LOCATIONS ALONG THE TURNPIKE AND PARKWAY ROADWAYS**

The New Jersey Turnpike Authority (Authority) invites Expressions of Interest (EOIs) for a Simple project from environmental and/or engineering firms prequalified and eligible in the following Profile Codes.

Profile Codes	Descriptions
C-195	Soil and Groundwater Remedial Investigations
C-196	Soil and Groundwater Remediation Design
C-197	Remediation Systems: Operation and Maintenance

Attached (see Section I) is a list of all consultants currently prequalified and eligible to submit an EOI for the above referenced assignment. *Joint Ventures (*Firms interested in submitting an EOI as a Joint Venture must be prequalified as a Joint Venture with the Authority) that meet all of the Profile Code requirements are also eligible to submit an EOI.

To qualify as a prequalified consultant, a firm **must** have on file with the Authority a current "Professional Service Prequalification Questionnaire" (PSPQ) package prior to submission of the EOI. A current PSPQ is one that has been on file with the Authority for no more than 24 months, or in certain cases for no more than 12 months. Only those firms who have been prequalified for the specified profile codes this project entails will be considered. Prequalification is not required for subconsultants. Prequalification is required however for Joint Ventures.

The Authority shall be seeking participation of Disabled Veteran Owned Business Enterprises (DVOBs) as subconsultants. The project goal is 3% DVOB participation to New Jersey Businesses (See Section V) of the Attachment to the Expression of Interest for the program provisions.

The Authority shall be seeking participation of Small Business Enterprises (SBE) as subconsultants. The project goal is 25% SBE participation to New Jersey Businesses (See Section V) of the Attachment to the Expression of Interest for the program provisions.

The Authority requires the professional services of two (2) environmental and/or engineering firms to conduct groundwater and soil remedial investigations, implement remedial actions, design remedial systems, and/or operate, perform compliance monitoring and maintain the remediation systems installed at various locations along both the New Jersey Turnpike and Garden State Parkway. The services will be performed on an "On-Call" basis as determined to be necessary by the Authority for the duration of the OPS term.

It is the Authority's intent to engage the services of two environmental and/or engineering firms through this dual solicitation for EOIs to provide Professional Services as required, utilizing the appropriate technical staff necessary to ensure that the services outlined herein are performed in accordance with Authority and New Jersey Department of Environmental Protection (NJDEP) requirements. This solicitation is for a four (4) year term with one OPS awarded to each of the two (2) successful environmental and/or engineering firms and is anticipated to commence in May 2021. Each OPS will have an authorized fee ceiling of \$1,950,000 for the four (4) year term.

Each project specific task will be separately negotiated, budgeted and tracked through the Work Request Authorization Form (WRAF) procedure. As projects develop, a WRAF, with an assigned specific task number and a general scope of work, will be forwarded to the Consultant. The Consultant must return the signed WRAF with a detailed scope of work, schedule and a detailed cost estimate outlining task hours, hourly rates, personnel and expenses. After the Authority's thorough review and evaluation, the WRAF will be approved. Work will begin upon receipt of the fully executed WRAF. Each WRAF will be budgeted individually and the maximum value for each WRAF will be \$500,000.

Consultants must demonstrate recent and successful completion of similar magnitude and scopes of services and must commit to the availability of sufficient existing in-house resources, upon demand, throughout the assignment.

In accordance with the Site Remediation Reform Act (SRRA), the Authority requires that consulting firms have Licensed Site Remediation Professional(s) (LSRP) available to conduct, oversee and certify remedial activities at various project sites.

Project Description

Scope of Services – General

The Consultants must be familiar with and knowledgeable of all NJDEP regulations concerning Site Remediation and have a thorough understanding of the regulatory and permitting requirements of the NJDEP, United States Environmental Protection Agency (USEPA) and other environmental and regulatory agencies having jurisdiction in New Jersey. The Consultants shall be responsible for the thorough understanding of the project requirements, including all applicable codes and regulations for all aspects of this project. The Consultants shall also be prepared to perform remedial investigations and/or actions of soil, groundwater and/or affected media as requested or required by the Authority or NJDEP as well as provide remedial design services to address potential modifications or enhancements to current remedial strategies on an on-call basis.

Soil and Groundwater Remediation Investigations/Reporting

The Consultant must be capable of performing Remedial Investigations, which may include but not be limited to the following:

Site Description – including topography, geology, land use, site hydrogeology and other information necessary to satisfy reporting needs.

Remedial Investigation Objectives – including tasks associated with groundwater, soil, ecological evaluation and other task related items.

