Professional Services Nos. A3770 and A3771, New Jersey Turnpike and Garden State Parkway, ATANE Engineers, Architects and Land Surveyors, P.C. - OPS No. A3770, Greenman-Pedersen, Inc. - OPS No. A3771, Engineering Services for the 2020 – 2023 New Jersey Turnpike Authority Major Bridge Inspection Program, Order for Professional Services No. A3770, Major Bridge Group 1, R-155441, Budget Code: 040E10018, Funding Allocation: \$ 700,000.00 FY 2020, \$900,000.00 FY 2021, \$1,200,000.00 FY 2022, \$1,200,000.00 FY 2023, \$300,000.00 FY 2024, Amount: \$4,300,000.00, And Order for Professional Services No. A3771, Major Bridge Group 2, R-155443, Budget Code: 040E10018, Funding Allocation: \$1,000,000.00 FY 2020, \$1,300,000.00 FY 2021, \$1,300,000.00 FY 2022, \$1,300,000.00 FY 2023, \$400,000.00 FY 2024, Amount \$ 5,300,000.00,
was approved.

Through this single procurement process, the Authority will select two consultants to furnish engineering services for biennial inspection of the Authority's 18 major bridges on the New Jersey Turnpike and Garden State Parkway.

The engineering services associated with OPS No. A3770 will involve biennial inspection of the ten bridges in Major Bridge Group 1, which are largely located in the southern region of both roadways. The engineering services associated with OPS No. A3771 will involve biennial inspection of the eight bridges in Major Bridge Group 2, which are located in the central/north region of both roadways. Each OPS has a 4-year term, from 2020 through 2023, which will cover two consecutive biennial inspection cycles for all 18 major bridges. The scope of work varies on an annual basis depending upon the prescribed inspection cycle for each bridge, and includes condition inspection and evaluation; inspection report preparation; FHWA Element Level Inspection data collection; FHWA Structure Inventory and Appraisal (SI&A) Form updates; load rating updates; and other related services as required to comply with the National Bridge Inspection Standards (NBIS).

These assignments are classified as "Complex Projects" since the scopes of work are not clearly defined and likely to change during the course of the project, and the cost of each exceeds \$2,000,000.00. The Solicitation for Expressions of Interest (EOIs) was posted on the Authority's website and twenty-six (26) engineering firms were prequalified and eligible under Profile Code: D280C – Bridges, NBIS Program, Complex. Six firms submitted EOIs by the closing date of October 17, 2019.

The scoring of the EOIs by the Review Committee resulted in the following order of ranking of the top three firms: 1) ATANE Engineers, Architects and Land Surveyors, P.C. (ATANE); 2) Greenman-Pedersen, Inc. (GPI); and 3) Arora and Associates, P.C. On November 26, 2019, Technical and Fee Proposals were received from the three firms. The Review Committee reviewed and evaluated each firm's Technical Proposal and it was determined that oral presentations would not be required. The final scoring resulted in GPI and ATANE being the

highest and second highest technically ranked firms. The fee proposal of the highest technically ranked firm, GPI, was reviewed and negotiated for OPS No. A3771 (their preferred OPS), which resulted in a reduction in their total fee.

Subsequently, the fee proposal of the second highest technically ranked firm, ATANE, was reviewed for OPS No. A3770. The review revealed that ATANE had underestimated the level of effort associated with the following key tasks, due to their lesser direct familiarity with the ten bridges in Major Bridge Group 1: 1) Participation in progress and technical meetings required over the 4-year term of the assignment; 2) Detailed section loss documentation required for major bridges with original steel superstructures; and 3) Extensive field coordination required with ongoing major bridge construction contracts. Negotiations with ATANE resulted in an increase in their total fee, to account for these key tasks and bring them more in line with those of the highest and third highest technically ranked firms.

Both fees are considered to be fair and reasonable for the services to be provided.

It is, therefore, recommended that Order for Professional Services No. A3770 be issued to the firm of ATANE Engineers, Architects and Land Surveyors, P.C. of Iselin, NJ, not to exceed the amount of \$4,300,000.00 allocated as follows: \$700,000.00 in FY 2020; \$900,000.00 in FY 2021; \$1,200,000.00 in FY 2022; \$1,200,000.00 in FY 2023; and \$300,000.00 FY 2024. This amount includes reimbursement of direct salaries times a maximum multiplier of 2.69 to cover the cost of fringe benefits, overhead and profit, plus authorized direct non-salary expenses.

It is further recommended that Order for Professional Services No. A3771 be issued to the firm of Greenman-Pedersen, Inc. of Lebanon, NJ, not to exceed the amount of \$5,300,000.00 allocated as follows: \$1,000,000.00 in FY 2020; \$1,300,000.00 in FY 2021; \$1,300,000.00 in FY 2022; \$1,300,000.00 FY 2023; and \$400,000.00 FY 2024. This amount includes reimbursement of direct salaries times a maximum multiplier of 2.80 to cover the cost of fringe benefits, overhead and profit, plus authorized direct non-salary expenses.

The issuance of these OPS' are contingent upon the Treasurer of the State of New Jersey completing the review of all documents submitted by the selected awardees, pursuant to Public Law 2005, Chapter 51 (formerly Executive Order 134) and Executive Order 117 (Corzine 2008), and having no objection to same. These professional services were procured, and the recommended firms were selected, in accordance with N.J.S.A. 52:34-9.1, et seq., N.J.S.A. 27:23-6.1 of the Authority's enabling legislation, N.J.A.C. 19:9-2.8, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006).

