit.	Minimum base salary required for PERS Tier 3 enrollment. \$8,400 for 2019. Employees with base salary between \$5,000 and current minimum PERS. Tier 3 salary are eligible for participation in the DCRP. PERS salary limited to Social Security maximum wage \$132,900 for 2019. PERS members are eligible for participation in the DCRP for salary over the maximum wage limit.	PERS Tier 4 enrollment requires a minimum of 35 hours per week for State Employees, or 32 hours per week for Local Government or Local Education Employees. No minimum salary requirement. Employees who do not work the minimum required hours but who earn base salary of at least \$5,000 are eligible for participation in the DCRP. PERS salary limited to Social Security maximum wage \$132,900 for 2019. PERS members are eligible for participation in the DCRP for salary over the maximum wage limit.	PERS Tier 5 enrollment requires a minimum of 35 hours per week for State Employees, or 32 hours per week for Local Government or Local Education Employees. No minimum salary requirement. Employees who do not work the minimum required hours but who earn base salary of at least \$5,000 are eligible for participation in the DCRP. PERS salary limited to Social Security maximum wage \$132,900 for 2019. PERS members are eligible for participation in the DCRP for salary over the maximum wage limit.
TPAF	Minimum base salary of \$500 required for TPAF Tier 1 enrollment. IRS Annual Compensation Limit on maximum salary generally apply \$280,000 for 2019.	Minimum base salary of \$500 required for TPAF Tier 2 enrollment. TPAF salary limited to Social Security maximum wage \$132,900 for 2019. TPAF members are eligible for participation in the DCRP for salary over the maximum wage limit.	Minimum base salary required for TPAF Tier 3 enrollment. \$8,400 for 2019. Employees with base salary between \$5,000 and current minimum TPAF Tier 3 salary are eligible for participation in the DCRP. TPAF salary limited to Social Security maximum wage \$132,900 for 2019. TPAF members are eligible for participation in the DCRP for salary over the maximum wage limit.	TPAF Tier 4 enrollment requires a minimum of 35 hours per week for State Employees, or 32 hours per week for Local Education Employees. No minimum salary requirement. Employees who do not work the minimum required hours but who earn base salary of at least \$5,000 are eligible for participation in the DCRP. TPAF salary limited to Social Security maximum wage \$132,900 for 2019. TPAF members are eligible for participation in the DCRP for salary over the maximum wage limit.	TPAF Tier 5 enrollment requires a minimum of 35 hours per week for State Employees, or 32 hours per week for Local Education Employees. No minimum salary requirement. Employees who do not work the minimum required hours but who earn base salary of at least \$5,000 are eligible for participation in the DCRP. TPAF salary limited to Social Security maximum wage \$132,900 for 2019. TPAF members are eligible for participation in the DCRP for salary over the maximum wage limit.
SERVICE RETIREMENT	Minimum age of 60, no minimum service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary.	Minimum age of 60, no minimum service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary.	Minimum age of 62, no minimum service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary.	Minimum age of 62, no minimum service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary.	Minimum age of 65, no minimum service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary.
DEFERRED RETIREMENT	Collectible at age 60, at least 10 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary	Collectible at age 60, at least 10 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary.	Collectible at age 62, at least 10 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary.	Collectible at age 62, at least 10 years of service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary.	Collectible at age 65, at least 10 years of service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary.
EARLY RETIREMENT	At least 25 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary. No minimum age; however, if under age of 55, the benefit is reduced 3 percent per year (1/4 of 1 percent per month) for each year under age 55.	At least 25 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary. No minimum age; however, if under age of 60, the benefit is reduced 1 percent per year (1/12 of 1 percent per month) for each year under age 60 but over age 55; and 3 percent per year (1/4 of 1 percent per month) for each year under age 55.	At least 25 years of service required. Annual Benefit = Years of Service ÷ 55 X Final Average (3 yrs.) Salary. No minimum age; however, if under age of 62, the benefit is reduced 1 percent per year (1/12 of 1 percent per month) for each year under age 62 but over age 55; and 3 percent per year (1/4 of 1 percent per month) for each year under age 55.	At least 25 years of service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary. No minimum age; however, if under age of 62, the benefit is reduced 1 percent per year (1/12 of 1 percent per month) for each year under age 62 but over age 55; and 3 percent per year (1/4 of 1 percent per month) for each year under age 55.	At least 30 years of service required. Annual Benefit = Years of Service ÷ 60 X Final Average (5 yrs.) Salary. No minimum age; however, if under age of 65, the benefit is reduced 3 percent per year (1/4 of 1 percent per month) for each year under age 65.
VETERAN RETIREMENT	At least 25 years of service at age 55 or older; or at least 20 years of service at age 60 or older. Annual Benefit = 54.5 percent X last year or highest 12 months of salary; or At least 35 years of service at age 55 or older. Annual Benefit = Years of Service ÷ 55 X Highest 12 Months of Salary.	At least 25 years of service at age 55 or older; or at least 20 years of service at age 60 or older. Annual Benefit = 54.5 percent X last year or highest 12 months of salary; or At least 35 years of service at age 55 or older. Annual Benefit = Years of Service ÷ 55 X Highest 12 Months of Salary.	At least 25 years of service at age 55 or older; or at least 20 years of service at age 60 or older. Annual Benefit = 54.5 percent X last year or highest 12 months of salary; or At least 35 years of service at age 55 or older. Annual Benefit = Years of Service ÷ 55 X Highest 12 Months of Salary.	At least 25 years of service at age 55 or older; or at least 20 years of service at age 60 or older. Annual Benefit = 54.5 percent X last year or highest 12 months of salary; or At least 35 years of service at age 55 or older. Annual Benefit = Years of Service ÷ 55 X Highest 12 Months of Salary.	At least 25 years of service at age 55 or older; or at least 20 years of service at age 60 or older. Annual Benefit = 54.5 percent X last year or highest 12 months of salary; or At least 35 years of service at age 55 or older. Annual Benefit = Years of Service ÷ 55 X Highest 12 Months of Salary.
ORDINARY DISABILITY RETIREMENT	If approved: Annual benefit = 43.6 percent X Final Average (3 yrs.) Salary.	If approved: Annual benefit = 43.6 percent X Final Average (3 yrs.) Salary.	If approved: Annual benefit = 43.6 percent X Final Average (3 yrs.) Salary.	NOT AVAILABLE: PERS Tier 4 members may be eligible for long-term disability insurance coverage.	NOT AVAILABLE: PERS Tier 5 members may be eligible for long-term disability insurance coverage.
ACCIDENTAL DISABILITY RETIREMENT	If approved: Annual Benefit = 72.7 percent X Annual Salary at time of accident.	If approved: Annual Benefit = 72.7 percent X Annual Salary at time of accident.	If approved: Annual Benefit = 72.7 percent X Annual Salary at time of accident.	NOT AVAILABLE: TPAF Tier 4 members may be eligible for long-term disability insurance coverage.	NOT AVAILABLE: TPAF Tier 5 members may be eligible for long-term disability insurance coverage.

