The agency proposal follows:

Summary

This chapter implements N.J.S.A. 27:1A-3.1 (P.L. 2023, c.339, effective January 16, 2024), which authorizes the New Jersey Department of Transportation ("Department") to establish and administer a toll collection and enforcement system on behalf of New Jersey tolling entities and to enter into reciprocal agreements for enforcement of toll violations with toll authorities from other states.

The Department may establish and administer a system of adjudicating and enforcing the collection of motor vehicle tolls imposed by each New Jersey tolling entity that shall include provisions for notice, an opportunity to be heard and appeal, and the suspension and/or denial of motor vehicle registrations.

On behalf of a New Jersey tolling entity, the Department may direct the New Jersey Motor Vehicle Commission ("Commission") to suspend every motor vehicle registration of the owner ("owner") of a motor vehicle that has accumulated: unpaid tolls and fees collectively totaling \$500 or more over the past three years; or six or more unpaid toll violations, with at least one violation having occurred after the effective date of P.L. 2023, c.339.

Before commencing an action to suspend a motor vehicle registration for toll violations, the Department will provide the registered owner with written notice, by first class mail, to the address of the owner. The written notice will advise the owner of the Department's intent to suspend the motor vehicle registration(s) of the owner or deny motor vehicle registration privileges of the owner and shall afford the owner the opportunity to be heard by the Department and appeal protections in a manner sufficient to address whether the suspension is based on a false, mistaken, or unjustified claim.

The New Jersey tolling entities and the Department may enter into inter-agency agreements to permit the New Jersey Turnpike Authority to enter into reciprocity agreements with their counterparts in other states or the Department may do so on the New Jersey tolling entities' behalf. Toll enforcement fees and penalties will be enforced on owners in states that enter into these reciprocity agreements, including as part of the reciprocity agreements to collect unpaid tolls and fees, and suspend the motor vehicle registration of the owner.

Under the reciprocity agreement, written notice will be provided to owners who reside in one of the participating states and owe tolls to an agency located in any of the other states participating in the reciprocity agreement or to owners who reside in New Jersey and owe tolls to the state participating in the reciprocity agreement.

Owners are afforded the opportunity to be heard and appeal protections to address whether a claim pursued against an owner of a motor vehicle registered in this State is false, mistaken, or unjustified. Owners can present evidence to another state's toll authority via mail, telephone, electronically, or they may appear before the Department upon a clear showing of a factual or legal issue as to the outstanding tolls, at the sole discretion of the Department.

A 180-day amnesty program is established to allow for the reduction of 25% of unpaid tolls and fees totaling \$500 or more if all outstanding tolls are otherwise paid in their entirety.

Any unpaid tolls or fees that are collected will be paid directly to the respective tolling entities and the collected tolls and fees are prohibited from being diverted into the State budget's general fund.

The proposed new rules provide the procedures by which the Department will establish and administer a toll collection and enforcement system on behalf of New Jersey tolling entities and to enter into reciprocal agreements for the enforcement of toll violations with toll authorities from other states.

Subchapter 1 provides the purpose and scope of the chapter.

Subchapter 2 provides the definitions which are used throughout the chapter.

Subchapter 3 provides provisions relating to interagency agreements.

Subchapter 4 provides provisions relating to toll reciprocity agreements.

Subchapter 5 provides general provisions relating to the suspension or denial of a motor vehicle registration by the Department.

Subchapter 6 provides provisions relating to the proposed motor vehicle registration suspension.

Subchapter 7 provides provisions relating to a Department hearing.

Subchapter 8 provides provisions relating to a Hearing Officer's powers and duties.

Subchapter 9 provides provisions relating to the determinations of a Hearing Officer.

Subchapter 10 provides provisions relating to appeals.

Subchapter 11 provides provisions relating to the Department's direction to suspend a motor vehicle registration.

Subchapter 12 provides provisions relating to the amnesty program.

Subchapter 13 provides provisions relating to the fees associated with the collection and enforcement of toll violations.