012-01-2020

In a document dated December 3, 2019, **Recommendation to Issue Supplement C to Order for Professional Services No. A3575, New Jersey Turnpike and Garden State Parkway, Greenman-Pedersen, Inc., 2016 – 2019 New Jersey Turnpike Authority Major**

Bridge Inspection Program, R-155333, Budget Code: 040E10018, Original OPS Amount: \$ 7,080,000.00, Amount of Supplement A: \$ 925,000.00, Amount of Supplement B: \$ 565,000.00, Amount of Supplement C: \$ 1,265,000.00, Revised OPS Amount: \$9,835,000.00,

was approved.

This Order for Professional Services was approved at the February 2016 Commission Meeting in the amount of \$7,080,000.00, to provide for the biennial inspection of the Authority's 18 major bridge structures for a 4-year term, from 2016 through 2019.

Supplement A provided for professional engineering services for Greenman-Pedersen, Inc. to assist the Authority in addressing the emergency closure of the Delaware River Turnpike Bridge (Structure No. P0.00), following the discovery of a complete fracture of the north truss top chord of Span 16, near Pier 15 on the Pennsylvania side of the bridge. Funding in the amount of \$925,000.00 was approved at the Authority's January 2017 Commission Meeting, and the ceiling for the OPS increased from \$7,080,000.00 to \$8,005,000.00.

Supplement B provided for additional professional engineering services to further assist the Authority in addressing the emergency closure of the Delaware River Turnpike Bridge. Services included: 1) Tack weld inspection and removal plans; 2) Post fracture repair inspection; 3) LiDAR scanning for post jacking and repair conditions; 4) Material testing program of the failed member removed during the repair process; 5) Structural steel repair design and plan development; and 6) Three special inspections of the repaired 4 span unit. These tasks were unanticipated and in addition to the tasks performed under Supplement A. Funding in the amount of \$565,000.00 was approved at the August 2017 Commission Meeting, and the ceiling for the OPS increased from \$8,005,000.00 to \$8,570,000.00.

The costs of Supplements A and B are being shared with the Pennsylvania Turnpike Commission.

Supplement C will provide for unanticipated bridge inspection services which are beyond the current authorized scope of work for the 4-year term of this assignment. The additional work requested by the Authority was unknown when the OPS and previous supplements were issued. The scope of work for Supplement C includes: 1) Mobilization, field work, inspection reporting and emergency repair support required to address newly detected structural deficiencies in all seven major Turnpike bridges and several major Parkway bridges; 2) Reformatting of the major bridge inspection reports implemented through the Authority's InspectTech bridge inspection and management system; 3) Load rating updates required by FHWA's recent mandate for Emergency Vehicles (EVs) and by advanced steel section loss; 4) Verification and updating of National Bridge Element (NBE) data from previous inspection cycles; and 5) Other miscellaneous tasks.

It is, therefore, recommended that Supplement C to Order for Professional Services No. A3575 be issued to Greeman-Pedersen, Inc. not to exceed the amount of \$1,265,000.00 with compensation on the same basis as the original Order for Professional Services. The addition of

this amount increases the total authorized fee from \$8,570,000.00 to \$9,835,000.00. The original contract was procured pursuant to N.J.S.A. 52:34-9.1, et seq., N.J.S.A. 27:23-6.1 of the Authority's enabling legislation, N.J.A.C. 19:9-2.8, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006).

PUBLIC BIDS

019-01-2020

In a document dated January 13, 2020, **Cleaning Services – Small Business Enterprise (“SBE”) Set-Aside, Maverick Building Services. RM-154373 (Maintenance).**
Budget Code: Various. Amount: \$ 583,002.00, was approved.

Under this contract, Maverick Building Services (“Maverick”) will provide necessary labor, equipment and materials to perform professional cleaning services at the Authority’s headquarters building in Woodbridge, NJ. Services include, but are not limited to: nightly routine cleaning services, as outlined in the specifications, for all office, restroom and public areas within the building (“Services”). This procurement was designated as a NJ Small Business Enterprise (“SBE”) Set-Aside contract. Bidders were required to bid a Monthly Inclusive Rate for the Services specified. Bidders also had the option to quote prices for additional optional services

which were not factored in the basis of award. The bid was fully advertised and the six (6) vendors listed in the Authority’s database for this service were notified of the procurement. On December 23, 2019 a sole compliant bid was received as follows:

<u>Vendor</u>	<u>Inclusive Price</u> <u>per Month</u>	<u>Total Bid Price</u> <u>2-Year Term</u>
Maverick Building Services, Rutherford, NJ	\$ 24,291.75	\$583,002.00
Departmental Estimate: \$552,000.00		

Non-Compliance:

An additional bid was received from AAA Facility Solutions, LLC (“AAA”) of River Edge, NJ (\$501,025.92). Maintenance staff reviewed AAA’s bid along with required documentation submitted and found several deficiencies. Section II-J. (Client References) of the RFB required bidders to complete “Exhibit A”, providing a list of seven references, for whom the same or similar type of services as those sought in the RFB have been or are being performed. Three of the seven references submitted by AAA referenced contracts that were of a seasonal or as-needed nature as opposed to daily cleaning services in a building of similar size required in the RFB. Furthermore, Section II-K. 1. (Bidders Qualifications) required bidders to have at least 5 years’ experience in performing services similar in scope and size to the services required by the Bid Documents. As reflected in its NJ Business Registration Certificate, this bidder has been in business since 2017, which is deficient of the five-year minimum requirement. Section II C (Basis of Award), Paragraph 6. states “Any award hereunder will be made to the lowest responsible and responsive bidder for the total of Line Item No.1 Basic Services Bid. **Only those Bids that meet all the requirements and qualifications contained in these Bid Documents will be considered.**” Based on these deficiencies, Maintenance staff recommends that AAA’s bid be rejected.