3) Contributions

The contribution policy for PERS is set by N.J.S.A. 15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2018 and 2017, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. The Authority did not elect this option.

Covered Authority employees are required to contribute a percentage of their salary toward their pension benefits. P.L. 2011, c78, effective June 28, 2011, increased the active member contribution rate from 5.5% of annual compensation to 6.5% plus an additional 1% phased in over 7 years. The payment of automatic cost of living adjustment (COLA) additional increases to current and future retirees and beneficiaries was suspended. COLA increases may be reactivated at a future date as permitted by this law. Employee contributions were \$9,745 and \$9,478 for the years ended December 31, 2018 and 2017, respectively. The percentage of employee's contribution rate as a percentage of covered payroll for 2018 and 2017 was 7.42%, and 7.27%, respectively. The payroll subject to pension for the Authority's employees covered by PERS was approximately \$131,300 and \$130,400 for the years ended December 31, 2018 and 2017. The Authority's total payroll for the years ended December 31, 2018 and 2017 was approximately \$165,000 and \$162,000, respectively.

The Authority is required by statute to contribute to the employee's pension benefits based on an annual actuarial calculation. The valuation is a determination of the financial condition of the retirement system. The PERS employer pension contribution rates were 13.37% and 12.91% for the years ended December 31, 2018 and 2017, respectively. The Authority's required annual contributions to the PERS were \$18,469 and \$17,450 for the years ended December 31, 2018 and 2017, respectively. The percentage of employer's contribution rate as a percentage of total payroll for 2018 and 2017 was 11.19% and 10.77%, respectively. The Authority's required annual contributions represent less than 2% of total contributions by municipalities and local groups to the PERS.

Pension expense recognized in accordance with the requirements of GASB 68 was \$15,748 and \$28,185 at December 31, 2018 and 2017, respectively.

4) Net Pension Liability and Deferred Outflows/Inflows of Resources Related to Pensions

December 31, 2018 and 2017, the Authority reported a liability of \$365,599 and \$438,493, respectively, for its proportionate share of the collective PERS net pension liability. The net pension liability was measured as of June 30, 2018 and June 30, 2017, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017 and July 1, 2016, respectively with amounts rolled forward to the measurement date using update procedures. For purposes of measuring the net pension liability, the plan's fiduciary net position has been determined on the same basis as they are reported for PERS. Benefit payments are recognized when due and payable in accordance with the benefit terms and investments are measured at their fair value. At June 30, 2018, the Authority's proportion of the total plan was 1.10%, which was a decrease of 0.09% from 1.19% which was the Authority's proportion measured as of June 30, 2017. The employer allocation percentages are based on the ratio of the contributions of an individual employer to the total contributions to PERS during the measurement period. At December 31, 2018 and 2017, respectively, the Authority reported deferred outflows and deferred inflows of resources related to pensions from the following sources:

	2018		2017	
	Deferred outflows of resources	Deferred inflows of resources	Deferred outflows of resources	Deferred inflows of resources
Differences between expected and actual experience	\$ 6,972	1,885	10,325	—
Net difference between projected and actual earnings on pension plan investments	—	3,429	2,986	—
Changes in employer proportion	—	12,791	—	11,249
Changes in assumptions	60,245	116,899	88,341	88,018
Employer contribution made subsequent to the measurement date	9,235	—	8,726	—
Total	\$ 76,452	135,004	110,378	99,267

Included in deferred outflows of resources related to pensions at December 31, 2018 and 2017 is \$9,235 and \$8,726, respectively, from contributions made by the Authority subsequent to the respective measurement date that will be recognized as a reduction of the net pension liability in the following fiscal year. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>2018</u>
Year ended June 30:	
2019	\$ (1,981)
2020	(7,389)
2021	(27,603)
2022	(23,143)
2023	(7,671)
Total	<u>\$ (67,787)</u>

5) Significant Assumptions and Other Inputs Used to Measure Total Pension Liability

The collective total pension liability for the June 30, 2018 and 2017 measurement date was determined by an actuarial valuation as of July 1, 2017 and 2016, respectively, which was rolled forward to June 30, 2018 and 2017. The respective actuarial valuations used the following actuarial assumptions.

	<u>2018 and 2017</u>
Inflation rate	2.25%
Salary increases:	
Through 2026	1.65 – 4.15% based on age
Thereafter	2.65 – 5.15% based on age
Investment rate of return	7.00%

2018

Preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Postretirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 and 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

2017

For the July 1, 2016 valuation, preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Post-retirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members and a one-year static projection based on mortality improvement Scale AA. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from the base year of 2013 using a generational approach based on the plan actuary's modified MP-2014 projection scale. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

The actuarial assumptions used in the July 1, 2017 and 2016 valuations were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on the future financial statements.

(a) *Long-Term Expected Rate of Return*

The long-term expected rate of return was 7.00% for the June 30, 2018 and 2017 valuations. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 and 2017 are summarized in the following table:

Asset class	2018 and 2017	
	Target allocation	Long-term expected real rate of return
Absolute return/risk mitigation	5.00%	5.51%
Cash equivalents	5.50	1.00
U.S. Treasuries	3.00	1.87
Investment grade credit	10.00	3.78
High yield	2.50	6.82
Global diversified credit	5.00	7.10
Credit oriented hedge funds	1.00	6.60
Debt related private equity	2.00	10.63
Debt related real estate	1.00	6.61
Private real asset	2.50	11.83
Equity related real estate	6.25	9.23
U.S. equity	30.00	8.19
Non-U.S. developed markets equity	11.50	9.00
Emerging markets equity	6.50	11.64
Buyouts/venture capital	8.25	13.08

(b) *Discount Rate*

2018

The discount rate used to measure the total pension liability was 5.66% as of June 30, 2018. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.87% as of June 30, 2018 based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

2017

The discount rate used to measure the total pension liability was 5.00% as of June 30, 2017. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% and a municipal bond rate of 3.58% as of June 30, 2017 based on the Bond Buyer GO 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 40% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2040. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2040 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

(c) *Sensitivity of the Authority's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate*

The following presents the Authority's proportionate share of the net pension liability of the participating employers as of June 30, 2018 and 2017, respectively, calculated using the discount rate as disclosed above as well as what the proportionate net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

		Current	
	1% Decrease	discount rate	1% Increase
2018 (4.66%, 5.66%, and 6.66%)	\$ 459,699	365,599	286,656
2017 (4.00%, 5.00%, and 6.00%)	\$ 543,981	438,493	350,609

Deferred Compensation Plan

The Authority adopted the New Jersey Turnpike Authority Employees' Deferred Compensation Plan (Deferred Compensation Plan) effective as of January 1, 1999, in accordance with the provisions of Section 27:23-1, et seq., of the New Jersey Revised Statutes and as provided in Section 457 of the Internal Revenue Code of 1986, as amended (Code). The Deferred Compensation Plan was amended and restated effective as of December 6, 2018. All permanent employees are eligible to participate in the plan, which permits participants to defer annually a portion of their salary. The Authority does not make any contributions to the plan. Employees of the South Jersey Transportation Authority and the Burlington County Bridge Commission are also eligible to participate in the plan. All amounts of compensation deferred under the plan, all property and rights purchased with these amounts, and all income attributable to these amounts, property, or rights are solely the property of the employees.

(12) Postemployment Benefits Other Than Pensions (OPEB)

1) Plan description

The Authority provides medical, prescription drug, vision, dental and Medicare Part B reimbursement to retirees and their covered dependents, in accordance with the terms of the applicable collective bargaining agreements or Authority personnel policies for non-bargaining unit members. The Authority maintains single employer, self funded health plans administered by third party claims administrators. All active employees who retire from the Authority and meet the eligibility criteria will receive these benefits.