Remedial Investigation Activities – including but not limited to tasks such as groundwater monitoring, well installation and sampling, soil borings and sampling, receptor evaluation, ecological assessments and evaluations, surveys, vapor intrusion investigations, and other related task work required by NJDEP requirements.

The Consultant shall be capable of providing Remedial Investigation Workplans (RIW) and/or Remedial Investigation Reports (RIRs) to fully delineate the vertical and horizontal extent of soil and groundwater contamination and to satisfy the NJDEP Technical Requirements for Site Remediation (N.J.A.C. 7.26E).

If required, the Consultant shall compile information generated from RIRs and provide documents (such as LNAPL forms, Free-Product Interim Remedial Measure reports, Public Notification forms, or a Preliminary Assessment Report) to be submitted to the NJDEP, proposing appropriate actions to remediate a contaminated site in the form of a Remedial Action Workplan (RAW). In instances where insufficient data exists for a site, the Consultant will be required to review all previously generated documents in an effort not to duplicate previous efforts.

Soil and Groundwater Remediation Design

The Consultant must be capable of providing a complete bid package (i.e., contract drawings and technical specifications) for soil and groundwater remediation systems and/or full-scale chemical treatment. Contract documents produced shall be sufficient for public bidding and shall include a complete Engineer's Estimate, Engineer's Report, and all appropriate permit applications and approvals that may be required as a result of upgrading any existing system or installing a new system.

Consultants that provide these services for any given remediation site will not be able to provide construction supervision services at the same site. However, firms may be considered for construction supervision services at sites for which they have not provided the design.

All services provided by the Consultant shall be in strict conformance with Authority's standards of quality as may be found in the Authority's Design Manual, Procedures Manual, CADD Standards, Standard Drawings and Standard Specifications.

Remedial Action Workplan/Remedial Action

The Consultant must be capable of providing all related services necessary for completion of a Remedial Action Workplan (RAW) and/or RAW Addendum along with any additional information or investigation required by the NJDEP and/or the assigned LSRP. A Remedial Alternative Analysis shall be provided, if applicable, in order to determine the most economically feasible remediation for the site. The Authority, on a site-specific basis will consider new technology.

The Consultant shall conduct Multi-Phase Extraction (MPE) events to assist in the remediation at the locations with historic "hot spots" and/or free phase product in conjunction with mobile air sparging (AS) techniques to enhance contaminant recovery. The MPE/AS equipment must be capable of treating recovered vapors prior to discharge to the atmosphere. Recovered fluids will be containerized in a licensed waste-hauling vehicle for transport and disposal off-site. Organic vapor readings, air flow rates, temperature and other pertinent data must be monitored throughout MPE/AS activities to calculate the contaminant removal quantities. The Authority will be responsible for disposal of recovered fluids. The Consultant will be responsible for coordinating with the Authority's licensed waste removal contractor for this service.

Remedial Systems: Operation, Maintenance, and Compliance Monitoring

For operation and maintenance (O&M), the Consultant must be familiar with the remediation technologies that may be used at any Authority location. A licensed N2 operator experienced in operating compressors, blowers, air strippers (multi-stage diffusers), pneumatic and electrical pumps, oil water separators and other related equipment may be required. The operator must complete and maintain an operation log, detailing activities performed during each site visit. The operator shall perform routine maintenance, with associated costs for routine replacement parts considered part of the contract and reimbursed as a direct expense. Major or more extensive repairs/replacements must also be conducted as part of this contract; however, an extraordinary maintenance cost may require a request for additional funding. The operator must continuously evaluate the performance of the remedial systems, not only based on system operation, but also upon sample results. The focus of these evaluations should be to confirm that the systems are operating efficiently. System modifications that direct or enhance remedial efforts such as improved contaminant mass removal and/or containment should be considered. The operator must also react and respond immediately to any results that indicate a permit condition has been violated and respond to NJDEP requests to modify system operations.

The Consultant shall operate and maintain the remediation systems in accordance with the permit parameters and manufacturers' recommendations. The NJDEP has directed that systems must operate 24 hours a day, 7 days a week except for routine maintenance. The Consultant is expected to be on 24-hour call in the event of a system malfunction and /or shutdown.

The assigned LSRP shall prepare technical reports at a frequency currently established for each project site. Reports shall be consistent in format and content to the Remedial Action Progress Reports (RAPR) previously required by the NJDEP as part of the Technical Requirements For Site Remediation (N.J.A.C. 7:26E). Examples of past reports will be made available for review upon request. In addition to the RAPRs, responses must be provided to NJDEP directives in a timely manner to ensure that the Authority remains in compliance. These progress reports may be abbreviated at the discretion of the Authority and assigned LSRP.