An additional bid was also received from Golden, Inc. (“Golden”) of Bensalem, PA (\$244,800.00). Golden was not, however, registered with the State of New Jersey as a designated SBE business on the date of submission, as required in this Set-Aside solicitation. Section II, paragraph D of the RFB states: “As an aid in meeting the commitment of its SBE Programs, the Authority is designating the Contract to be awarded hereunder as an SBE Set-Aside Contract. To be eligible for a set-aside and/or subcontracting contract, small businesses must be registered with the Division of Revenue, Small Business Enterprise Unit on or before the due date for receipt of Bids. Only those Bidders who are registered with the Division as SBEs in any of the eligible small business Categories I, II, III, IV, V and VI appropriate to the RFB shall submit a Bid. **Bids received from businesses not designated as SBEs will be rejected.** Thus, it is recommended that the bid submitted by Golden be rejected.

The bid submitted by Maverick Building Services is fully compliant. The references submitted on Maverick’s Exhibit A contains contracts with multiple buildings which are in excess of 150,000sf where daily cleaning services are currently being performed and at least five of the

referenced contracts exceed the five-year minimum required.

Bids were procured, and authorization is being sought to award this contract in accordance with *N.J.S.A. 27:23-1 et seq.*, the Authority's enabling legislation, *N.J.A.C. 19:9-2.2*, promulgated pursuant thereto, and Executive Order No. 37 (Corzine 2006). This award is contingent upon the Treasurer of the State of New Jersey completing the review of all documents submitted by the selected awardee pursuant to Public Law 2005, Chapter 51 and Executive Order No. 117 (Corzine 2008), and having no objection to same.

Accordingly, authorization is requested to award a two-year contract to Maverick Building Services for cleaning services at the Authority headquarters building for a total amount not to exceed \$583,002.00, subject to funding availability at the time of service. Authorization is further requested for the Executive Director to approve each of the two, one-year extensions upon satisfactory performance by the vendor.

On motion by Treasurer DuPont and seconded by Commissioner Pocino the Board unanimously approved item number 019-01-2020; and authorized or ratified, as presented, the recommendations contained therein; and received and filed the memoranda.

In a document dated January 13, 2020, **John Deere Original Equipment Manufacturer, (OEM”) Parts and Repairs, Jesco, Inc., RM-154520 (Maintenance), Budget Code: Various Amount: \$ 125,000.00 (One-Year Contract)**, was approved.

Authorization is requested to award a “sole source” contract to Jesco, Inc. (“Jesco”) to provide Deere & Company, d/b/a John Deere, original equipment manufacturer (“OEM”) parts and repairs for the Authority’s John Deere heavy-duty construction equipment.

As the sole distributor in the State of New Jersey for John Deere OEM heavy-duty construction equipment parts, Jesco is the only vendor available to the Authority which has authorization from the manufacturer (John Deere) to sell OEM parts as well as service this line of equipment. Thus, no other vendor is capable of providing the services required under this Agreement. In addition, the need for this heavy-duty equipment represents an exceptional circumstance as much of the John Deere equipment is used for excavating and salt loading and must be readily available for the Authority’s snow plow operations when needed. Furthermore, the unavailability of these OEM parts and service would present a threat to the safety of the motoring public.

Thus, it is recommended that this award be made without public advertisement under the sole source procurement authorization of *N.J.A.C. 19:9-2.2(d)1* as promulgated under *N.J.S.A. 27:23-6.1* and consistent with Executive Order No. 37 (Corzine 2006). A resolution, as required by *N.J.A.C. 19:9-2.2(d)1*, is attached hereto.

Accordingly, authorization is requested to award a one-year sole source contract to Jesco, Inc. to provide the John Deere OEM parts and repairs, for an amount not to exceed \$125,000.00, subject to availability of funding at the time of service. Authorization is further requested for the Executive Director to approve each of the two, one-year extensions upon satisfactory performance by the vendor.

RESOLUTION FOR SOLE SOURCE PROCUREMENT

John Deere Original Equipment Manufacturer (“OEM”) Parts

WHEREAS, the New Jersey Turnpike Authority’s Maintenance Department has requested the award of a sole source contract to Jesco, Inc. (“Jesco”) to provide Deere & Company, d/b/a John Deere original equipment manufacturer parts (“OEM”); and

WHEREAS, Jesco is the sole authorized distributor in the State of New Jersey for John Deere OEM parts and is authorized to provide qualified and trained service and repairs; and

WHEREAS, the OEM parts are required to repair the Authority’s John Deere heavy-duty equipment used for excavating and salt loading in snow plow operations and must be readily

available to protect the motoring public; and

WHEREAS, *N.J.A.C. 19:9-2.2(d)1* of the New Jersey Turnpike Authority's regulations, promulgated under *N.J.S.A. 27:23-6.1*, permits sole source procurement when only one source of the required goods or service exists;

NOW, THEREFORE, BE IT RESOLVED THAT the Authority's Board of Commissioners hereby authorizes and approves the award of a contract to Jesco, Inc. to provide the necessary John Deere OEM parts and repairs in an amount not to exceed \$125,000.00, as a sole source exception to procurement by public advertisement permitted by *N.J.A.C. 19:9-2.2(d)1* promulgated under the Authority's enabling legislation, *N.J.S.A. 27:23-6.1*.

In a document dated January 22, 2020, **Redistribution of Streaming Traffic Video, TrafficLand Inc., RM-153850, Budget Code: Various, Amount: \$ 74,000.00/3Years (Revenue to the Authority)**, was approved.