The Authority establishes and has the power to amend benefits and contribution obligations, subject to collective bargaining agreements to the extent they do not conflict with P.L.2012, Chapter 78 mandated by the State of New Jersey (effective June 28, 2011).

2) Benefits provided

The Authority provides medical, prescription drug, vision, dental and Medicare Part B reimbursement to retirees and their dependents. Certain retirees (those with less than 20 years of service at June 28, 2011) will be required to contribute under P.L. 2012, Chapter 78 mandated by the State of New Jersey (effective June 28, 2011). For the years ended December 31, 2018 approximately 264 contributed to their healthcare cost, in accordance with the provisions of agreements in effect at the time of their retirement and P.L. 2011, Chapter 78.

The Authority currently funds the cost to provide OPEB on a pay-as-you-go basis.

3) Plan membership

At December 31 2017, the measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	2,074
Inactive employees entitled to but not yet receiving benefit payments	—
Active employees	1,958
	<u>4,032</u>

4) Total OPEB liability

The Authority's total OPEB liability as of December 31, 2018 of \$1,740,913 was measured as of December 31, 2017, and was determined by actuarial valuations using data as of that date. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.00%
Salary increases	3.00%
Discount rate	3.44%
Healthcare cost trend rates	
Pre Medicare Medical	9.00% grading down to 4.50% over 18 years
Post Medicare Medical	8.00% grading down to 4.50% over 14 years
Prescription drug	8.50% grading down to 4.50% over 16 years
Dental and Vision	4.00%
Medicare Part B reimbursement	1.12%, then 5.00% thereafter

The discount rate was based on a yield of index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as shown in the Bond Buyer 20-Bond General Obligation Index.

Mortality rates are based on RP-2000 Combined Healthy and Disabled Mortality Tables for males and females, as appropriate, with adjustments for mortality improvement. Non-Annuitant mortality rates are based on RP-2000 Combined Healthy Male and Female Mortality Tables set back 4 years for both males and females. Healthy Annuitant mortality rates are based on RP-2000 Combined Healthy Male and Female Mortality Tables set back 1 year for both males and females and a one year static projection based on mortality improvement Scale AA. Disabled Annuitant mortality rates are based on RP-2000 Disabled Mortality Table set back 3 years for males and set forward 1 year for females. The underlying tables reasonably reflect the mortality experience of the Plan as of the measurement date. These mortality tables were then adjusted to future years from base year 2013 using a generational projection based on the Conduent Modified 2014 projection scale to reflect future mortality improvement between the measurement date and those years.

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of a 3-year actuarial experience study as of June 30, 2014.

Changes in the total OPEB liability

	Total OPEB Liability
Balance as of December 31, 2017	\$ 494,098
Cumulative effect on opening net position	1,059,526
Deferred outflow - subsequent contributions	42,933
Balance at January 1, 2018	<u>\$ 1,596,557</u>
Changes for the year:	
Service cost	42,623
Interest	61,150
Differences between expected and actual experience in the total OPEB liability	89,887
Changes in assumptions or other inputs	(6,371)
Benefit payments, including refunds of member contributions	(42,933)
Net changes	<u>144,356</u>
Balance at December 31, 2018	<u><u>\$ 1,740,913</u></u>

The net change in total OPEB liability for the year ended December 31, 2018 was \$144,356. The difference between expected and actual expenses increased the total OPEB liability by \$89,887 as claims experience and the trends on those claims updated based on recent experience and future expectations. Valuation assumption changes decreased the total OPEB Liability by \$6,371. This was a net result of (1) a decrease in obligations due to revising the valuation-year per capita health costs and future trend on such costs, and (2) an increase due to lowering the discount rate.

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the total OPEB liability of the Authority, as well as what the Authority's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.44%) or 1-percentage-point higher (4.44%) than the current discount rate:

	1% Decrease	Current Discount Rate	1% Increase
Net OPEB liability (2.44%, 3.44%, 4.44%)	\$ 2,066,098	1,740,913	1,483,829

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates

The following presents the total OPEB liability of the Authority, as well as what the Authority's total OPEB liability would be if it were calculated using health care cost trend rates that are 1-percentage-point lower (8.00% decreasing to 0.12%) or 1-percentage-point higher (10.00% percent decreasing to 2.12%) than the current healthcare cost trends

	1% Decrease	Current Health Care Cost Trend Rates	1% Increase in Health Care Cost Trend Rates
Net OPEB liability			
(8%-0.12%, 9%-1.12%, 10%-2.12%)	\$ 1,462,736	1,740,913	2,101,581

5) OPEB expense and deferred outflows of resources and deferred in flows of resources related to OPEB