If agreed upon by the Authority, the Consultant, as the assigned LSRP, should make modifications to the compliance monitoring requirements and remedial strategy as conditions change. The Consultant shall prepare an annual report on a calendar year basis, summarizing of the status of each site.

SECTION VII
State Contractor Political Contributions Compliance
Public Law 2005, Chapter 51, Executive Order 134 and Executive Order 117

In order to safeguard the integrity of State government procurement by imposing restrictions to insulate the award of State contracts from political contributions that pose the risk of improper influence, purchase of access, or the appearance thereof, Executive Order 134 was signed on September 22, 2004 ("Executive Order 134"). The Order is applicable to all State agencies, the principal departments of the executive branch, any division, board, bureau, office, commission within or created by a principal executive branch department, and any independent State authority, board, commission, instrumentality or agency. Executive Order 134 was superseded by Public Law 2005, c.51, signed into law on March 22, 2005. In September 2008, Executive Order 117 was signed and became effective November 15, 2008. It applies to the same government contracting entities subject to Executive Order 134, but extends the political contribution restrictions by expanding the definition of "business entity" to include, for example, more corporate shareholders and sole proprietors. Executive Orders 134 and 117, and Public Law 2005, c.51 contain restrictions and reporting requirements that will necessitate a thorough review of the provisions. Pursuant to the requirements of PL 2005, c.51, the terms and conditions set forth in this section are material terms of any OPS resulting from this RFEI or RFP:

DEFINITIONS

For the purpose of this section, the following shall be defined as follows:

- (a) Contribution – means a contribution reportable as a recipient under "The New Jersey Campaign Contributions and Expenditures Reporting Act." P.L. 1973, c. 83 (C.19:44A-1 et seq.), and implementing regulations set forth at N.J.A.C. 19:25-7 and N.J.A.C. 19:25-10.1 et seq. Through December 31, 2004, contributions in excess of \$400 during a reporting period were deemed "reportable" under these laws. As of January 1, 2005, that threshold was reduced to contributions in excess of \$300.
- (b) Business Entity – means any natural or legal person; business corporation (and any officer, person, or business entity that owns or controls 10% or more of the corporation's stock); professional services corporation (and any of its officers or shareholders); limited liability company (and its members); general partnership (and its partners); limited partnership (and its partners); in the case of a sole proprietorship: the proprietor; a business trust, association or any other legal commercial entity organized under the laws of New Jersey or any other state or foreign jurisdiction, including its principals, officers, or partners. The definition of a business entity also includes (i) all principals who own or control more than 10 percent of the profits or assets of a business entity ; (ii) any subsidiaries directly or indirectly controlled by the business entity; (iii) any political organization organized under section 527 of the Internal Revenue Code that is directly or indirectly controlled by the business entity, other than a candidate committee, election fund, or political party committee; and (iv) if a business entity is a natural person, that person's spouse or child, residing in the same household.

BREACH OF TERMS OF THE LEGISLATION

It shall be a breach of the terms of the contract for the Business Entity to (i) make or solicit a contribution in violation of the Legislation, (ii) knowingly conceal or misrepresent a contribution given or received; (iii) make or solicit contributions through intermediaries for the purpose of concealing or misrepresenting the source of the contribution; (iv) make or solicit any contribution on the condition or with the agreement that it will be contributed to a campaign committee or any candidate of holder of the public office of Governor, or to any State or county party committee; (v) engage or employ a lobbyist or consultant with the intent or understanding that such lobbyist or consultant would make or solicit any contribution, which if made or solicited by the business entity itself, would subject that entity to the restrictions of the Legislation; (vi) fund contributions made by third parties, including consultants, attorneys, family members, and employees; (vii) engage in any exchange of contributions to circumvent the intent of the Legislation; or (viii) directly or indirectly through or by any other person or means, do any act which would subject that entity to the restrictions of the Legislation.

CERTIFICATION AND DISCLOSURE REQUIREMENTS

- (a) The Authority shall not enter into a contract to procure from any Business Entity services or any material, supplies or equipment, or to acquire, sell or lease any land or building, where the value of the transaction exceeds \$17,500, if that Business Entity has solicited or made any contribution of money, or pledge of contribution, including in-kind contributions to a candidate committee and/or election fund of any candidate for or holder of the public office of Governor, or to any State, county or municipal political party committee, or legislative leadership committee during specified time periods.
- (b) Prior to the award of any contract or agreement, the intended Awardee shall submit the Certification and Disclosure form, certifying that no contributions prohibited by the Legislation have been made by the Business Entity and reporting all contributions the Business Entity made during the preceding four years to any political organization organized under 26 U.S.C.527 of the Internal Revenue Code that also meets the definition of a "continuing political committee" within the means of N.J.S.A. 19:44A-3(n) and N.J.A.C. 19:25-1.7. Failure to submit the required forms will preclude award of a contract under this RFP, as well as future contract opportunities.
- (c) Further, the Contractor is required, on a continuing basis, to report any contributions it makes during the term of the contract, and any extension(s) thereof, at the time any such contribution is made.