The New Jersey Turnpike Authority ("Authority") issued a request for proposal ("RFP") for a media provider ("Provider") to redistribute streaming traffic video feeds from the Authority's and New Jersey Department of Transportation's ("NJDOT") traffic cameras to various third parties ("the Services"). The third parties include, but are not limited to, television media outlets. The Provider will compensate the Authority for access to the video feeds. The term of the agreement is three years with the option to extend for two additional one-year terms.

The RFP was advertised on November 12, 2019 in the Star Ledger and the Asbury Park Press and posted on the Authority's and the State's websites. In addition, the RFP was e-mailed to the three firms in the Authority's vendor database. On December 10, 2019, one proposal was received from TrafficLand, Inc., Fairfax, VA.

An Evaluation Committee (the "Committee"), which was approved by the Executive Director, consisted of personnel from the Authority's ITS Department and a staff member from the NJDOT. The Committee reviewed the proposal based on the criteria set forth in the RFP. The Committee concluded overall that TrafficLand, Inc. is an experienced and qualified firm to provide the services outlined in the RFP. TrafficLand, Inc. has a clear understanding of the Authority's needs and proposed a team which has significant experience in delivering these services. Based upon the proposal, negotiations and the best and final offer ("BAFO"), the Committee prepared a report that detailed the evaluation process and set forth its findings and recommendation.

This professional services procurement was conducted in accordance with *N.J.S.A. 27:23-6.1*, *N.J.A.C. 19:9-2.1(b)*, Executive Order No. 37 (Corzine 2006), and Executive Order No. 26 (Whitman 1994). This award is contingent upon the Treasurer of the State of New Jersey

completing the review of all documents submitted by the selected awardees pursuant to Public Law 2005, Chapter 51 and Executive Order No. 117 (Corzine 2008), and having no objection to same.

Accordingly, authorization is requested to award a three-year contract to TrafficLand, Inc., for redistribution of the Authority's streaming traffic video in a minimum annual revenue amount of \$24,000 for year 1, with a 2% increase for year 2 and 3 (\$74,000 for the 3-year term). Authorization is further requested for the Executive Director to approve each of the two, one-year extensions upon satisfactory performance by TrafficLand, Inc.

On motion by Commissioner Pocino and seconded by Treasurer DuPont the Board unanimously approved item numbers 019-01-2020 through 028-01-2020; and authorized or ratified, as presented, the recommendations contained therein; and received and filed the memoranda.

In a document dated January 6, 2020, Recommendation to Pay the Annual Member Agency Membership Dues – Transcom. R-155182, Budget Code: 010-890-445900, Amount: \$316,216.00, was approved.

The Transportation Operations Coordinating Committee (“Transcom”) is an organization

which provides a forum for the reconciliation of operating procedures, improved agency communications and the coordination of construction projects within the metropolitan area. Under Agenda Item No. 108-04-2018, the Board approved the Authority's membership in Transcom through December 31, 2023. Membership in Transcom helps the New Jersey Turnpike Authority ensure the mobility and safety of its traveling public through the tri-state area via enhanced communication and utilization of the member agencies' existing traffic and transportation management systems.

Per the Multi-Year Membership Agreement between the New Jersey Turnpike and Transcom, the Authority is required to pay annual membership dues for operating costs. The annual payment to Transcom for 2020 is \$316,216.00.

Accordingly, the Operations Department recommends approval of the 2020 membership dues to Transcom in the amount of \$316,216.00.

In a memorandum dated January 10, 2020, **Recommendation to Authorize 2020 Assessments to First Aid Squads and Fire Departments Providing Services on the New Jersey Turnpike and Garden State Parkway for the Period January 1, 2020 through December 31, 2020, Budget Code: 010-710-442060, Amount: \$470,400.00**, was approved.

The New Jersey Turnpike Authority (the "Authority") utilizes the services of approximately 80 first aid squads and 80 fire departments that are on-call and provide emergency services to the Authority's patrons on the New Jersey Turnpike and the Garden State Parkway. These organizations are further supported by other organizations in a mutual aid capacity. As the owner and operator of these two roadways, the Authority itself does not have qualified emergency personnel and apparatus to provide these critical, life-saving services to its patrons therefore, it has been the policy of the Authority to financially assist these first aid squads and fire departments on a semi-annual basis.

Previously approved by the Board, the first aid squads are provided \$90.00 per call plus a \$500.00 semi-annual standby assessment and the fire departments are provided \$160.00 per piece of apparatus plus a \$300.00 semi-annual standby assessment. Organizations providing mutual aid are not provided an assessment for stand-by, but are provided an assessment of \$90.00 per call or \$160.00 per number of apparatus.

Accordingly, it is recommended that the Authority be authorized to work with the first aid squads and fire departments providing services on the New Jersey Turnpike and Garden State Parkway under the terms set forth above in an amount not to exceed \$470,400.00 for the year 2020.

In a document dated January 28, 2020, Authorization to pay membership fees to the I-95 Corridor Coalition for 3-years in accordance with I-95 Corridor Coalition Procedural Guidelines, RM-154911, Budget Code:010 00 896 447060, Amount: \$309,000.00, was approved.

The I-95 Corridor Coalition is an alliance of transportation agencies, toll authorities, and related organizations, including public safety, from the State of Maine to the State of Florida, with affiliate members in Canada. The Coalition provides a forum for key decision and policy makers to address transportation management and operations issues of common interest. This consensus-driven organization enables its myriad state, local, and regional member agencies to work together to improve transportation system performance far more than they could working individually. The Coalition has successfully served as a model for multi-state/jurisdictional interagency cooperation and coordination for over a decade.

The Authority is a member of the I-95 Corridor Coalition and members are required to pay annual membership fees.