For the year ended December 31, 2018, the Authority recognized OPEB expense of \$118,901. At December 31, 2018, the Authority reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflow of Resources	Deferred Inflows of Resources
Difference between expected and actual experience in the		
Total OPEB Liability	\$ 73,603	—
Changes of assumptions or other inputs	—	5,217
Retiree Health Benefits Payments Subsequent to		
Measurement Date	45,901	—
Total	<u>\$ 119,504</u>	<u>5,217</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	2018
Year ended December 31:	
2019	\$ 15,130
2020	15,130
2021	15,130
2022	15,130
2023	7,866
Total	<u>\$ 68,386</u>

(13) Risk Management and Self-Insurance

The Authority is exposed to variety of risks such as theft, damage to and destruction of its infrastructure, natural disasters and injuries to employees during regular business operations. To mitigate these types of risks and others, the Authority maintains a robust insurance program which includes self-insurance for workers compensation, auto and general liability and a comprehensive owner controlled insurance program (OCIP) for certain construction contracts included in the Authority's \$7 Billion CIP.

The Authority is self-insured for its workers compensation, auto and general liability risks. The Authority does purchase excess liability insurance coverage to partially mitigate its self-insured risk for large claims related to its workers compensation, auto and general liability risks.

From 2009 to 2017, the Authority provided general liability and workers compensation coverage, as well as other insurance coverages, for construction contracts included in the Authority's \$7 Billion Capital Improvement Program, for the benefit of the Authority and its contractors, subcontractors, consultants and sub-consultants at customary ranges of coverage limits and self-insured retentions and/or deductibles. The Authority ceased enrolling new contracts in its OCIPs in 2014, and ceased providing coverage after July 15, 2017, but the OCIP programs still administer general liability, workers compensation and other claims related to prior coverage periods. After July 15, 2017, the contractors and the consultants provide their own coverage. Similar to its workers compensation, auto and general liability risks, the Authority self-insures its risks under the OCIP program, and purchased excess liability insurance coverage to mitigate large claim exposure.

In addition to the aforementioned, the Authority insures other selected risks by purchasing commercial crime insurance, cyber liability insurance, fiduciary insurance, aviation insurance, and public official and employment practices liability insurance.

Finally, the Authority is self-insured for the cost of providing health benefits to its employees and retirees. These benefits include medical, prescription, dental and vision. The Authority does purchase excess liability insurance for employee health benefits (stop loss) to mitigate large claim risk.

The following chart provides additional information as to risks insured for the protection of the Authority, and deductibles/self-insured retentions. Certain defined risks are subject to sub-limits and more specific deductibles/self-insured retentions and all insurances are subject to terms and conditions as set forth in the policies.

Type of insurance coverage	Deductible/retention
Excess Liability (general liability)	\$ 2,000 per occurrence (\$3,000 aggregate)
Excess Liability (automobile liability)	5,000 per occurrence
Excess Liability (State police)	2,000 per occurrence
Bridge and Property (1)	2,000 per occurrence
Commercial Crime	75 per occurrence
Cyber Insurance	250 per occurrence
Excess Employee Medical Benefits	350 per claimant
Public Official and Employment Practices Liability	500 per occurrence
Professional Liability Insurance Architects & Engineers	per claim for project values up to 100 \$500,000 and 250 per for claim project values greater than \$500,000
Excess Workers Compensation & Employers Liability	1,250 per occurrence

- (1) Bridge and property insurance includes business interruption insurance which is subject to a two-day waiting period with respect to approximately 53% of the pro-rata share of the primary policy insurers and a five day waiting period with respect to approximately 47% of the pro-rata share of the primary policy insurers. In the event a covered loss continues beyond the respective waiting periods, coverage starts from the first day of the loss, subject to the \$2,000 deductible.

On January 20, 2017, the Delaware River Turnpike Bridge between New Jersey and Pennsylvania, which permits traffic on the Authority's Pearl Harbor Memorial Turnpike Extension to connect with the Pennsylvania Turnpike, was fully closed for emergency repairs. After the completion of certain repairs and extensive examination and testing, the bridge was fully reopened to traffic on March 9, 2017. In December 2017, the Authority filed a claim under its Bridge and Property Insurance, including business interruption insurance, for all physical damage costs, related extra expenses and lost revenue due to the damage and subsequent closure of the Delaware River Turnpike Bridge. As of December 31, 2018, the Authority has recovered \$6,000 from its Bridge and Property insurance carriers for property damage and business interruption in connection with this event. The Authority is working closely with the insurance companies to recover the remaining amount of this claim.

Claim liabilities are recorded when it is probable that a loss occurred and the amount of that loss can be reasonably estimated. The liabilities include a provision for case reserves as well as incurred but not reported and future development of known cases. The following tables present the changes in claims liabilities for the years ended December 31, 2018 and 2017:

	December 31, 2017	Change in estimate	Payments	December 31, 2018
General liability	\$ 4,248	(1,649)	(267)	2,332
Auto liability	1,161	948	(709)	1,400
Workers' compensation	22,260	2,978	(4,792)	20,446
Owner controlled insurance program (OCIP)	13,673	247	(3,246)	10,674
Total	<u>\$ 41,342</u>	<u>2,524</u>	<u>(9,014)</u>	<u>34,852</u>

	December 31, 2016	Change in estimate	Payments	December 31, 2017
General liability	\$ 4,061	2,522	(2,335)	4,248
Auto liability	1,091	671	(601)	1,161
Workers' compensation	21,645	5,272	(4,657)	22,260
Owner controlled insurance program (OCIP)	15,719	2,642	(4,688)	13,673
Total	<u>\$ 42,516</u>	<u>11,107</u>	<u>(12,281)</u>	<u>41,342</u>

(14) Blended Component Unit - Garden State Arts Foundation, Inc.