N.J.S.A. 27:1A-3.1. authorizes the Department, each New Jersey tolling entity, and the Commission, to work cooperatively under the direction and coordination of the Department, to specially adopt rules to implement the toll collection and enforcement system, which are to be effective after providing 30 days' notice for the purpose of receiving public comment and for 18 months thereafter, and to promulgate rulemaking in the ordinary course to implement the Act. Pursuant to this authority, the Department hereby specially adopts as new N.J.A.C. 16:3, which authorizes the Department to establish and administer a toll collection and enforcement system on behalf of New Jersey toll entities, to enter into interagency agreements with New Jersey tolling entities, to enter into reciprocal agreements for the enforcement of toll violations with out-of-state tolling entities, interstate toll entities or other states, and to establish standards implementing the portions of the toll collection and enforcement system that are described above.

The Department concurrently proposes to readopt the specially adopted new rules, which are described below. Such readoption extends the new chapter expiration date by an additional 180 days to **X, 202X**, pursuant to N.J.S.A. 52:14B-1 et seq.

N.J.S.A. 27:1A-3.1.1 authorizes the Department to specially adopt rules to implement the toll collection and enforcement system, which are to be effective after providing 30 days' notice for the purpose of receiving public comment, this notice is excepted from the rulemaking calendar requirement pursuant to N.J.A.C. 1:30-3.3(a)2.

Social Impact

The specially adopted new rules will have a positive social impact because they will promote toll payment compliance. Noncompliance with toll payment obligations may result in the suspension of a registered motor vehicle owner's registration and the ability to lawfully operate the vehicle or the denial of motor vehicle registration privileges of the owner.

Economic Impact

The Department anticipates that the administrative procedures set forth herein will have a positive economic impact on the State by establishing predictability and uniformity in toll collection and reciprocity procedures.

The possibility of motor vehicle registration suspension may incentivize motorists to pay their tolls so that suspension does not occur. These rules will also allow for the collection of tolls and fees for violations committed in New Jersey, even if the car is registered in another state.

The Commission currently requires payment of a \$100 restoration fee for the restoration of each registration that has been suspended or revoked pursuant to any law or regulation. Since the Department may seek suspension of the motor vehicle registration, the specially adopted new rules may increase the need for registration restorations, and there may be an increase in the number of restoration fees collected by the Commission.

The Department will incur administrative expenses associated with establishing and administering a toll collection and enforcement system, but it may establish minimum administrative expenses related to the administration of enforcing the collection of tolls and fees that may help offset those expenses.

Federal Standards Statement

The administrative procedures set forth herein are in conformity with the requirements of 23 CFR Part 129. Therefore, a Federal standards analysis pursuant to N.J.S.A.52:14B-23 is not required.

Jobs Impact

The Department does not expect that the concurrently proposed readoption of the specially adopted new rules will result in a significant generation of jobs in the State.

Agriculture Industry Impact

The concurrently proposed readoption of the specially adopted new rules have no impact

on the agriculture industry of the State of New Jersey.

Regulatory Flexibility Statement

The concurrently proposed re adoption of the specially adopted new rules do not impose reporting, recordkeeping, and compliance requirements on small businesses as the term is defined in the New Jersey Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq.

The concurrently proposed re adoption of the specially adopted new rules will provide the processes and manner by which the Department will establish and administer a system of adjudicating and enforcing the collection of motor vehicle tolls imposed by tolling entities. No preferential treatment has been specifically provided for small businesses in the proposed new rules.

Housing Affordability Impact Analysis

The concurrently proposed re adoption of the specially adopted new rules have no impact on the affordability of housing in New Jersey and will not evoke a change in the average costs associated with housing and therefore no further analysis is required.

Smart Growth Development Impact Analysis

The concurrently proposed re adoption of the specially adopted new rules have no impact on the achievement of smart growth and will not evoke a change in housing production in Planning Areas 1 or 2, or within designated centers, pursuant to the State Development and Redevelopment Plan in New Jersey and therefore no further analysis is required.

Racial and Ethnic Community Criminal Justice and Public Safety Impact

The Department has evaluated this rulemaking and determined that it will not have an impact on pretrial detention, sentencing, probation, or parole policies concerning adults and juveniles in the State. Accordingly, no further analysis is required.