Accordingly, the Operations Department seeks authorization for the payment of membership fees to the I-95 Corridor Coalition for three (3) years in the amount of \$309,000.00, or \$103,000 per year. The three-year period will be from July 1, 2019 through June 30, 2022. The Authority will pay its membership fees on a quarterly basis – July 1st, October 1st, January 1st, and April 1st – in the amount of \$25,750 per quarter. The first quarterly payment is due retroactive to July 1, 2019.

On motion by Treasurer DuPont and seconded by Vice Chair Diaz the Board unanimously approved item numbers 030-01-2020 through 032-01-2020; and authorized or ratified, as presented, the recommendations contained therein; and received and filed the memoranda.

In a memorandum dated January 16, 2020, Recommendation to Adopt the Series 2020 Turnpike Revenue Bond Resolution – , was approved.

Attached is the Series 2020 Turnpike Revenue Bond Resolution (Series 2020 Resolution). This resolution authorizes the issuance of up to \$2,719,118,000 of Series 2020 Turnpike Revenue Bonds. These bonds consist of up to \$502,500,000 of new money bonds for capital needs, and up to \$1,434,632,500 of refunding bonds to refinance fixed rate debt for debt service savings. In addition, the resolution provides for the issuance of up to \$781,985,500 of refunding bonds to refinance existing variable rate debt for either debt service savings, to reduce risk on the variable rate portfolio, or to meet the mandatory tender date on certain direct purchase bonds to avoid additional interest costs.

The attached Series 2020 Resolution authorizes the issuance of up to \$502,500,000 of new money Turnpike Revenue Bonds to provide funds to pay the construction costs related to the 2019 Capital Improvement Program, make a deposit into the debt reserve fund, fund capitalized interest and pay costs of issuance. The Series 2020 Resolution also authorizes the bonds to be issued as tax-exempt bonds in single or multiple series, with a maximum maturity of 30 years. Based upon current spending forecasts it is anticipated that these bonds will be issued over two

032769

years beginning in late 2020, dependent upon market conditions.

In addition to the new money issue, the Series 2020 Resolution authorizes the issuance of up to \$1,434,632,500 of bonds to potentially refund for debt service savings the fixed rate Series 2012B, 2013A, 2013F, 2014A, 2014C and 2015E Bonds. These bonds, or a portion of these bonds, can be refunded on a taxable basis. These bonds will be refunded if they can produce debt service savings above the Authority's target of 3%.

Finally, the Series 2020 Resolution authorizes the issuance of up to \$781,985,500 of refunding bonds to refinance existing variable rate debt. The Series 2020 Resolution authorizes the refunding of the Series 2015A, 2015C-H, the 2016B-D, and the 2017C Bonds. Depending on market conditions, the Authority has the potential to refinance these bonds on a fixed rate basis, and terminate the existing interest rate swap agreements at essentially a cost neutral basis to de-risk the variable rate debt portfolio. The underlying bonds, as well as the interest rate swap agreements, have their index rate as the London Interbank Borrowing Rate (LIBOR) which will be phased out in 2021.

Refunding these bonds on a fixed rate basis would reduce any risk associated with the conversion of these bonds to some replacement rate. The resolution also includes the refunding of the Series 2015B Bonds, which are direct placement floating rate note bonds that have a mandatory tender on April 1, 2020 and must be refinanced on or before that date to avoid an escalation in interest costs. The Series 2020 Resolution authorizes the Authority to refund all of the aforementioned variable rate bonds through a variety of variable rate debt forms, including a direct placement with a commercial bank, or a public offering. Also, the Authority could terminate, amend, or replace the existing Interest Rate Swap Agreements on these bonds, and/or issue fixed rate debt. The proposed Series 2020 Resolution would allow the Authority to pursue the option that is in the best long term financial interest of the Authority, as well as pay cost of issuance fees from either bond proceeds or the General Reserve Fund.

It is recommended that the Board of Commissioners adopt the Series 2020 Turnpike Revenue Bond Resolution in substantially the form attached hereto, and authorize the Executive Director to execute any and all documents necessary to finalize this document, and others as may be necessary to complete the transactions described therein. The Authority has received the required pre-approval letters from the Governor and State Treasurer.

Your approval of this recommendation is respectfully requested.

The New Jersey Turnpike Authority's Board of Commissioners awarded a contract at the December 17, 2019 Board Meeting to Union Labor Life Insurance Company ("ULLICO") for insured stop loss coverage for the period January 1, 2020 to December 31, 2020 pursuant to Agenda Item 318-12-2019, a copy of which is attached. The agenda item incorrectly stated the total annual premium cost as \$1,571,000 rather than \$1,678,000. Therefore, it is requested that the correct premium amount of \$1,678,000 be authorized and that Agenda item 318-12-2019 be ratified in all other respects.

In a memorandum dated January 10, 2020, **Authorization to grant authority to the Executive Director to adopt policies as necessary for the operation of the New Jersey Turnpike Authority**, was approved.

Throughout the years, the New Jersey Turnpike Authority has adopted many policies and procedures for the efficient and proper operation of the organization. These policies cover various work matters such as Attendance, Harassment, Dress Code, Equal Employment Opportunities, Employee Relations, Alcohol and Substance Abuse and Workplace Violence.

Since roadway consolidation, and in the continuing effort to implement policy consistency, the Authority has reviewed and revised several existing policies regarding employment matters. Policies are reviewed on a regular basis to ensure compliance with current and ever-evolving federal and state laws as well as fulfilling the operational and Human Resource needs of the Authority. In order to implement timely and effective policy changes, it is recommended that future policies be drafted in Human Resources and reviewed by a committee consisting of the Directors of Law, Human Resources, Internal Audit, and other applicable departments. Upon review and approval, the subject policies will be presented to the Executive Director or his designee for approval and adoption. Human Resources will be responsible for dissemination of the policies to the employees.