STATE TREASURER REVIEW

The State Treasurer or his designee shall review the Disclosures submitted pursuant to this section, as well as any other pertinent information concerning the contributions or reports thereof by the intended awardee, prior to award, or during the term of the contract, by the contractor. If the State Treasurer determines that any contribution or action by the contractor constitutes a breach of contract that poses a conflict of interest in the awarding of the contract under this solicitation, the State Treasurer shall disqualify the Business Entity from award of such contract.

ADDITIONAL DISCLOSURE REQUIREMENT OF P.L. 2005, C. 271

Contractor is advised of its responsibility to file an annual disclosure statement on political contributions with the New Jersey Election Law Enforcement Commission (ELEC), pursuant to P.L. 2005, c. 271, section 3 if the contractor receives contracts in excess of \$50,000 from a public entity in a calendar year. It is the contractor's responsibility to determine if filing is necessary. Failure to so file can result in the imposition of financial penalties by ELEC. Additional information about this requirement is available from ELEC at 888-313-3532 or at www.elec.state.nj.us.

ADDITIONAL DISCLOSURE REQUIREMENT OF P.L. 2005, C. 51 (EXECUTIVE ORDER NO. 117)

Executive Order No. 117 (Corzine 2008) is designed to enhance New Jersey's efforts to protect the integrity of government contractual decisions and increase the public's confidence in government. The Executive Order builds on the provisions of P.L. 2005, c. 51 ("Chapter 51"), which limits contributions to certain political candidates and committees by for-profit business entities that are, or seek to become, State government vendors.

Executive Order No. 117 extends the provisions of Chapter 51 in two ways:

1. The definition of "business entity" is revised and expanded so that contributions by the following individuals also are considered contributions attributable to the business entity:
 - Officers of a corporation, any person or business entity who owns or controls 10% or more of the corporation's stock, and professional services corporations, including any officer or shareholder, with the term "officer" being defined in the same manner as in the regulations of the Election Law Enforcement Commission regarding vendor disclosure requirements (N.J.A.C. 19:25-26.1), with the exception of officers of non-profit entities;
 - Partners of general partnerships, limited partnerships, and limited liability partnerships and members of limited liability companies (LLCs), with the term "partner" being defined in the same manner as in the regulations of the Election Law Enforcement Commission regarding vendor disclosure requirements (N.J.A.C. 19:25-26.1);
 - In the case of a sole proprietorship: the proprietor; and
 - In the case of any other form or entity organized under the laws of this State or any other state or foreign jurisdiction: the entity and any principal, officer, and partner thereof;
 - Spouses, civil union partners, and resident children of officers, partners, LLC members, persons owning or controlling 10% or more of a corporation's stock, all shareholders of a professional services corporation, and sole proprietors are included within the new definition, except for contributions by spouses, civil union partners, or resident children to a candidate for whom the contributor is eligible to vote or to a political party committee within whose jurisdiction the contributor resides.
2. Reportable contributions (those over \$300.00 in the aggregate) to legislative leadership committees, municipal political party committees, and candidate committees or election funds for Lieutenant Governor are disqualifying contributions in the same manner as reportable contributions to State and county political party committees and candidate committees or election funds for Governor have been disqualifying contributions under Chapter 51.

Executive Order No. 117 applies only to contributions made on or after November 15, 2008, and to contracts executed on or after November 15, 2008.

Only the intended Awardee will be required to submit the required P.L. 2005 c. 51/Executive Order 117 and P.L., 2005, c. 271 forms. The **combined** Chapter 51/Executive Order 117 form and the Chapter 271 form are available on the Department of Treasury Division of Purchase and Property's website at: <http://www.state.nj.us/treasury/purchase/forms.htm>.

The Director of Division of Taxation shall give notice to the set-off to the taxpayer, the provider of goods or services, or the contractor or subcontractor of construction projects and provide an opportunity for a hearing with thirty (30) days such notice under the procedures for protests established under R.S. 54:49-18. No requests for conference, protest or subsequent appeal to the Tax Court from any protest under this section shall stay the collection of the indebtedness.
