Engineering Department**

**Order for Professional Services No. T3832  
Supervision of Construction Services for Contract No. T100.587  
Turnpike Deck Reconstruction Milepost 90.0 to 91.37**

**Responses to Inquiries  
Request for Technical and Fee Proposal**

1. **Inquiry:** Quick question, the submittal requirements for the Tech & Fee proposals appear to be somewhat different in the cover letter and in the RFP page 4. Can you please clarify?

**Response:** Follow the process outlined under "closing date" within page 4 and 5 from the RFP.

2. **Inquiry:** In reviewing the RFP, it is noted that the manhour table has increased significantly however, there is a discrepancy on page 16.

- The NTP is January 2022 and completion of assignment is listed as July 2024 = 31 months
- The final paragraph on this page specifically states a duration of 34 months.

Please advise if 31 or 34 months is the anticipated duration.

**Response:** The 34 months includes contract closeout period which is also reflected in the increased man-hour table.

3. **Inquiry:** The consultant received a letter of Request for Technical and Fee proposal from the NJTA for subject OPS, in accordance to that letter Technical proposal will submit to Chris Jordan via e-mail at [chjordan@njta.com](mailto:chjordan@njta.com) and Fee proposal will be to Jennifer Kanski via e-mail at [kanski@njta.com](mailto:kanski@njta.com) but as per RFP section II- Administrative and Contractual Information- Technical Proposal mentioned one (1) PDF copy to above mentioned e-mail and four(4) hard copies will deliver to Authority Headquarters.

We need clarification, do we submit only one pdf via e- mail, or four hard copies are also required to submit on authority headquarters.

**Response:** Follow the process outlined in Section II – Administrative and Contractual Information
