

NEW JERSEY TURNPIKE AUTHORITY

2025 - 2029 PROJECT SUMMARY

September 2025

NEW JERSEY TURNPIKE AUTHORITY

OPS ISSUANCE AND CONSTRUCTION

CONTRACT AWARDS

2025-2029 PROJECTS SUMMARY

The New Jersey Turnpike Authority (Authority) operates and maintains two of the busiest toll roads in the United States – the New Jersey Turnpike and the Garden State Parkway. These roads provide safe, quick, and convenient routes for thousands of drivers every hour of every day. Stewardship of these roadway systems requires sophisticated planning and constant maintenance to provide its customers with a safe, efficient, innovative, and resilient toll road system that facilitates mobility in New Jersey and the Northeast United States.

The Authority's Turnpike Revenue Bond Resolution, Section 710, requires the Board of Commissioners to adopt an Annual Budget each year. The Annual Budget funds projects over the subsequent 5-year period through two funding sources: revenue funds and bond funds. Revenue funded projects are primarily for routine maintenance of Authority assets as well as small projects and short-term efforts. Maintenance projects include pavement and bridge resurfacing, facility upgrades, miscellaneous repair work, and studies. Bond funded projects include all projects in the Authority's capital improvement program (CIP). The CIP includes moderate to large scale projects that provide replacement, rehabilitation, and/or improvement of existing assets. Examples of CIP projects include bridge rehabilitation and replacement, culvert rehabilitation, conversion of highway lighting to LED, roadside barrier replacement, and capacity improvements.

In order to provide more information to consultants, vendors, and contractors within the transportation and technology industries and to the general public, the Authority has provided the following summary of projects that are anticipated to be awarded during the five-year period 2025 to 2029. The summary shows estimated dollar values for issuance of Orders for Professional Services (OPS) and award of Construction contracts and indicates the approximate year they will be implemented.

The projects that make up the 2025 Annual Budget demonstrate the Authority's continued investment in its Mission.

Correspondingly, the projects support many of the Authority's Core Values including: Safety, People, State of Good Repair/Resiliency & Sustainability, Mobility/Customer Satisfaction, Technology, and Finance. The capital investment in these projects is expected to boost mobility and improve safety for future generations of New Jersey patrons.

MISSION

**We are committed to constantly
improving the safety,
technology, and resilience
of our toll roadway systems
through sound fiscal policy and
maintaining excellent state of
good repair that promotes the
connectedness of our customers
across the state and region.**

Note: Projects, schedules, and dollar values shown herein are estimates and may change as projects are updated and more detailed information becomes available.

OPS ISSUANCES AND CONSTRUCTION CONTRACT AWARDS

SUMMARY PROJECT TYPES (2025-2029)

	\$Thousands
Bridge Construction, Preservation, and Security	\$1,410,000
Capacity Enhancements - Parkway	\$401,000
Capacity Enhancements - Turnpike	\$4,946,000
Drainage Structures	\$277,000
Facilities	\$233,000
Interchanges	\$90,000
Other Roadway Improvements	\$116,000
Pavement Resurfacing	\$470,000
Roadside Barrier	\$243,000
Roadway Lighting	\$218,000
Total	\$8,404,000

Note: Projects, costs, and schedules are
estimates and subject to change
