NOTE: The following text are REVISIONS, as indicated by the tracked changes, to the latest version of the 2016 Standard Supplementary Specifications.

SECTION 216 – CONTAMINATED SOIL AND GROUNDWATER MANAGEMENT

216.04 Health and Safety Plan

This project shall be conducted under the requirements of Occupational Safety and Health Administration (OSHA) Standards 29 CFR 1910 and 29 CFR 1926. The Contractor shall prepare a Site-Specific Health and Safety Plan in accordance with Section 216.03 of the specification. If contamination is documented to exist, the Health and Safety Plan shall include exposure risk.

[Enter the appropriate training hours below based on these OSHA regulations (current as of August 7, 2020):

1910.120(e)(3)(i)

General site workers (such as equipment operators, general laborers and supervisory personnel) engaged in hazardous substance removal or other activities which expose or potentially expose workers to hazardous substances and health hazards shall receive a minimum of 40 hours of instruction off the site, and a minimum of three days actual field experience under the direct supervision of a trained experienced supervisor.

1910.120(e)(3)(ii)

Workers on site only occasionally for a specific limited task (such as, but not limited to, ground water monitoring, land surveying, or geophysical surveying) and who are unlikely to be exposed over permissible exposure limits and published exposure limits shall receive a minimum of 24 hours of instruction off the site, and the minimum of one day actual field experience under the direct supervision of a trained, experienced supervisor.]

The Contractor shall provide the initial **[choose one based on OSHA rules 29 CFR 1910.120(e)(3): 24-hour or 40-hour]** training and annual training and medical monitoring for all Contractor employees scheduled to work in or with regulated material ~~and, per the Engineer's request, and up to 10 Authority employees, or their authorized representatives~~ as specified in OSHA 29 CFR 1910.

216.06 Waste Characterization

[Include the following for all Contracts that include off-site disposal of contaminated soil, whether hazardous or non-hazardous]

(B) Off-Site Disposal and Transportation

Prior to disposal activities, the Contractor will ensure that all operations associated with disposal/recycling of materials are in compliance with applicable Federal and New Jersey Department of Transportation regulations, as well as all applicable local requirements. The transporters of solid or hazardous waste ~~Contractor~~ shall hold an A-901 license for the collection or disposal of solid or hazardous waste and a Certificate of Public Convenience and Necessity (CPCN) for solid waste, pursuant to NJSA 13:1E-126 et. seq. and NJSA 48:13A-1 et. seq. ~~Transporters of solid or hazardous waste shall also have an A-901 license and CPCN.~~