The Garden State Arts Foundation, Inc. (formerly known as the Garden State Arts Center Foundation) was established in 1984 pursuant to the provisions of Title 15A, Corporations-Non-Profit, of the New Jersey State Statutes. The purpose of the Foundation is to receive contributions from the public or other entities, engage in such fundraising activities as the members deem appropriate, fund and administer an annual scholarship program to provide scholarships to students pursuing an undergraduate degree with a performing arts concentration at four-year New Jersey colleges and universities, support the study of performing arts in New Jersey and support educational and charitable activities. The Foundation provides free entertainment at the PNC Bank Arts Center and various outreach locations throughout the State of New Jersey for New Jersey's senior citizens, school children, and other deserving residents. The Foundation's members include the Commissioners of the New Jersey Turnpike Authority. The Foundation is qualified as a tax-exempt organization as defined by Section 501(c) (3) of the Internal Revenue Code.

The condensed statements of net position and statements of revenues, expenses, and changes in net position of the Foundation as of and for the years ended December 31, 2018 and 2017 are as follows:

Summary of Net Position

(15) Litigation

The Authority is a party to various legal actions and regulatory reviews arising in the ordinary course of its operations which includes investigation, remediation of existing and projected action level environmental conditions. The Authority is contingently liable under pending lawsuits and claims, relating principally to construction programs and personal injury claims, in which the Authority is named a defendant. The Authority is also subject to regulatory directives or environmental claims by third parties to investigate and/or remediate suspected or known contamination that is claimed to be the Authority's responsibility. The Authority believes the aggregate liability of the Authority under such actions, even if adversely determined, would not have a material adverse effect on the financial position of the Authority; and sufficient funds are expected to be available to satisfy any payments required in connection therewith.

In 2017, a Petition for Rule Change seeking to have the Authority revoke its rule imposing an administrative fee in connection with collecting unpaid tolls from toll violators of the Turnpike and Parkway was filed with the Authority. In the Petition, the petitioners argue that the administrative fee is unreasonable and therefore not authorized by the Act. The Petition also includes a demand for a refund of the administrative fees collected by the Authority to the extent unreasonable, which amount the petitioners claim is nearly \$200,000. After reviewing

a financial analysis of the costs of processing, prosecuting and collecting unpaid tolls from toll violators, the Authority concluded that the administrative fee is reasonable and consistent with the Act and, in a written response dated October 18, 2017, the Executive Director of the Authority denied the Petition. On December 1, 2017 the petitioners filed an appeal of that denial with the Appellate Division of the Superior Court of the State of New Jersey and, as of the date hereof, the parties have completed their submission of written briefs to the Appellate Division and an oral argument was held during the week of February 4, 2019. In connection with such appeal, the Authority intends to vigorously defend its conclusion that the administrative fee is reasonable and consistent with the Act. Additionally, the Authority believes that, in the unlikely event that a court should ultimately rule that some portion of the administrative fee is not reasonable and must be refunded by the Authority, the aggregate amount required to be refunded would be substantially less than the amount claimed by the petitioners given that the total aggregate amount of administrative fees collected by the Authority since the fee is substantially less than \$200,000.

On December 1, 2017, the law firm representing the petitioners also filed a class action lawsuit in the United States District Court for the District of New Jersey alleging, among other things, that the administrative fee violates the Fair Debt Collections Practices Act (FDCPA) and the Eighth Amendment to the United States Constitution. With the agreement of the parties, on January 17, 2018, the Court issued an order staying this lawsuit pending the resolution of the appeal with the Appellate Division of the Superior Court of the State of New Jersey described above. If and when this lawsuit is reactivated, the Authority intends to vigorously defend its conclusion that the administrative fee does not violate the FDCPA or the United States Constitution.

The Authority is defending several lawsuits arising from operations of the New Jersey State Police (State Police) assigned to provide police services on the Turnpike and the Parkway pursuant to the Authority's contract with the State Police. The contract includes an indemnification provision requiring the Authority to defend and indemnify State troopers individually, as well as the State Police and the State, against claims related to their conduct in the course of their duties. The Authority, under the indemnification provisions of the contract, may be responsible for a State trooper's liability for negligent acts, but not for intentional wrongful acts or acts beyond the scope of such trooper's employment. The Authority believes the aggregate liability of the Authority under such actions, if adversely determined, would not materially adversely affect the financial position of the Authority and sufficient funds are expected to be available to satisfy any payments required in connection therewith.