SECTION 301. Privilege of Redemption and Redemption Price

The Series 2020 Bonds shall be subject to redemption prior to maturity as set forth or referred to in this Article III and in the Series 2020 Certificate of Determination. If and to the extent of any inconsistency between this Article III and Article IV of the General Bond Resolution, this Article III shall govern with respect to the Series 2020 Bonds. Except as otherwise provided by the second paragraph of Section 405 of the General Bond Resolution, on the Redemption Date, funds shall be deposited with the Paying Agent, in its capacity as the Trustee, to pay, and the Trustee is hereby authorized and directed to apply such funds to the payment of, the Series 2020 Bonds or portions thereof called for redemption, together with accrued interest thereon to the Redemption Date. Series 2020 Bonds subject to redemption prior to maturity shall be redeemable, upon notice as provided in this Article III, at such times, at such Redemption Prices and upon such terms, in addition to the terms contained or referred to in this Article III and the Series 2020 Certificate of Determination, as are specified in the General Bond Resolution.

SECTION 302. Optional Redemption of Series 2020 Bonds

Each Series or sub-series of the Series 2020 Bonds shall be subject to redemption at the option of the Authority, in whole or in part in Authorized Denominations, on such dates and at such Redemption Prices as shall be set forth in the Series 2020 Certificate of Determination, subject to the provisions of Section 201(d) of this Series 2020 Resolution.

SECTION 303. Mandatory Sinking Fund Redemption of Series 2020 Bonds

(a) Each Series or sub-series of the Series 2020 Bonds shall be subject to mandatory redemption in part from moneys accumulated in the Debt Service Fund by reason of the payment of Sinking Fund Installments on January 1 or July 1 in the years and in the amounts as set forth in the Series 2020 Certificate of Determination, at a Redemption Price equal to one hundred percent (100%) of the principal amount thereof plus accrued interest, if any, to the Redemption Date.

(b) Anything in the Resolution to the contrary notwithstanding, if the Authority purchases and cancels or, at its option, redeems any Series 2020 Bonds that are subject to mandatory Sinking Fund Installments, the Authority shall have the discretion to determine the manner of crediting any such purchased or redeemed Series 2020 Bonds against future Sinking Fund Installments, and such manner of crediting may be chronological, inverse chronological, pro-rata or such other manner as shall be determined by the Authority.

SECTION 304. Selection of Series 2020 Bonds to be Redeemed

Notwithstanding anything in the Resolution to the contrary and unless otherwise set forth in the Series 2020 Certificate of Determination, if less than all of the Series 2020 Bonds of a Series or sub-series are to be redeemed and paid prior to maturity, the Series 2020 Bonds of such Series or sub-series to be redeemed shall be selected by the Authority, unless less than all of the Series

2020 Bonds of a maturity of the same Series or sub-series bearing interest at the same rate shall be called for redemption, in which case the selection of the Series 2020 Bonds to be redeemed shall be made by the Paying Agent, in its capacity as the Trustee, by lot in such manner as the Trustee in its discretion shall determine. Unless otherwise set forth in the Series 2020 Certificate of Determination, any Series 2020 Bonds of the same Series or sub-series and maturity which bear interest at different interest rates shall be deemed to be separate maturities of the same Series or sub-series. In selecting Series 2020 Bonds for redemption, the Trustee shall treat each Series 2020 Bond as representing that number of Series 2020 Bonds which is obtained by dividing the principal amount of such Series 2020 Bond by the then-minimum Authorized Denomination; *provided, however*, that no Series 2020 Bond shall be redeemed in part if the principal amount of such Series 2020 Bond to be Outstanding following such partial redemption is not an Authorized Denomination. If it is determined that less than all of the aggregate principal amount of a Series 2020 Bond is to be called for redemption, then, except as may be otherwise provided in the Resolution, upon notice of the redemption of the portion of such principal amount that is to be called for redemption, the Owner of such Series 2020 Bond shall forthwith surrender such Series 2020 Bond to the Trustee for payment of the Redemption Price of the portion of such principal amount called for redemption and the Trustee shall authenticate and deliver to such Owner a new Series 2020 Bond or Series 2020 Bonds having an aggregate principal amount equal to the unredeemed balance of the principal amount of such Series 2020 Bond. If the Book-Entry System for the Series 2020 Bonds is in effect, upon a redemption of less than the entire principal amount of a maturity of the Outstanding Series 2020 Bonds of any Series or sub-series, the Trustee shall (i) either exchange the Series 2020 Bond or Series 2020 Bonds of such Series or sub-series and maturity held by the Securities Depository for a new Series 2020 Bond or Series 2020 Bonds of such maturity in the appropriate principal amount of the unredeemed portion of such maturity, if such Series 2020 Bond is presented to the Trustee by the Securities Depository, or (ii) obtain from the Securities Depository a written confirmation of the reduction in the principal amount of such Series 2020 Bonds held by the Securities Depository.

SECTION 305. Notices

(a) Notice of the redemption of any Series 2020 Bonds shall be given by the Paying Agent, in its capacity as the Trustee, at the direction and on behalf of the Authority by mailing a copy of an official notice of redemption not less than thirty (30) days nor more than sixty (60) days prior to the Redemption Date to (i) each Owner of the Series 2020 Bonds to be redeemed by first class mail at their addresses appearing on the Registrar, and (ii) any entities required to receive such notice pursuant to the provisions of the Continuing Disclosure Agreement in the manner provided in the Continuing Disclosure Agreement. Notwithstanding anything in the Resolution to the contrary, notice of the redemption of any Series 2020 Bonds to be given to the Securities Depository shall be given in such manner and time as shall be required in accordance with the operating procedures of the Securities Depository.