With respect to the Authority generally, soil contamination, groundwater contamination and/or solid waste found on off-site properties, Authority properties, and properties for which the Authority has assumed remediation responsibility, as well as waterway contamination that is alleged to have resulted from operations conducted at Parkway facilities, have resulted in claims against the Authority and may lead to additional claims in the future. Claims for reimbursement of remediation costs and other alleged damages have been asserted or may be forthcoming from other parties responsible for undertaking remediation activities at these properties. As a result, it may be necessary for the Authority to undertake, fund or reimburse others for remediation activities at these properties. The Authority believes the ultimate resolution of these claims will not have a material adverse impact on the financial position of

the Authority. As to environmental regulatory compliance expenditures, such costs are also not expected to have a material adverse impact on the financial position of the Authority.

(16) Related Parties

Under the regular course of operations, the Authority enters into various agreements with the State of New Jersey (the State). A summary of transactions with the State in 2018 and 2017 is as follows:

	December 31	
	2018	2017
Due from the State - Project reimbursements	\$ 2,158	2,693
Due to the State - Potential unemployment claims	\$ 2,831	2,843
Payments to the State - Operating expenses		
State police services	\$ 71,989	60,808
PERS billing	18,469	17,450
Other State payments	641	668
Total payments to the State - Operating expenses	\$ 91,099	78,926
Payments to the State - Nonoperating expenses		
Transportation Trust Fund Agreement	\$ 22,000	22,000
State Transportation Projects Funding Agreement (2016-2021)	166,500	204,000
Feeder Road Maintenance Agreement	4,500	6,500
Total payments to the State - Nonoperating expenses	\$ 193,000	232,500
Payments to the State - Capitalized expenses		
State police services	\$ —	5,625

From time to time the Authority enters into various memorandums of agreement with the State that cover cost-sharing or cost-reimbursement work, for various construction projects, including a pass-through of Federal funding. These agreements generally require the Authority to invoice the State for its share of the construction or engineering work performed under the agreements.

The Authority is a participating employer in the State's Unemployment Insurance program and reimburses the State for unemployment claims made by its eligible former employees.

The Authority has an agreement with the State's Department of Law and Public Safety (State Police) to patrol the Turnpike and the Parkway. As per this agreement the Authority makes payments for the State Police services received. These payments include, but are not limited to salary and overtime expenses, travel expenses, training costs, health benefit costs, fringe benefits and other indirect costs. In 2017, a portion of these payments made to the State Police were charged back to capital projects based on the State Police services provided to specific capital and construction projects in progress that year. During 2018, no payments made to the

State Police were charged to capital projects based upon the type of State Police services provided during the year.

The Authority is a participating employer in the State's PERS plan and annually contributes the employer's portion as billed by the State (note 11).

Under the terms of an agreement dated April 27, 1984 and amendments dated August 1, 1995 and March 27, 2000, the Authority makes annual payments to the State of New Jersey to assist in transportation purposes. These payments are \$22,000 annually and are due until all obligations of the New Jersey Transportation Trust Fund Authority, as set forth in the 2000 Amendment, are paid for or such payment has been provided for. The payments are made from the General Reserve Fund and are subordinate to debt service payments on all outstanding bonds and all other obligations under the Authority's General Bond Resolution.

On June 28, 2016, the Authority entered into a new State Transportation Funding Agreement with the Treasurer of the State of New Jersey. Under this new Funding Agreement, the Authority will make payments to the State of New Jersey to be used for statewide transportation purposes for a five year period which began on July 1, 2016 and ends on June 30, 2021. The agreement was amended in October 2018 to provide an additional one-time \$25,000 payment in State fiscal 2019 (Authority calendar year 2019). The Authority has and will make annual payments, payable quarterly, of \$204,000 per year in the State fiscal years June 30, 2017 and 2018, \$154,000 in the State fiscal year 2019, and \$129,000 per year in the State fiscal years 2020, and 2021. The total payments over the five-year period will be \$820,000. The payments totaled \$166,500 and \$204,000 in calendar years 2018 and 2017, respectively. The payments are made from the General Reserve Fund and are subordinate to debt service payments on all outstanding bonds and all other obligations under the Authority's General Bond Resolution.

The Authority also made annual payments to the State totaling \$4,500 in 2018 and \$6,500 in 2017 for feeder road maintenance provided by the New Jersey Department of Transportation. The Authority entered into a Feeder Road Maintenance and Cost Sharing Agreement with the State for the period July 1, 2016 through June 30, 2023, a term of seven years. Under the terms of the Feeder Road Agreement, the State will continue to reconstruct, maintain and repair 280 miles of feeder roads leading to 20 interchanges on the New Jersey Turnpike and 36 interchanges on the Garden State Parkway. The Authority will reimburse the State on an annual basis, payable quarterly, \$8,000 in the State fiscal year 2017, \$5,000 in the State fiscal year 2018, \$4,000 in the State fiscal year 2019, \$2,750 in the State fiscal year 2020, and \$2,500 in State fiscal year 2021, 2022 and 2023, for a total of \$27,250 over the seven-year term. This Feeder Road Agreement replaced a prior agreement for the period July 1, 2015 - June 30, 2016 under which the Authority made an annual payment of \$8,000, payable quarterly, for feeder road maintenance work performed by the State.

(17) Commitments

The Authority has open commitments related to construction contracts totaling approximately \$352,979 and \$469,876 as of December 31, 2018 and 2017, respectively. This work relates to the Authority's \$7 Billion Capital Improvement Program and will be completed over the next several years.

On December 7, 2017, the Authority entered into a 25-year lease agreement with Live Nation Worldwide, Inc. (tenant), which commenced on January 1, 2018, to lease the Amphitheater located at PNC Bank Arts Center. As per the agreement, the tenant is responsible to pay the greater of the minimum fixed rent or a percentage rental amount based on sales for each lease year. In addition, the tenant has agreed to fund capital improvements to the Amphitheater in the amount of \$11,000 payable in equal installments of \$2,750 starting on March 1, 2018 and ending on March 1, 2021. As per the agreement, the Authority is committed to deposit an equal amount towards capital improvements within 30 days after the tenant makes its payment. Both the Authority's and the Tenant's payments are deposited into a joint bank account held by the Authority.

(18) Service Area Agreements

On September 12, 2017, the Authority entered into a 27 year agreement with HMS Host Tollroads Inc. (HMS) and a 25 year agreement with Sunoco Retail LLC (Sunoco) for the operation and remodeling of service areas along the Turnpike and the Parkway. On the Turnpike, HMS operates the food concessions at all twelve service areas and Sunoco provides gasoline, diesel fuel and minor repair services at all service areas. On the Parkway, HMS operates five service areas and Sunoco provides gasoline, diesel fuel and minor repair services at nine service areas.

The agreement allows HMS to provide food services at the Authority service areas in exchange for the greater of a minimum annual guaranteed payment or a percentage of gross sales, and a significant additional contribution to rebuild eight new restaurant buildings and refurbish six existing restaurant buildings. The HMS agreement also provides for it to make annual contributions over the life of the contract for ongoing maintenance and capital improvements to the restaurant facilities. HMS, at its sole cost and expense, is responsible for the repair, maintenance and replacement of all other portions and aspects of the restaurants both structural and non-structural, and whether to the exterior or interior of the restaurants, in effect, from the curb inward. The Authority is responsible for the repair and maintenance of service roads that permit fire departments and first aid squads access to the service areas. The Authority is also responsible for the snow removal curb outward. The agreement with Sunoco allows it to provide fuel services at the Authority service areas in exchange for the greater of a minimum annual guaranteed payment or a percentage of gross sales, and a significant additional contribution to rebuild/remodel twenty-one fuel service facilities over the next seven years. Sunoco will also provide an annual contribution over the life of the agreement for ongoing maintenance and capital improvements to the fuel service facilities. Sunoco, at its sole cost and expense, is responsible for the repair, maintenance, and replacement of the service stations. The Authority is responsible for the repairs and maintenance of the service roads and the parking areas, as well as providing and maintaining generators, water and sewage facilities, general area lighting, electricity, and roadway signs.

As per the agreements, HMS Host and Sunoco began construction at the Thomas Edison Service Area on the Turnpike and the Monmouth location on the Parkway in September 2018. The construction is expected to finish by May 2019 and both the service areas will be open to the public shortly before the Memorial Day Weekend in 2019. As per the agreements, rebuilding and remodeling work at all the locations are expected to be completed by 2024.

(19) Subsequent Events

On February 7, 2019, the Authority issued \$449,110 of Turnpike Revenue Bonds, Series 2019 A (Series 2019 A bonds). The bonds bear interest at fixed rates from 4.00% to 5.00% and mature on January 1, 2048. The interest on the Series 2019A bonds is paid semi-annually. The purpose of the 2019A Turnpike Revenue Bonds is to (i) pay the Cost of Construction of various Projects which are part of the Authority's ongoing capital improvement program for the Turnpike System, and (ii) pay the costs of issuance of the Series 2019 A Bonds.

2045	105,560
	19,913,125

⁽¹⁾ Debt Service payable on January 1 of each year is included in the debt service for the prior fiscal year.

⁽²⁾ Interest assumed to be paid at fixed swap rate for any variable rate bonds swapped to fixed rate and does not include fees such as those for letters of credit, standby agreements, remarketing fees or any potential mismatch between the bond variable rate and swap variable rate. Spreads over the variable rate index on variable rate bonds are included and are assumed to be constant through final maturity of the associated variable rate bonds.

⁽³⁾ Interest on the \$5,000 unhedged portion of the Series 2015A Turnpike Revenue Bonds is calculated at the maximum rate of 12%.

See accompanying independent auditors' report.