(b) Each notice of redemption shall state at a minimum, the complete official name of the issue, including the Series or sub-series designation, the Series 2020 Bond certificate numbers, the principal amount of each Series 2020 Bond certificate to be redeemed (for partial redemptions), the date of issue, the interest rate, the Maturity Date, the Redemption Date, the Redemption Price, the place or places of redemption, including the Paying Agent's name and appropriate address or addresses with the name of a contact person and telephone number. CUSIP

numbers shall also be set forth in such notices of redemption, but the failure to provide such CUSIP numbers shall not affect the validity of the proceedings for the redemption of the Series 2020 Bonds to be redeemed.

(c) Any notice of redemption of the Series 2020 Bonds given in accordance with the requirements of this Section 305 and Article IV of the General Bond Resolution shall be conclusively presumed to have been duly given, whether or not the Owner of any Series 2020 Bond to be redeemed actually receives such notice.

ARTICLE IV

There is hereby established with the Trustee a fund to be designated as the Series 2020 Clearing Fund (the “**Series 2020 Clearing Fund**”), which shall be a separate trust fund held by the Trustee and entitled to the benefits and protections of the General Bond Resolution. Except as otherwise set forth in the Series 2020 Certificate of Determination, upon receipt of the net proceeds, including accrued interest, if any, from the sale of each Series or sub-series of the Series 2020 Bonds, the Trustee shall deposit all such net proceeds into the Series 2020 Clearing Fund and, thereafter, the Trustee shall transfer from the Series 2020 Clearing Fund (i) to the Debt Service Fund, an amount equal to the accrued interest, if any, on such Series or sub-series of the Series 2020 Bonds, (ii) to the Debt Reserve Fund, the amount, if any, set forth in the Series 2020 Certificate of Determination which is required to be deposited in the Debt Reserve Fund so that the amount on deposit in the Debt Reserve Fund upon the issuance of such Series or sub-series of the Series 2020 Bonds shall at least equal the Debt Reserve Requirement, (iii) if such sub-series of the Series 2020 Bonds is comprised of New Money Bonds, to the Series 2020 Project Account (which is hereby established) within the Construction Fund, an amount, as determined in the Series 2020 Certificate of Determination to be applied to pay the Costs of Construction of the Series 2020 Project (including capitalized interest on all or a portion of such Series or sub-series of the Series 2020 Bonds, any premium relating to a Bond Insurance Policy for such Series or sub-series of the Series 2020 Bonds and any other costs of issuance of such Series or sub-series of the Series 2020 Bonds), (iv) if such Series or sub-series of the Series 2020 Bonds is comprised of Refunding Bonds, to the Escrow Agent, for deposit to the Escrow Account, the amount set forth in the Series 2020 Certificate of Determination which is to be applied to the refunding, purchase, redemption, retirement and/or defeasance of the Refunded Bonds as provided in the Escrow Agreement, (v) if such Series or sub-series of the Series 2020 Bonds is comprised of Refunding Bonds, to the Series 2020 Project Account, the amount, if any, set forth in the Series 2020 Certificate of Determination to be applied to the payment of any premium relating to a Bond Insurance Policy for such Series or sub-series of the Series 2020 Bonds and any other costs of issuance of such Series or sub-series of the Series 2020 Bonds, and (vi) to such other Funds or Accounts and for such other purposes as may be determined in the Series 2020 Certificate of Determination.

Any such determination made by an Authorized Officer of the Authority in accordance with the preceding sentence may be made prior to, simultaneously with, or subsequent to, the issuance of any Series or sub-series of the Series 2020 Bonds and shall be set forth in the Series 2020 Certificate of Determination executed by an Authorized Officer of the Authority in accordance with Section 511 of this Series 2020 Resolution. If an Authorized Officer of the Authority shall have determined to terminate one or more of the Existing Swap Agreements in whole or in part, amend, supplement or otherwise modify one or more of the Existing Swap Agreements or re-identify one or more of the Existing Swap Agreements, in whole or in part, any such actions with respect to the Existing Swap Agreements shall be undertaken pursuant to the provisions of this Section 510.

(b) If an Authorized Officer of the Authority determines that it would be in the best interest of the Authority to do so as provided in subsection (a) of this Section 510, the Authorized Officers of the Authority are, and each such Authorized Officer of the Authority is, hereby authorized to amend, supplement, modify or terminate one or more of the Existing Swap Agreements, in whole or in part. Existing Swap Agreement, such fixed rate payable by the Authority shall not exceed seven percent (7.00%) per annum, and (iii) to the extent that such amendments, supplements or modifications, including any amendments, supplements or modifications converting any Existing Swap Agreements to a basis swap, result in the Authority having an obligation to pay a floating rate under any Existing Swap Agreement, the interest rate or index upon which such floating rate is based shall be the interest rate or index which such Authorized Officer of the Authority shall determine, in consultation with the Authority's financial advisor and Bond Counsel, to be the most advantageous to the Authority.

(c) In addition to the transactions authorized by subsections (a) and (b) of this Section 510, the Authorized Officers of the Authority are, and each such Authorized Officer of the Authority is, hereby authorized and directed, in consultation with the Authority's financial advisor and Bond Counsel, to determine, based on the market conditions existing at the time of such determination and such other factors as such Authorized Officer of the Authority may deem relevant, whether it would be in the best interest of the Authority to enter into one or more Qualified Swaps and/or Exchange Agreements relating to the Series 2020 Bonds or in replacement or substitution for any Existing Swap Agreement (collectively, the **"Series 2020 Swap Agreements"**). Any such determination made by an Authorized Officer of the Authority in accordance with the preceding sentence may be made prior to, simultaneously with, or subsequent to, the issuance of any Series or sub-series of the Series 2020 Bonds and shall be set forth in the Series 2020 Certificate of Determination executed by an Authorized Officer of the Authority in accordance with Section 511 of this Series 2020 Resolution. If an Authorized Officer of the Authority determines that it would be in the best interest of the Authority to do so as provided above in this subsection (c) of Section 510, the Authorized Officers of the Authority are, and each such Authorized Officer of the Authority is, hereby authorized to enter into one or more Series 2020 Swap Agreements containing a notional amount, scheduled termination date, payment and security terms, and such other terms and conditions as such Authorized Officer of the Authority shall determine, in consultation with the Authority's financial advisor and Bond Counsel, to be the most advantageous to the Authority; provided, that (i) the maximum aggregate notional amount of all of the Series 2020 Swap Agreements shall not exceed \$623,100,000, (ii) the scheduled termination date of any Series 2020 Swap Agreement shall not be later than the final maturity date of the related Series or sub-series of the Series 2020 Bonds or the stated termination date of the Existing Swap Agreement being replaced, (iii) the maximum fixed rate payable by the Authority under any Series 2020 Swap Agreement shall not exceed seven percent (7.00%) per annum, (iv) the notional amount of each Series 2020 Swap Agreement shall not exceed, and shall amortize on the same schedule as, the principal amount of the related Series or sub-series of the Series 2020 Bonds amortizes or the notional amount of the Existing Swap Agreement being replaced amortizes, (v) to the extent that the Authority has an obligation to pay a floating rate under any Series 2020 Swap Agreement, the interest rate or index upon which such floating rate is based shall be the interest rate or index which such Authorized Officer of the Authority shall determine, in consultation with the Authority's financial advisor and Bond Counsel, to be the most advantageous to the Authority, and (vi) the ratings of the long term unsecured and unenhanced senior debt of the counterparty to any Series 2020 Swap Agreement shall be equal to or higher than at least two of the following ratings: (A) with respect to Moody's: "A2"; (B) with respect to S&P: "A"; and (C) with respect to Fitch: "A". Notwithstanding anything in this Series 2020 Resolution to the contrary, upon compliance with the provisions of this subsection (c) of Section 510, the Authorized Officers of the Authority are, and each such Authorized Officer of the

Authority is, hereby authorized to enter into one or more Series 2020 Swap Agreements which require the Authority to pay a higher fixed rate to the counterparty than would otherwise be payable based upon then current market conditions if such higher fixed rate is necessary to compensate the counterparty for having made a termination payment on behalf of the Authority which is due and owing by the Authority in connection with the optional termination by the Authority of one or more of the Existing Swap Agreements in whole or in part. The payment obligations of the Authority and of the counterparty under each Series 2020 Swap Agreement, other than any payment obligations relating to an early termination of such Series 2020 Swap Agreement, shall commence on the date or dates set forth in such Series 2020 Swap Agreement, which date or dates may be subsequent to the date of the execution and delivery of such Series 2020 Swap Agreement. Pursuant to and in accordance with Section 201 of the General Bond Resolution, the Authority hereby finds and determines that the Series 2020 Swap Agreements will assist the Authority in more effectively managing its interest costs. Each Series 2020 Swap Agreement shall constitute a Qualified Swap or an Exchange Agreement for all purposes of the General Bond Resolution as determined by an Authorized Officer of the Authority in the Series 2020 Certificate of Determination executed by such Authorized Officer of the Authority in accordance with Section 511 of this Series 2020 Resolution. Any termination payment payable by the Authority under the Series 2020 Swap Agreements may be paid from proceeds of a Series of Bonds issued pursuant to Section 203 of the General Bond Resolution.

(d) Notwithstanding anything in this Series 2020 Resolution to the contrary, if an Authorized Officer of the Authority, in consultation with the Authority's financial advisor and Bond Counsel, determines that the Authority can achieve the same outcome as may be intended as a result of any amendment to any Existing Swap Agreement authorized in this Section 510 on terms more favorable to the Authority by entering into a Series 2020 Swap Agreement to restructure the cash flow of any Existing Swap Agreement rather than amending such Existing Swap Agreement, the Authorized Officers of the Authority are, and each such Authorized Officer of the Authority is, hereby authorized and directed, to enter into such Series 2020 Swap Agreement upon compliance with the terms and provisions of subsection (c) of this Section 510; provided, however, that (i) the notional amount of such Series 2020 Swap Agreement shall not exceed the notional amount of the Existing Swap Agreement to which it relates, and (ii) the stated termination date of any such Series 2020 Swap Agreement shall not be later than the stated termination date of the Existing Swap Agreement to which it relates.

(e) The Authorized Officers of the Authority are each hereby authorized and directed, in consultation with the Authority's financial advisor and Bond Counsel, to negotiate the terms of and to execute and deliver such documents and instruments as may be necessary or appropriate in connection with any of the transactions relating to the Existing Swap Agreements and the Series 2020 Swap Agreements authorized pursuant to this Section 510, including, without limitation, any one or more ISDA master agreements and confirmations or amended and restated confirmations thereunder or under existing ISDA master agreements, and such annexes, schedules, and other agreements and instruments as may be required in connection therewith.

(f) To the extent that there are any inconsistencies between the provisions of this Section 510 and the provisions of any resolution previously adopted by the Authority, the provisions of this Section 510 shall control and the provisions of any such resolution are hereby

superseded and/or amended to conform to the provisions of this Section 510 to the extent of any such inconsistency.
